

Speed Limit Defeated

COLUMBUS, Ohio (AP) — The House unexpectedly defeated today a bill to establish a permanent 55 mile an hour speed limit in Ohio after opponents argued against "blackmail" by the federal government which has mandated that states put into effect the lower speed limit by June 30.

The bill failed by three votes to gain the required two-third majority needed for immediate enactment as an emergency measure. The vote was 63 favorable to 25 against.

An identical measure is awaiting a floor vote in the Senate.

Spring Storm Brings Snow, Cold, Rain

By THE ASSOCIATED PRESS

A powerful spring storm with a midwinter accent buried parts of the northern and central Rockies under heavy snow today and sent an icy chill eastward into the adjacent Plains.

Six to 12 inches of snow piled into the Rockies from southern Montana through Colorado. Heavy-snow warnings remained up for both states today and for sections of western Wyoming as well.

Cold rain or rain and snow mixed brought stockmen's advisories in the western Dakotas, Wyoming and Colorado.

The National Weather Service said the storm was accompanied by very cold air aloft that would be comparable to conditions found during midwinter.

High winds churned around the storm center. Gusts of 60 miles per hour were recorded near Rapid City, S.D., late Monday. Winds over 40 m.p.h. were common over the Rockies and into the Plains. Blowing dust cut visibility Monday in western Kansas, Nebraska and Texas.

Thunderstorms broke out over the southern Plains through Monday and ranged into portions of the Midwest early today. Showers spilled eastward as far as the upper Ohio Valley. Showers and thunderstorms also roamed the lower Mississippi Valley.

Large hail accompanied the storms in numerous areas of Texas. Hail shredded some crops near Millerville, Tex., where 3 inches of rain fell in one hour Monday.

Clear skies covered most of the Southwest into West Texas, widely scattered sections of the midcontinent and most of the Eastern Seaboard.

Temperatures before dawn ranged from 21 at Flagstaff, Ariz., to 80 at Key West, Fla.

Funds Released For Marion Park Purchase

The Ohio Controlling Board Tuesday released \$107,489.79 to acquire two parcels of land adjacent to A. W. Marion State Park.

The Department of Natural Resources will use the land to enlarge the camping area and other park facilities.

The department will purchase 98 acres from Reubin Jones at a price of \$1,075 per acre and .98 of an acre from Vernon Lowery at a cost of \$1,989.79.

Pickaway-Ross Representative Myrl Shoemaker today announced the Controlling board action. Shoemaker, who is chairman of the house finance committee, is a member of the controlling board.

Sponsor Arthur Bowers, D-98 Steubenville, warned that federal highway funds would be cut off if the permanent law were not enacted. Opponents like Rep. Richard H. Finan, R-19 Cincinnati, argued that "to say we have to go along with it is not true. We certainly ought to think about standing up and showing our back bone to the federal government."

And Rep. John A. Galbraith, R-69 Maumee, asserted, "The 55 speed limit is not realistic. Our cars are made to go faster than that and our highways are built for greater speed than that."

The bill emerged from Bowers' Highways and Safety Committee with a provision that Ohioans convicted of driving between 55 and 70 miles an hour will not be assessed points under the state's penalty point system.

Under the law, a driver can have his license suspended for six months if he accumulates 12 points over a two-year span. A conviction for speeding carries two points.

A similar bill has been recommended for approval by a Senate committee but is being kept aside until Bowers' bill comes over from the House to determine whether differences can be resolved.

Senators, who returned from weekend recess for a Monday night floor session, scheduled a vote today on a bill that exempts Ohio's disabled veterans from having to purchase hunting, trapping, or fishing licenses.

Two bills were approved and sent to the House at the Monday night session. They permit township trustees to be reimbursed for expenses when attending township conferences and meetings, and revise statutes under which animal and livestock owners can be reimbursed by counties for animals killed by stray dogs. Such payments are made, after verification, from county dog and kennel funds.

Sen. Robert T. Secrest, D-20 Cambridge, introduced a bill that would provide free auto license plates for

Ohio's six living Congressional Medal of Honor winners. "They deserve it. A lot of states, including Texas and Florida, already have done it," Secrest said.

In other developments, House Finance Chairman Myrl Shoemaker, D-88 Bourneville, said it now appears that there won't be a House floor vote on the state's two-year budget bill until next week. Leaders had hoped to bring it up late this week, possibly at an unusual Friday session.

The chairman said some details remained to be worked out and that he wanted members to have time to study the big spending measure—about \$12 billion—during the weekend.

Reportedly, majority Democrats are trying to work out a modest increase in payments to recipients of Aid to Dependent Children.

Shoemaker pointed out that Ohio currently is making payments below the national average with benefits totaling a maximum \$209 a month for a family of four.

U.S. Supplies Missiles To Jordan

WASHINGTON (AP) — The United States is going to supply Jordan with Hawk anti-aircraft missiles and other air defense equipment despite a freeze on new U.S. arms shipments to Israel.

Auto Jack Not Wanted By Firms

DAYTON, Ohio (AP)—James Vargo of Dayton claims the auto industry isn't interested in the new auto jack he invented although it can be used on sloping driveways without wheel chocks.

James Vargo said he got the idea while attempting to lift his car with a regular bumper jack on his sloping driveway.

With the help of a nephew, Mike Kessler, the Keva Auto Safety jack came into being. The name came from their last names.

The jack was designed to work on any car on a slope or berm. With four of them, Vargo said the auto could be lifted completely off the ground.

Although Vargo's jack resembles the usual bumper jack, it doesn't use the bumper. It fits instead into a rigid sleeve bolted to the car.

Vargo has obtained a patent on the jack but he said the auto companies claim the idea isn't new although they haven't looked at his version.

I'm not saying it's the best system in the world, but it's a 100 per cent improvement over what they've got," said Vargo.

Vargo said bumper jacks have remained basically unchanged over the years.

"Pickup trucks still have the same type of jack Henry Ford started with," Vargo said.

He said his jack could be used if the automakers would mount four hollow sleeves behind the bumpers of their cars.

Vargo, a former Air Force mechanic, said the safety problem with regular bumper jacks would grow as Detroit makes bumpers lighter to cut costs. Vargo said his would work even if water bumpers were installed.

He has received flat refusals from Ford, General Motors and American Motors.

American Motors said the system "could not be incorporated into ... present product planning."

Vargo has his 1973 American Motors Gremlin equipped to use the system.

U.S. officials said the Jordan arms deal does not represent a "new commitment" and will not shift the balance of power in the Middle East.

These officials, requesting anonymity, said Secretary of State Henry A. Kissinger had given Jordan "a verbal commitment" to help its air defense while he was on a negotiating trip to the area more than a year ago.

Subsequently, an American survey team was sent to Jordan, and King Hussein completed details for delivery of "a small number of Hawks" and other equipment on his visit here last week, these officials said.

In the meantime, shipment of new arms to Israel remains suspended while the Ford administration pursues its "reassessment" of U.S.-Middle East policy. Included in the ban are about 200 Lance mobile missiles, although arrangements for their delivery had already begun.

"I see no equation here," said one U.S. official when asked how that could be squared with completion of the Hawk deal. "You are comparing apples and oranges."

Meanwhile, Kissinger, appearing today on NBC's Today Show, acknowledged that the Ford administration is critical of Israel's "inflexibility" in recent negotiations.

It is a "myth" that President Ford has privately criticized Israel for being inflexible during negotiations in March over a withdrawal in Sinai, Kissinger said.

Xenia Gazette Wins Pulitzer Prize

XENIA, Ohio (AP) — The Xenia Daily Gazette, which published continuously despite a tornado that killed 32 persons on April 3, 1974, has been awarded a Pulitzer Prize for local general reporting.

"Our whole saga is one of a lot of courage, guts and dependability for all 80 persons who work for us," said Jack Jordan, editor and general manager of the Gazette.

The newspaper continued publishing for the town of 25,000, after the tornado hit at 4:40 p.m. April 3, using the printing presses of the nearby Middletown Journal, another member of the Chew Newspapers of Ohio.

The Gazette was cited in the award, announced Monday at Columbia University, for its coverage of the tornado "under enormous difficulties."

Shortly after the tornado hit, the paper changed to morning publication when its carriers had to begin to go to school in the afternoon to compensate for destroyed school buildings. The carriers are now in class between noon and 6 p.m.

"We never missed publication. Our building was knocked out," Jordan said. His dozen reporters worked in an office that was without utilities, and was badly damaged, allowing the wind to blow through it and rain and snow pour in.

When the tornado hit, carriers were delivering the afternoon newspapers. "A great number of our papers were distributed as far north as Canada where the winds let them down," he said.

The two or three reporters still in the Gazette building near the center of downtown quickly moved onto the streets and countryside to survey the damage, Jordan said. Other reporters joined after caring for their families. Of the 80 employees at the Gazette, 16 lost all their possessions, he said.

"By 7 p.m. we had a pretty doggone good summary on what happened," he said. Phone lines were out. The city was a mass of darkness. Electrical lines and gas were inoperative.

For a week, the reporters worked in shifts as copy was ferried to Middletown where it was printed. The printed papers were distributed in the

"The President made a public criticism, not a private criticism, when he referred to inflexibility," Kissinger said.

Kissinger said that in any event, the purpose was to make it clear that new decisions had to be made "by all of the parties" and that progress toward peace must not be stopped.

"The allegation of private criticism of Israel comes mostly from people who think they are helping Israel but who, in my view, are not helping Israel by making these allegations," Kissinger said.

Only after Ford's meetings next month with Egyptian President Anwar Sadat and Israeli Prime Minister Yitzhak Rabin will the decisions in the reassessment be made, Kissinger added.

One of the elements known to be under study is whether to name a career foreign service officer to Jerusalem to succeed Ambassador Kenneth B. Keating, who died Monday in New York.

This would place Israel on an equal footing with Egypt and Saudi Arabia, where Kissinger has moved in Middle East specialists upon whom he relies heavily.

Keating, who would have been 75 on May 18, had served earlier as ambassador to India, but his background was largely political, having been a longtime congressman from Rochester, N.Y., and then a U.S. senator.

late afternoon to news hungry Xenia residents whose only source of information was the newspaper and what they could learn from portable radios.

Jordan said he is anxious to return to being an afternoon newspaper. Since turning to a morning publication, his circulation has fallen 2,000 to 13,432 at the end of March.

"It's a fantastic once in a lifetime experience. I wouldn't want to go through it again, but this Pulitzer certainly wraps it up," Jordan said.

ROUNDTOWN

THE largest round circus tent in the world was filled by one of the largest one-day crowds in quite some time, according to Hoxie Bros. Circus officials ...

The circus presented two exciting shows at the Pickaway County Fairgrounds Monday to benefit the Brotherhood of Police Officers ... Sgt. Larry Pontious of the police department said the crowd estimate was about 4,500 people.

MAKE plans now to attend the Pickaway County Bicentennial program 8 to 9 p.m. Saturday at the Fairgrounds Coliseum ... The program kicks off the observance of our Nation's 200th birthday by Pickaway Countians.

PICKAWAY County has to be one of the most beautiful spots in the world ... This morning, thanks to Robert Drummond of Drummond Land Clearing, we were privileged to see it from the passenger's seat of his helicopter ...

Our itinerary followed the Scioto River south from Circleville to the Ross County line and included a closeup view of Drummonds land clearing operation on the John and Elizabeth Stevenson farm ...

We enjoyed every minute of the flight, but hovering over the work site scrambled our morning eggs (Continued on Page 2)

REAPPOINTED—Pickaway County Sheriff Dwight Radcliff was reappointed to the County Sheriff's Standard Car Marking and Uniform Commission by Ohio Gov. James A. Rhodes. Radcliff was originally appointed to the non-partisan commission by John Gilligan Jan. 13, 1973, and assumed the chairmanship of the commission Feb. 7. He is the only Democrat on the three-member commission that works under the Ohio Revised Code to prescribe laws for proper sheriff's department uniforms and standardize department vehicles.

2-Year-Old Boy Rescued From Well

MIAMI, Fla. (AP) — "We got you, babe. Come on," crooned a rescue worker after chiseling the final inches to 2-year-old Michael Smith, trapped 10 feet down a narrow well in a bean field.

The naked toddler was freed after a five-hour effort by rescuers Monday night. Michael was reported in satisfactory condition today at a nearby hospital.

"He was shaking from the cold water, but he was okay," said Dade County fireman Raul Chavez.

The child's cries for his mother encouraged rescuers as they used a mechanical shovel to dig a hole parallel to the 9-inch-wide well. Jackhammers and chisels were used

to tunnel horizontally through limestone to the child.

"He started slipping toward the end, and we got scared we'd lose him," fireman Gregory Gerlach said.

Chavez kept hold of Michael with two hooked poles to keep him from falling deeper and drowning. He never went farther than chest-high in the water.

"We had him hooked by the diapers, but they were the disposable kind, and after a few hours, they sort of disintegrated," Chavez said. "We had him pretty good, though, and I kept telling him to keep his head turned up so he wouldn't go under water."

Michael's mother, Barbara Jean Smith, 20, said she had taken her son with her when she went to pick beans in the field at \$8 a day. Miss Smith, who is unmarried, said she couldn't afford a babysitter so she left Michael in a car at the edge of the field.

Straw baskets had been placed over several wells in the field.

"One of the pickers took this one out," said Miss Smith. "I found out about it when a lady called over to me and said my baby done fell in the well."

"He's my only boy," Chavez said that at one point, Michael turned completely around in the hole.

"He was a squirmy little devil," the fireman said.

It was the sixth time in about four years that a child has fallen into one of the barely visible irrigation wells in south Dade County vegetable fields. One child died; the others were rescued.

The county has passed a mandatory well-capping ordinance covering fields in which the public can pick fresh vegetables, but this field was not covered because it was privately picked.

"It feels terrible to lose a life," Chavez said. "I'm certainly glad we didn't lose this one."

Weather

Partly cloudy and mild with chances of showers today, tonight and Wednesday. High yesterday, 69; low, 49. High tomorrow, mid 70s. Chances of precipitation, 30 per cent today, 20 per cent tonight, 30 per cent tomorrow.

Reds Consolidate Victory In Indochina

By THE ASSOCIATED PRESS

Cambodia's new Communist-backed rulers said today they would respect the national and territorial integrity of neighboring states but would not allow any foreign troops on their soil.

Cambodia's neighbors are South Vietnam, Laos and Thailand. It was not known whether the reference to foreign troops included the North Vietnamese.

A Khmer Rouge broadcast from Phnom Penh said Cambodia would continue to seek good relations with countries of Asia, Africa and North and South America, but did not mention setting up diplomatic ties or requests for foreign aid.

"We will work hard for ourselves," the broadcast said.

In Bangkok, the Thai government decided to hold on to all Vietnamese aircraft brought into the country by fleeing Vietnamese refugees and urged the U.S. government not to remove any from Thai soil. The decision came after the United States spirited away at least 25 South Vietnamese warplanes, U.S. sources and witnesses said.

Meanwhile, at Utapao air base in the northern part of the country, the

United States launched an airlift of Cambodian refugees to America, including former Cambodian president Sau Kham Khoy. Khoy, who was evacuated from Phnom Penh before the fall of Phnom Penh, told newsmen he would live in America and "will not go back to Cambodia until there is freedom there."

Hanoi's Vietnam News Agency reported that the forces of the Revolutionary Government in Saigon have taken six islands in the controversial Spratly archipelago in the South China Sea, and "all the puppet forces on these islands were put out of action." It said the islands were taken between April 14 and April 29. China, the Philippines, the former Saigon regime, Taiwan and Malaysia have all claimed the islands, where oil reserves are believed lying offshore.

At the same time, Saigon radio appealed to all fighting men who had left South Vietnam to return to the country and bring back aircraft and other war equipment and surrender to the new regime.

The broadcast also said all islands in Vietnamese waters had been "completely liberated" and that prisoners held by the former government on

some of them have been freed and were returning to mainland Vietnam. The islands included Phu Coq and Con Son, the latter the site of a large penal colony where prisoners were held in dreaded "tiger cages."

Former President Duong Van "Big" Minh of South Vietnam said overwhelming North Vietnamese and Viet Cong military superiority left him no alternative but to surrender the country unconditionally.

In an interview published Monday in the North Vietnamese army newspaper and broadcast by Hanoi Radio, Minh said, "We sincerely rejoiced at your speedy victory."

"The Saigon military forces were no longer in a position to offer resistance. We knew the strength of the Revolutionary Government and the liberation army. The tank units ... were really formidable."

"In these circumstances, to surrender unconditionally was the only possible decision."

The broadcast said the interview was conducted May 1 — the day after the surrender — at the presidential palace in Saigon where the new regime released Minh and 15 other political figures from custody.

In other Indochina developments:

—The Ford administration requested an additional \$507 million in aid for Indochina refugees, but prospects for congressional approval are uncertain.

—The State Department said it has learned that the new Khmer Rouge government in Cambodia has killed about 80 leaders and wives identified with the Cambodian government that fell three weeks ago.

—The Pentagon said the United States has started removing many of the 120 U.S. supplied military planes flown to Thailand by escaping South Vietnamese air force pilots.

After four days of victory celebrations, Hanoi workers have resumed reconstruction work in the bomb-devastated North Vietnamese capital, while in South Vietnam the Revolutionary Government continued imposing its system of order on the country.

Associated Press Writer Daniel De Luce reported from Hanoi that the streets were alive with bicycle traffic and heavy trucks. Young women in blue smocks and trousers, knee-high rubber boots and conical straw hats (Continued on Page 16)

Markets

NEW YORK (AP) — The stock market was unevenly lower today as profit taking stalled the rally of the past four sessions.

The Dow Jones average of 30 industrials, up more than 52 points in the past four sessions, had pulled back 5.24 to 850.36 by noon today. Gainers and losers were about even in active trading on the New York Stock Exchange.

Brokers traced the decline to the normal desire of traders to cash in on some profits after a sharp advance in prices.

Times Mirror, among the volume leaders on the Big Board, rose 1/4 to 19 1/4. A 100,000-share block traded at that price.

At the American Stock Exchange, the market-value index rose .73 to 86.22.

Amid the cross-currents of buying and profit taking, the NYSE ticker tape ran late for much of the morning, and volume had reached 11.61 million shares after the first two hours.

The NYSE's composite index of more than 1,500 common stocks eased .12 to 47.48.

Syntex, the Amex's most active issue, slipped 1/8 to 40.

Congress Hostile To Aid Request

WASHINGTON (AP) — President Ford's \$507-million request for up to 150,000 Indochina refugees is drawing hard and sometimes hostile questioning in Congress.

Chairman Joshua Eilberg, D-Pa., said Monday after the initial hearing on the request that his House immigration subcommittee will need "soul searching" and more information before it acts.

Eilberg said the \$507 million is an estimate by the administration of what the otherwise unlimited programs for South Vietnam and Cambodia refugees will cost.

Subcommittee members pressed for more precise figures on refugees and costs, and Rep. Elizabeth Holtzman, D-N.Y., said any war profiteers, torturers and killers among the refugees should be screened out.

The director of Ford's refugee task force, Ambassador L. Dean Brown, told Eilberg's subcommittee the \$507 million is acutely needed because \$98 million in funds available now will be exhausted in a week.

Meanwhile, there were these related developments:

—The Immigration and Naturalization Service said it is investigating several commercial airlines to determine if they flew illegal aliens into the United States from Indochina.

The probe is not directed toward the huge evacuation of South Vietnam during the final days of the war but at earlier commercial flights, possibly including some airlifts of orphans. U.S. laws prohibit airlines from bringing into the United States any alien lacking a visa.

—The State Department has established a special referral office for Americans wishing to assist in the resettlement of Vietnam refugees. Sponsors assist the refugees in adjusting to their new environment, finding homes and jobs and taking care of their families. The special office has a toll free telephone number of 800-368-1180.

Chloroform Cancer Risk Overplayed?

WASHINGTON (AP) — Consumption of chloroform commonly found in drinking water may pose some danger of cancer, but the effect also may be nil, says a panel of scientists.

The panel said that despite the mixed possibilities, the estimate can't be dismissed because so little is known about the cancer causing potential of the chemical chloroform.

"The study group concludes that there may be some cancer risk associated with consumption of chloroform in drinking water," the scientists said in a report Monday to the Environmental Protection Agency.

The panel said that in a "worst case" analysis of the problem, chloroform might cause 40 per cent of the nation's liver cancer cases.

In reality, the incidence of cancer caused by chloroform in drinking water probably will turn out to be much less, even nil, the scientists said.

Their report follows release last month of an EPA survey which found varying amounts of chloroform in the drinking water of each of 79 cities surveyed. The presence of the chemical is the result of treating drinking water with chlorine.

Findlay Theater Has Films Stolen

FINDLAY, Ohio (AP) — They're paying \$50 here to find the Love Factor.

Operators of a drive-in movie theatre had to turn patrons away Sunday night when thieves swiped their films.

The owners have put up a \$50 reward for the return of the movies Love Factor and When Women Lost Their Tails.

Deaths

MR. C. RICHARD McABEE

The funeral service for Mr. C. Richard McAbee, 43, Route 2, Circleville who died 8:45 p.m. Sunday in Waverly, will be held 2 p.m. Wednesday at Botkin Funeral Home, 194 E. Emmitt St., Waverly. Burial will be at Greenlawn Cemetery, Route 220 near Waverly.

Friends may call at the funeral home 7-9 p.m. Tuesday. Elks Lodge will conduct a service 8 p.m. Tuesday at the funeral home and the American Legion will have a graveside service.

Survivors include his widow, Mrs. Betty Moore McAbee; one step-daughter, Robin Moore; three step-sons, Darby Moore, and Mike and Dave Juenger; three step-grandchildren; one sister, Mrs. James (Eleanor) Price, 550 Garden Parkway, Circleville, nieces and nephews.

See Spiraling Medical Fees

SAN FRANCISCO, Calif. (AP) — Northern California doctors hit by skyrocketing malpractice insurance rates are warning of fee hikes up to 40 per cent as a partial boycott of practice goes into its sixth day.

Some hospitals are considering the possibility of shutting down.

Many physicians, faced with premium boosts of up to 375 per cent, quit practice rather than pay the insurance. Some signed up after two or three days and plan to absorb the cost by raising their office visit fees 10 to 12 per cent.

An operation may cost an additional 40 per cent. Anesthesiologists — the hardest hit by rate hikes — said Monday they intend to charge \$75 more per case.

KEY CLUB OFFICERS—Circleville High School Key Club officers were installed Monday during the Circleville Kiwanis meeting. The officers are, from the left, Larry Schieber, Dan DeFrank, Tom Farynowski, Tom Scherer, Steve Penn. Key club advisor Jim Funk was recognized for his outstanding effort. In other business Monday, Dale Edwards was installed as a new member of the club.

Drivers Are Safer, But Thieves Busy Deputies

Drivers were relatively safe in April, according to the monthly accident report released today by Pickaway County Sheriff Dwight Radcliff. But thieves and vandals kept Sheriff's Deputies busy during the month.

The department investigated 74 accidents in April. There were no fatalities and 50 persons were injured in 26 of the wrecks.

There have been four people killed and 173 injured on county roads in 1975.

As a result of the accidents, seven people were charged with failing to yield the right of way and two for reckless operation. Only four involved drunk drivers.

Deputies made 23 traffic and accident related arrests in April.

The majority of the accidents oc-

Credit Union In Trouble

HAMILTON, Ohio (AP)—Shareholders in the HAMFAB Credit Union at the Fisher Body General Motors plant have learned their savings are worth only 35-cents on the dollar.

Eugene Conkle, examiner for the Ohio Division of Securities, said suspension of the credit union operations was ordered by the state recently because reserves were too low for loans.

The state examiner said \$337,000 of the \$1,753,000 outstanding in loans was charged off as "worthless paper."

Conkle said a plan to curtail loans had been presented to the credit union a year ago but was not implemented.

The state suspended the credit union April 23. Savings withheld by payroll deduction since April 21 are being held in escrow, the organization said.

Thieves Steal Auto Parts

Circleville Police are looking for the thieves who broke into a garage on W. Ohio St. last month to take valuable automobile parts.

Gregory White, 458 E. Main St., told officers that he and Randy Downs were rebuilding a car in a garage rented by Downs.

Thieves broke in to take an 800 Dual Line Holley carburetor valued at \$90, and a computerized crank shaft and computerized cam shaft designed for a 340 Chrysler engine.

Oxidation Ditch Plans Too Costly

CHAMPAIGN, Ill. (AP)—Providing an oxidation ditch system for hog wastes is too expensive for most swine operations, the third International Symposium on Livestock Wastes was told by an Ohio Agricultural Research and Development Center staff member.

Richard K. White, an associate professor of agricultural engineering,

said he based his conclusions on operating and cost data while working as a consultant for the Double E Farms at London, Ohio.

He said mechanical breakdowns and operating costs made the operation too expensive for the average swine producer.

Ceramics Professor New Society President

COLUMBUS, Ohio (AP) — Dr. Ralston Russell Jr., a professor of ceramic engineering at Ohio State University, will be installed today in Washington as president of the American Ceramic Society.

The Pomeroy native has been a fellow of the 10,000-member society since 1941. He joined the university's engineering faculty in 1946.

2 Men Sought In Armed Robbery

PORTSMOUTH, Ohio (AP)—Two men were sought Monday by the FBI in the holdup last Tuesday of the Wheelersburg branch of the First Federal Savings and Loan of Portsmouth.

Named in the warrants were Steven W. Fields, 46, formerly of Portsmouth, and Randy Bays, 19. Police said Fields had served a penitentiary sentence for an armed robbery in Lorain. He was

released in 1972. Two armed robbers obtained around \$2,000 in the Wheelersburg holdup.

A Page Of Opinion

School Crime Grows

Violence in the public school system has been a serious problem for many years, largely swept under the rug by school officials afraid of

creating still greater difficulties by public disclosure. That is a mistaken notion which a Senate subcommittee is beginning to unearth.

In initial hearings into the problem, the Senate Judiciary Committee's juvenile delinquency subcommittee has heard some startling testimony. Based on crime and vandalism studies conducted in 757 of the nation's largest school districts between 1970 and 1973, the subcommittee estimates that

each year the cost of school crime and damage comes to \$500 million nationally—passed on to the taxpayers who support the school systems.

Worse, the crime spree is spreading rapidly. During the three years studied, the subcommittee estimates assaults on teachers increased by 77 per cent, assaults on students by 85 per cent, robberies of students and teachers increased by 36 per cent, rapes and attempted rapes by 40 per cent and homicides in school buildings increased by 18 per cent.

In the 757 districts studied alone, 100 homicides were reported in 1973. Sub-

committee chairman Sen. Birch Bayh was not stretching the truth when he said: "The ledger of violence confronting our schools reads like a casualty list from a war zone or a vice squad annual report."

The nation cannot tolerate a continuation of this pattern. While it will help focus public attention on the seriousness of school crime by public testimony to be taken by the Senate panel, the corrective answer lies in each school district. It is the duty of individual school boards, faculties and administrators to correct disciplinary and crime problems where they exist—and to do it with dispatch.

Nixon Write His Wrongs?

ON THE LINE
By BOB CONSIDINE

NEW YORK — PEOPLE ... PLACES ...

One of the nation's leading spade-callers, Sen. Barry Goldwater (R., Ariz.), has advised former President Nixon to "fess up," tell the nation exactly what role he played in the Watergate break-in and cover-up, and to reveal his true participation in all the other aspects of the most sordid political scandal in the nation's history.

By doing so, the rugged Arizonan told the Hermit of San Clemente, via CBS's appropriately named "Face the Nation," Nixon could take his first step toward reestablishing himself as a power in the GOP. He was not urging Nixon to throw an active hat back into the circle; his thought was that, once cleansed of his sins, as if in a confessional, public absolution would swiftly follow and Nixon support of Republican candidates would again pack some clout. Clout is what the GOP needs most at this point in its history.

The chances of Nixon's acceptance of his friend's advice are about on a par with the odds against George Foreman's victory over five Muhammad Alis in one evening. The former President's present position, or predicament, militates against such a move. First, he has never really felt that what he did was all bad. Second, if he told the whole story, and the story is as bad as many assume, it might hurt the chances his former treasured associates have of gaining reversals of their prison sentences. Third, if a thorough soul-baring revealed great guilt, President Ford's pardon of him would surely weaken Ford's prestige and GOP chances in 1976.

There is a fourth consideration. The former President is writing his memoirs. The income will pay off his many debts, and he can live on his pension and other income quite comfortably the rest of his life. He will be the sole architect of what goes into those memoirs. If his previous autobiography, "My Six Crises," is a guideline, there is little likelihood that the new one will incorporate self-flagellation in Macy's window. Or risk of a personal trial.

Back to your famous ham (radio) shack, Senator Goldwater! You contacted the wrong Martian. He ain't in a penitential mood.

The former President showed a lot of moxie when he called John Connally after the latter's acquittal and congratulated not only his former

Secretary of the Treasury but also, (by remote control) Connally's defense attorneys. No. 1 defense attorney has been No. 1 Washington critic of Nixon for years; made No. 1 on the former President's "enemies list."

Chief defense attorney, of course, was the renowned Edward Bennett Williams, who moonlights as president of the Washington Redskins. The Redskins are the most exciting team in professional football. They are such a perennial sell-out attraction at Robert F. Kennedy Stadium in the nation's capital that dying box-holders make a special point of willing their seats to selected heirs. The team was so irresistible last year that it lost only half a million dollars. That possibly been caused by the rising cost of land.

It is a curious situation. Nixon's favorite coach is the Redskins' George Allen, who once coached at Nixon's alma mater, Whittier. Nixon's No. 1 enemy is Allen's boss, Edward Bennett Williams. Nixon's No. 1 original choice as a successor was Big John Connally. Connally's savior from prison was Edward Bennett Williams.

Okay, now try to parse that paragraph. If you do, then get to work on reasoning the vagaries of man.

One of the scenes in "Give 'em Hell, Harry," which had a splendid social opening at Ford's Theater in Washington recently, depicts the meeting between President Truman and Gen. Douglas MacArthur on Wake Island during the Korean War. It was recently re-portrayed on CBS's 60 Minutes by James Whitmore, who impersonates HST in the play, soon due on Broadway.

Problem with the scene, according to two men who were there that day on Wake, is that nothing like it ever happened. MacArthur never kept Truman waiting. Truman never used tough language on the Supreme Commander of UN troops. There was never any "walk on the beach."

Roy B. Martin, Jr., president of the

BancOhio Official Continues In Post

COLUMBUS, Ohio (AP) — The vice president of BancOhio Corp., Robert M. Edwards, has been named to his fourth consecutive term as chairman of the Advisory Council of the Conference of State Bank Supervisors.

Edwards, of Columbus, a former state superintendent of banks, is vice president of the Ohio State Bank.

Auto Repair Costs Bring Warning

COLUMBUS, Ohio (AP) — "Hundreds of complaints" of unexpectedly high auto repair bills have prompted the Ohio Consumer Protection Division to advise that motorists demand written estimates before repairs are made.

The most recent bulletin of the division said dealers must provide a written estimate if repair costs will exceed \$25 and must obtain written authorization to make necessary repairs which will exceed 10 per cent of the estimate.

Division officials are "seriously concerned about reports that many Ohio automobile repair shops, including automobile dealers and service stations, are asking consumers to waive their rights to written estimates," the bulletin said.

In addition, the new ruling stipulates that consumers are entitled to demand that suppliers:

—Indicate if there will be a charge for a service call or reassembly, regardless of whether repairs are made.

—Give the consumer a written and itemized list of repairs performed and the reasons for such repairs, including charges for parts and labor, describing which parts are new, used or rebuilt.

—Inform the consumer, before the first cost estimate, if used parts will not be returned to him.

Violators of the rule should be reported to local consumer protection agencies or the state division, the bulletin said.

Schools Trying To Do Too Much

URBANA, Ill (AP) — Schools cost too much because they are trying to do too much, Michael Bakalis, former Illinois superintendent of public instruction, says.

Bakalis, now a visiting professor of education at Northwestern University and the University of Illinois here, urges schools to concentrate on two goals. They are teaching children skills, such as reading and analytical thinking, needed for a lifetime of learning, and helping youngsters develop a positive self-concept.

He said that we have been throwing on to the schools the responsibility for being leaders in desegregating, sex education and drug education, "which I am not sure they are able to do."

"Perhaps other government agencies should have the job of trying to solve these problems."

A flood in Friesland, Holland, in 1228 killed more than 100,000 persons.

On ordinary throwing dice, the face opposite the one that has six has only one dot.

Today In History

By THE ASSOCIATED PRESS

Today is Tuesday, May 6, the 126th day of 1975. There are 239 days left in the year.

Today's highlight in history:

On this date in 1942, in the Pacific war, the exhausted American and Philippine garrison at Corregidor surrendered to the Japanese after resisting 150 days.

On this date —

In 1818, the German social philosopher, Karl Marx, was born in Prussia.

In 1861, Arkansas withdrew from the Union.

In 1889, the Eiffel Tower in Paris was officially opened.

In 1895, the movie star, Rudolph Valentino, was born in Italy.

In 1910, the Edwardian era came to an end with the death of Britain's King Edward VII.

In 1941, Joseph Stalin became premier of the Soviet Union, succeeding V.M. Molotov.

Ten years ago: The Organization of American States voted to create an inter-American military force to help restore peace and constitutional government in the Dominican Republic.

Five years ago: A strong attack by North Vietnamese troops in South Vietnam indicated that U.S. raids in Cambodia had not cut enemy supply lines.

One year ago: Willy Brandt resigned as chancellor of West Germany after saying he had been negligent in allowing an East German Communist spy to become a member of his staff.

Today's birthdays: Retired baseball star Willie Mays is 44. Actor and director Orson Welles is 60.

Thought for today: We first make our habits, and then our habits make us — John Dryden, English poet, 1631-1700.

Editions Of The Past

35 YEARS AGO
1940

Williamsport gained 81 persons during the 10 years between the 1930 and 1940 census reports. This made a total population figure of 605 persons residing in the village.

With a five to one vote, City Council agreed to accept from the Elks Lodge committee the 13½ acres of land north of Hargus Creek between Court St. and the Norfolk and Western Railroad as a public city park.

Councilman J. D. Mason, who opposed the project, argued that considerable damage had been done to the Mason property adjoining the park in the past by using the Mason property as a shortcut to the park grounds.

Leroy Moore, a former Circleville resident, and his wife making up a famed radio team which appeared regularly over a Charleston radio station, organized a contest to have their listening audience name their new baby.

The smash hit program playing at the Grand Theatre was "Pinocchio", Walt Disney's delightful new musical cartoon.

In Roman numerals the letter C represents 100.

Speaking Of Your Health

by Lester L. Coleman, M.D.

I don't recall having had any heart trouble, yet a recent electrocardiogram showed some scar tissue, indicating that I may have had an unrecognized heart attack.

How could this be possible? Could there be a mistake in the doctor's interpretation of the cardiogram?

Mr. J. T., Ore.

Dear Mr. T.:

There is very little possibility that the electrocardiogram is wrong. The interpretation of these heart records is now so exact that any deviation from the normal must be accepted as being valid and correct.

Your experience is not an unusual one. Many people who are non-complainers and are stoic about illness may have an episode of abdominal pain or chest pain and attribute it to the proverbial "indigestion."

When the discomfort passes the entire experience may be forgotten. In most instances, the so-called attack of indigestion may never have been brought to the attention of a doctor. Yet this may have been a mild heart attack which went, as yours apparently did, unrecognized and untreated.

Business World

By JOHN CUNIFF
AP Business Analyst

NEW YORK (AP) — The already widespread belief that an economic upturn is likely to take place in the second half of the year was reinforced during the past week.

Perhaps the most important announcement of all came from Arthur Burns, chairman of the Federal Reserve Board, who said he would seek a 5 to 7.5 per cent growth in the money supply.

Many Americans suspect that Burns is probably still more concerned about the dangers of inflation than of recession. But Burns dispelled that notion somewhat.

The money supply goal should be sufficient, he said, "to finance a vigorous economic recovery."

It will be considerably more than the rate that prevailed over the past year. In all of 1974 the rate was only 4.7 per cent; in the first quarter of this year it was 3.5 per cent.

Many citizens as well as economists and congressmen have criticized the money supply rate as too low to permit vigorous recovery. In fact, they maintain the low rate has worsened the recession.

Alan Greenspan, chairman of the President's Council of Economic Advisers, remained just as hesitant and cautious as ever, but the mere fact that he again stated a belief that recovery was coming gave encouragement.

"The evidence is still tentative," he said, "but it tends to support the view that the economy will stabilize to a very large degree during the second quarter of the year."

The Treasury Department added another view that was widely interpreted as being bullish. It would need \$5 billion less in the credit markets, it said, because tax revenues were turning out higher than anticipated.

This news took a lot of pressure off the credit markets, which finance not only the big federal deficit but the expansion plans of private industry. That pressure was expected to drive interest rates back up.

At 848.48, the Dow Jones Industrial Average has now recovered all but about 2 of the 230 points lost during the collapse of prices in 1974.

Nothing is certain in economics or stocks, however, and a lot of people remain nervous about the immediate future. The chief worries appear to be these:

—Few economists foresee the jobless rate coming down very fast. While many agree that the 8.9 per cent rate is probably close to the peak, they fear that it might stay in that vicinity for several months.

Scar tissue in the muscle of the heart may be all that remains of this slight heart attack. The finding in the electrocardiogram gives evidence that some unexplained damage to the heart muscle did occur.

There is an important lesson to be learned from your experience. If more attention were paid to the so-called stories of indigestion, and if these were brought to the attention of the doctor, preventive care might be given to the small heart attacks, and their causes might be eliminated. In this way the large ones may be prevented.

I am intrigued by the name of a condition that I have. It is called a collar button abscess. Do you know the origin of this term?

Mr. J. J. F., Manitoba, Canada

Dear Mr. F.:

The term is a descriptive one. The old-fashioned collar button had a flat surface connected to a tiny knob by a narrow rod. The abscess too has two compartments under the skin. There is a larger one connected to a smaller one by a tunnel. These abscesses occur most often in the webs of the fingers. Both must be removed for a cure.

Aussie Chief Urges Help In Indochina

KINGSTON, Jamaica (AP) — Australian Prime Minister Gough Whitlam has called on nations that fought in Indochina to join a massive program of reconciliation and reconstruction in that region.

Whitlam told a news conference Sunday that Australia, which he described as one of "the guilty countries" that participated in the Vietnamese "civil war," already has begun supplying relief aid.

The Australian prime minister, who is attending the 34-nation Commonwealth summit here, flies to Washington on Wednesday for talks with President Ford and Secretary of State Henry A. Kissinger.

Whitlam issued his appeal after being asked if he believes that nations that fought in Vietnam, such as the United States, have an obligation to help in rebuilding a unified Vietnam.

He replied that Australia has such an obligation and has begun fulfilling it, and he thought others should do the same, preferably through international organizations.

The Australian leader's aides reported later he intends repeating his call in a major speech he will make in Washington, and intends raising the matter in his talks at the White House.

Whitlam also was asked if Australia's faith has been shaken in the United States as an ally in the light of the American withdrawal from Indochina.

He said: "America has been, is and will continue to be the greatest military country in the world. What I think we should realize is that from now on America's commitments will require the support of the administration and the Congress. If the President and Congress support commitments, I have no reason to believe those commitments would not be effective."

Forecast

OHIO

Cloudy tonight and Wednesday with a chance of showers northwest tonight and chance of showers throughout the state Wednesday. Little change in temperature. Lows tonight from the upper 40s to mid 50s. Highs Wednesday from the upper 60s to upper 70s.

NORTHWEST INLAND WEST LAKE, SHORE

Cloudy tonight and Wednesday with a chance of showers. Lows tonight in the upper 40s and low 50s. Highs Wednesday in the upper 60s and low 70s.

WEST CENTRAL CENTRAL SOUTHEAST

Cloudy tonight and Wednesday with a chance of showers Wednesday and little temperature change. Lows tonight 50 to 55. Highs Wednesday in the low to mid 70s.

SOUTHWEST

Cloudy tonight and Wednesday with a chance of showers Wednesday and little temperature change. Lows tonight in the low 50s. Highs Wednesday in the mid to upper 70s.

By THE ASSOCIATED PRESS

Heavy showers and occasional thundershowers over northern counties early today brought some flooding of underpasses and river bottomlands in the area.

The showers and thundershowers eased as dawn approached, and the threat of extensive flash flooding declined.

While rain fell in the north, skies were generally clear in the south.

Temperatures at dawn today were generally in the 50s throughout the state.

There was little movement to weather systems. A weak stationary front lay across northern Illinois and northern Indiana and southeast over Ohio at dawn.

The forecast called for a chance of rain and mild temperatures across Ohio through Saturday.

Urge U.N. Role On Refugees

WASHINGTON (AP)—Rep. Tenneyson Guyer, R-Ohio, has introduced a resolution urging President Ford to ask the United Nations to share in the task of resettling refugees from South Vietnam.

Guyer said the UN had little or no part in the recent evacuation program and that the expenses had been borne almost entirely by the United States.

Huston Inducted Into Dairy Hall

COLUMBUS, Ohio (AP)—C. Russell "Hap" Huston, 73, is the latest inductee into the Ohio Dairy Science Hall of Service. His portrait hangs in Ohio State University's Plumb Hall, the building where he was a student before his 1925 graduation. He owned and operated Arrus Farm, with units near Ashtabula and Medina, between 1939 and 1964.

Orient Institute Repairs Urged

COLUMBUS, Ohio (AP) — A structural engineer has recommended that the state take immediate action to repair deteriorated building supports at the Orient State Institute for the mentally retarded.

In a report to institution officials, the Columbus structural engineering firm of Paul J. Ford and Co. said many of the institute's structures suffer from water damage.

In some buildings, the firm said, walls are pulling away from roofs, wooden supports are rotting and steel supports are rusting.

The study was made last November. It was released Monday in a state auditor's examination of Orient's books.

A spokesman for the Department of Mental Health and Mental Retardation said he remembered the study being commissioned but could not remember the state department receiving a copy. The report was mailed to Orient officials last November.

The report, written by John T. Wilson of the firm, urged quick corrective action.

"If these problems are not attended to in the near future, they will only get worse at an increasingly rapid pace, and serious structural damage may result," Wilson said.

He singled out Doran Hall, a residence building, where water damage is causing plaster to peel and wood to rot.

"The most economical solution may be to tear down Doran Hall completely and move the residents to another cottage," he said. "Doran Hall has

Group Sponsors Bicentennial Films

COLUMBUS, Ohio (AP) — A film project to serve as a part of the state's bicentennial commemoration during 1976 will be sponsored by the Huntington Banks of Ohio, the Ohio American Revolution Bicentennial Advisory Commission announced Monday.

The film project, produced by David Keller & Associates of Athens, includes a half-hour dramatic motion picture and an accompanying descriptive filmstrip that portrays 200 years of Ohio's development as seen through the eyes of two fictional characters.

already deteriorated so badly that it is probably not economically feasible to save it."

He added, however, that engineers would like to take a closer look at the building before recommending demolition.

He said the Orient administration building is in fairly good shape, but is suffering water damage.

"If conditions remain as they are, the roof structure and the beams and columns supporting the roof will deteriorate very rapidly," he said. "There is evidence that this may be starting."

In other audit reports issued Monday, the state auditor:

—Recommended that a private account for the Management Center Inc. at Bowling Green State University

be abolished and the fund merged with the university's general accounts.

The auditor noted that the nonprofit corporation takes in fees and spends money, but makes no full disclosure of sources and amounts of income.

The firm, a part of the business administration college at BGSU, sponsors seminars for businessmen.

—Filed findings for recovery against two officials of the Village of Orient.

Salary payments of \$109 to village clerk-treasurer Ruby I. Weese and \$97 to Councilman Harold Wilson were ruled illegal.

—Filed a finding of recovery of \$48 against Fulton Village Clerk Dorothy Davis. The auditor said the money was used as prize money during a village Halloween festival in violation of state law.

DOGGIN' IT—Sampson, a St. Bernard, prefers riding to walking, and he particularly likes riding on a motorcycle. Larry Edwards uses his motorcycle to get around a horse training stable at Sasser, Ga., and he takes Sampson for the ride.

Parent Firm In Arson Case Seeks Debt Payment Delay

SHELTON, Conn. (AP) — The parent company of the Sponge Rubber plant blown up by arsonists is seeking court permission to delay debt payments until its financial problems are solved, according to a spokesman.

Sponge Rubber Products Co. was shut down temporarily by the March 1 explosion which gutted one of its huge plant buildings. Its other operations have reopened.

Grand Sheet Metal Co., the parent firm, filed a petition Friday in Chicago under Chapter XI of the Federal Bankruptcy Act, company attorney Alex H. Dolnick said Monday. He emphasized, however, the action was not a bankruptcy petition.

"The company is solvent, very much so, but is unable to meet its current obligations," he said in a telephone interview. The company is headquartered in a Chicago suburb.

Ten persons, including the president of Ohio Decorative Products Co., parent firm of the two subsidiaries, have been charged by federal authorities with arson and conspiracy in an alleged attempt to collect insurance on the plant.

Dolnick said the U.S. District Court request was designed to give Grand Sheet metal time to restructure its operations and then pay creditors in full. Meanwhile it would pay all its employees and suppliers in cash, he added.

"The lending institutions we have been borrowing money from have indicated they would continue to finance our operations," he said.

Last week a company spokesman said officials had been negotiating with two large companies over the possible sale of a plant in Derby. No agreement has been announced.

Dolnick stressed that Grand Sheet Metal planned to maintain its Shelton operations, at least in the "foreseeable future."

"Reports of our imminent close are entirely without foundation," he said. The lawyer said the company ex-

Drummond-Floyd Wedding Vows Exchanged In Williamsport

MR. AND MRS. ROBERT LEWIS FLOYD

Williamsport United Methodist Church was the setting for the wedding of Miss Linda Sue Drummond and Mr. Robert Lewis Floyd. The Rev. Richard Crosby officiated the double ring ceremony for the daughter of Mr. and Mrs. John W. Drummond, Williamsport, and the son of Mr. and Mrs. Herbert Floyd, Stoutsville, 7:30 p.m., April 5th.

A cascade of white daisies and yellow roses graced the altar, flanked with candelabra decorated with clusters of blue and yellow ribbons. The aisle was lined with hurricane lamps trimmed with blue and yellow ribbons for the candlelight service.

Mrs. Diane Freed, Circleville, organist, and Mrs. Mary Brooks, Clarksburg, vocalist, presented a program of nuptial selections preceding the ceremony.

The bride, given in marriage by her father, selected for her wedding a formal length gown of silk organza with peau d'ange lace. The bodice featured a sheer yoke with a lace bib and cameo collar and tapered sleeves edged in a wide flounce. The gathered skirt was encircled with a flounce with matching lace at the top. The bride's

Bridal Shower Honors Pam Young

Pam Young was honored with a surprise bridal shower recently hosted by Vickie Ross at her home in Stoutsville.

Guests were Kathy Johnston, Debbie Woodward, Laura Koch, April Skinner, Judy Ayers, Cheryl Easter, Becky Cook and Nancy Spring.

Games were played with prizes won by the guest of honor, Cheryl Easter, Debbie Woodward, Nancy Spring, April Skinner and Kathy Johnston.

Refreshments were served by the hostess.

Unable to be present were Trina Leasure, Theresa Frazier, Vickie VanDyke and Rhonda Harrison.

Auxiliary Reports Successful Sale, Schedules Dinner

Ladies Auxiliary of Clearcreek Twp. Fire Department met Monday evening at the firehouse in Stoutsville. Gloria Adams, president, presided over the business meeting attended by 10 members.

A report was made of the successful consignment sale and lunch with the proceeds to be used to help equip a new fire truck and purchase some new equipment for the kitchen at the firehouse. A vote of thanks to all who participated in any way was made.

A Mother-Daughter carry-in dinner will be held 6:30 p.m., May 28th, at the firehouse. Everyone should bring a covered dish and dessert. Coffee and tea will be furnished.

Refreshments were served by Helen Adams to: Linda Harrison, Gloria Adams, Olive Lovett, Miriam Lynch, Etta Good, Betty Branham, Ruth Goldsberry, Patty Riffle and Dorothy Scanlan.

Garden Club Holds Annual Flower Show

Solauqua Garden Club held its annual flower show along with a regular meeting Friday at Robtown Parish House. Events for the day were begun with Mrs. Glen Rinehart reading the poem "May" from the club year book.

Devotions were conducted by Miss Mary Shortridge using a reading, "The Hall of Love," followed with prayer.

A memorial tribute was given by Mrs. James Hott in memory of Mrs. Alfred Cook, a member who died recently. Mrs. Hott also read "Time To Plant."

Announcements of Groveport Garden Club's Flower Show on May 10th and 11th at Groveport, Region 9 meeting May 9th in Lancaster and Monrovia Garden Club's Flower Show on May 28th at Five Points United Methodist Church were read.

Mrs. Charles Huston was in charge of the flower show and plant, bulb and seed exchange. Shown were arrangements of spring flowers from members gardens and specimens.

Fourteen members and three guests, Mrs. Topping Dee, Mrs. Nelson

chapel length mantilla veil, edged in lace, was held by a lace bonnet. She carried a Tiffany bouquet of white daisies and yellow sweetheart roses with streamers of satin ribbon. Her only jewelry was a cameo necklace, a gift of the bridegroom.

Maid of honor, Miss Pamela Cook, wore a cape sleeved yellow long gown with an empire waist and fluted edged capelet collar. She carried a colonial bouquet of assorted spring flowers.

Miss Debra Hildenbrand and Miss Dotty Wheeler, bridesmaids, were attired as the honor attendant in yellow and carried matching bouquets.

The duties of best man were performed by Mr. Ralph Masters, Route 2, Chillicothe. Ushers were Mr. Floyd Copley, Route 2, Frankfort and Mr. Timothy Justice, Route 1, Stoutsville.

The bride's mother wore a knit, mint green long gown, with flared skirt and sheer sleeves. Her corsage was of white carnations and yellow roses.

A reception in the church annex immediately followed the ceremony. The four tiered wedding cake was decorated with daisies and blue and yellow streamers.

Hostesses were Miss Nancy Mace, Route 2, Williamsport; Mrs. Donna Haines and Mrs. Joyce Click, Chillicothe, cousins of the bride.

As the couple left for a wedding trip, the bride wore a two-piece dress of pink and white with a pleated skirt, white bodice and jacket. The couple now resides at 306 S. Water St., Williamsport.

The bride graduated from Westfall High School and Career Academy in Columbus. She is presently employed as a medical assistant at Valley View Manor, Frankfort.

The bridegroom graduated from Amanda-Clearcreek School and is employed by John W. Eshelman and Sons, Circleville.

JEANNE C. SQUIRE

BPW Convention Plans Readied

Jeanne C. Squire of Berea will be the national representative to the 55th annual convention of Ohio Federation of Business and Professional Women's Clubs in Columbus, May 16th-18th.

A past national president of the National Federation of BPW Clubs, she is currently serving as a member of the board of trustees of the BPW Foundation. She is a member of the Berea BPW and a past president of the Ohio Federation.

Listed in "Who's Who Of American Women," Mrs. Squire believes that the economic role of women in society must be expanded.

Mrs. Pauline Riel of Morrow County, Ohio BPW president, will officiate at the convention to be held at the Neil House.

Ashville Baptist Women Will Meet

Women's Sunday School Class of Ashville First Baptist Church has scheduled a meeting for 7:30 p.m. Tuesday in the home of Janet Lawrence, Goodman, Teegardin Road, Route 1, Ashville.

Florence and Mrs. Ned Walker were present for the afternoon which was concluded with refreshments.

Calendar Of Events

TUESDAY

Xi Eta Epsilon Chapter of Beta Sigma Phi Sorority 7:30 p.m. in home of Mrs. Charles Curlett, Wintergreen Hills, Route 5.

Esther Circle of Trinity Lutheran Church 7:45 p.m. in the church parlor.

Christian Home Circle of Trinity Lutheran Church 7 p.m. in Parish House.

Circleville Child Development League 8 p.m. in home of Mrs. Robert Parker, Route 4.

Pickaway County Garden Club workshop 7:30 p.m. at home of Mrs. Robert Rickerd, 582 Sycamore Drive.

Women's Sunday School Class of Ashville First Baptist Church 7:30 p.m. in home of Janet Lawrence, Route 1, Ashville.

WEDNESDAY

Altar and Rosary Society of St. Joseph's Catholic Church, 8 p.m. in church basement. Rosary recited 7:30 p.m. in the church.

Teacher Society To Meet Wednesday

Beta Rho Chapter of Delta Kappa Gamma Society will meet 7:30 p.m. Wednesday in the home of Mrs. Richard Koch, 547 Mowrer Road.

Ruth Circle of Trinity Lutheran Church 2 p.m. in church parlor.

Mary Circle of Trinity Lutheran Church 7:30 p.m. in church parlor.

Westminster Bible Class of First Presbyterian Church 2 p.m. in home of Mrs. Lawrence Thornton, Logan Elm Village.

Beta Rho Chapter of Delta Kappa Gamma Society 7:30 p.m. in home of Mrs. Richard Koch, 547 Mowrer Road.

In an effort to keep society news current, The Herald has established the following policy concerning wedding news:

Wedding forms may be obtained at The Herald from 8 a.m. to 4 p.m. Monday through Friday and until noon on Saturday.

It would be helpful to have the wedding form completed and returned with a picture three days before the wedding.

The Herald will make every effort to publish the story and picture on the next day of publication following the wedding providing the forms and picture are returned before the wedding.

No bridal pictures and stories will be accepted if submitted later than 30 days following the ceremony.

When you want to oven-fry fish fillets or steaks count on two pounds serving six. Use a preheated 500-degree oven and cook the fillets or steaks from 10 to 15 minutes.

National Guard Training Sites Eyed

Hobart Corp. Names 3 Corporate Officers

TROY, Ohio (AP) — Hobart Corp. has announced the appointment of three new corporate officers. Richard Swob was named vice president for sales, Hobart division; B.M. Ellington, vice president for sales, branch and agency division, and Robert F. Knight, vice president for sales, foodservice dealer division.

COLUMBUS, Ohio (AP) — The whoosh of artillery shells and the sound of machine gun fire may sound some day soon in the eerie stillness of the coal stripped land of southeastern Ohio. The administration of Gov. James A. Rhodes is considering buying land in the strip mine belt as a training site for the Ohio National Guard, which has been taking its summer training in Michigan.

"There are six or seven areas that are suitable," said Chan Cochran, the governor's aide. "Five of them are stripped land." Maj. Gen. James Clem, commanding officer of the ONG, said he hoped to locate adequate area to train up to 4,000 men in tactical procedures. He is reluctant to say what areas are under study. "That's understandable," said Cochran. "He doesn't want to drive the

price of land up down there." Known to be under consideration as possible training ground is stripped land in Belmont, Muskingum, Guernsey, Noble, Morgan, Holmes, Coshoccon and Tuscarawas Counties. Clem has ordered a feasibility study on the project. He said a report should be completed by Oct. 1, 1975. A later study will delve into the cost of reclamation. Clem said a possible drawback to the

idea is mineral rights on the land. If they are contained in the deed, Clem said it could make costs prohibitive. Rhodes' prime consideration in obtaining an Ohio site, Cochran said, is one of economics. "The governor sent a letter to General Clem pointing out that about \$20 million worth of business goes to Michigan with the National Guard each summer," he said.

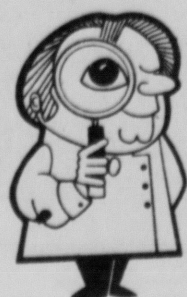

Clem believes the stripped land could be natural for guard training. For 15 to 20 years after stripping, Cochran said, the land is good only for grazing. The stripped land, he said, could be used for Seabee training, road and bridge construction and would be wide enough for heavy firearm practice.

Hoosiers Vote Today

INDIANAPOLIS (AP) — Hoosiers in 114 cities and towns went to the polls today to choose nominees for mayor, city county and other municipal offices. Sunny skies and warm temperatures in the morning were forecast with a building chance of rain in late afternoon. Democratic mayors in two of the state's largest cities faced strong challenges for renomination. In Gary, Mayor Richard Hatcher was reported losing ground the last two weeks to Dozier Allen Jr. Both are black, and Hatcher was the first Negro chosen mayor of a major northern city. South Bend Mayor Jerry Miller was given only a slim chance over city councilman Peter Nemeth.

Business News

Donald H. Watt, realtor held his monthly Real Estate Sales Meeting on Saturday, May 3rd at his home with Dave Schaeffer of Hartzler Mortgage Company (Cols.) speaking on VA and FHA financing. Salespeople attending were Mrs. Donald H. Watt, Miss Mary Jane Watt, Barbara Haeefe, Frank Gwinn, Don Poling, Dave Stoer and Russ Palm.

The Public Investigator

The Investigator questioned utility companies in the Circleville and Pickaway County area concerning monetary increases to consumers of their specific product and the reason for the price increase. Here are the answers of the Columbus and Southern Ohio Electric Company.

(Q) Approximately how many customers does C&SOE service in Circleville and Pickaway County?
(A) We have approximately 5,340 customers in our Circleville Service area.

(Q) What are your present rates to individuals and how much have the rates increased in the past year? Six months? Three months?
(A) The figures we will use to answer the question are based on the residential rate and usage of 500 Kilowatt House (KWH) from April, 1974, through April, 1975. Each month of each year is figured on the rate in effect at the time plus the fuel cost adjustment to arrive at the total. Calculated bills for 500 KWH based on a rate code of 02 are: April, 1974 - base, \$13.83; fuel cost, \$1.73; total, \$15.56. October, 1974 - base, \$20.75; fuel cost, \$2.41; total, \$23.16. January, 1975 - base, \$20.75; fuel cost, \$1.06; total, \$21.81. April, 1975 - base, \$22.61; fuel cost, \$1.18; total, \$23.80. The rate increase effective September, 1974, reflected a new fuel cost adjustment (FCA) base of 68.5 cents per million BTUs. The previous FCA base was 23 cents per million BTUs. The difference between the old and the new FCA base of 45.5 cents per million BTUs was rolled into the new rate base schedule. In dollars, this represents approximately \$2.50 for 500 KWH usage.

(Q) Do you have any extra charges such as installation costs or deposits?
(A) In the Circleville service area we charge \$50 to install and remove a temporary service. This is for a single phase, 100 amp overhead temporary service. We ask for a deposit from residential customers when they have not established credit or do not own property in Ohio. If a customer's account is terminated or discontinued prior to one year, his deposits including accrued interest to date is applied to his final bill. Any amount in excess of the final bill is promptly refunded to him. Deposits, including interest earned to date, are refunded to residential customers after one year provided service has not been discontinued for non-payment during the preceding 12 months; the customer has had no more than two past-due notices during the preceding 12 months; and the customer has had no more than two disconnection orders during the preceding 12 months. Policy governing customers utility deposits has been established by the Public Utilities Commission of Ohio (PUCO). All details governing credit policy are available at any local Columbus and Southern Ohio Electric Company office. If customers have a problem paying their electric bill, or have a temporary "hardship", they should call us. We can usually work it out. Silence doesn't solve the problem... they should contact us. We can help.

(Q) Why is there a raise in the cost to consumers? Do you expect to reach any ceiling in the selling price?
(A) The increased cost of electric service can be pinpointed to three primary areas: Fuel Costs, Environmental Costs, and Inflation. Fuel Costs: In 1974 our total operating expense was \$146.9 million. Fuel costs were the largest single expense, representing 41 per cent of the total of \$60.1 million. This \$60.1 million is an increase of \$26.6 million over 1973. The increase alone approximates our total fuel expense for 1972. Reclamation costs are also a part of the total fuel costs and add approximately \$2 per ton of strip mined coal. The proposed Federal Strip Mine Law will add an additional 35 cents per ton. Our average cost of coal consumed increased from \$8.57 per ton in 1973 to \$13.02 per ton in 1974. Ten years ago the cost was \$4.57 per ton. 1974 prices are an increase of 185 per cent over 1965. Environmental Costs: These costs are directly related to State and Federal legislation. We have spent \$25 million on environmental facilities in the last six years, including \$9 million in 1974. These are capital costs, not operating costs, and they do not produce revenue. Additional environmental expenditures are expected to exceed \$57 million through 1978.

Inflation: Ten years ago we financed our construction program from internally generated funds. Today, we must go to the capital markets for 83 per cent of moneys needed for construction. We must refinance maturing low interest (3-4 per cent) existing long-term debt at rates of 9 per cent and more. We are in the peculiar situation where our rates are fixed, but all of the material and supplies needed to provide reliable service continue to increase. As long as our suppliers continue to increase the cost of materials, the cost of electric service will continue to increase.

(Q) What are your different payment plans and which one is the most popular with consumers in the area?
(A) We have one "equal payment" plan. This budget payment plan was offered to all residential customers in March 1975. The plan is optional to the customer. He or she may elect to join or reject the budget payment plan. It's the customer's decision. The plan divides the total 12 month estimated use into 12 equal monthly payments (based on existing rates, plus fuel cost). Each customer's budget is reviewed every six months and adjustments, if any, are made and a new monthly payment is issued. System-wide, we have approximately 5.3 per cent of all residential customers in this program. A customer may join or drop out of this program by contacting their local Columbus and Southern Ohio Electric Company office.

(Q) Are you aware of any federal or state legislation to lower the rates of persons on fixed incomes? Does your company see any need for such legislation?
(A) There have been discussions on this subject, primarily in State Legislatures. However, the Public Utilities Commission of Ohio (PUCO) rules state that public utilities rate schedules must be applied equally to all customers within each applicable rate schedule. To deviate from this policy would be discrimination. This would, in effect, force one group of residential customers to subsidize another residential group's electrical usage. C&SOE is not unaware or unsympathetic to this problem. However, attempting to solve economic problems through social legislation has never been a truly equitable solution.

(Q) Are efforts by the consumer helping to reduce the load of energy consumed? What additional measures could the consumer implement to conserve more?
(A) There is no shortage of electricity in the area served by Columbus and Southern. If we can continue to burn coal to generate electricity, and increase facilities to meet customers' future demands, we anticipate adequate capacity to meet customer growth. Effective energy management by any customer is obviously an individual decision. The customer should be aware that rates are designed so that the more you use, the less the unit cost is per KWH. Of course, lower use increases the unit cost per KWH. So, a small reduction in monthly usage may not reflect a noticeable change in the cost. Customers' homes should be well insulated, have storm doors and windows. Heat loss escaping to the outside of a home is today an expensive luxury. Good insulation can reduce both heating and air conditioning costs, regardless of the energy used. Energy management is really a matter of using good judgement in the use of appliances, lighting, etc. Ben Franklin summed it up in four words, "waste not, want not." Your local C&SOE office has free literature to help you.

(Q) By what process is your energy manufactured? Where is it produced and by what means is it brought to the consumer?
(A) Ninety-eight per cent of our electricity is produced by burning coal. We use small amounts of oil and natural gas to operate our peaking units. We have three generating stations: Poston, in Athens County; Picway, in Pickaway County; and Conesville, in Coshoccon County. Electricity is delivered from generating station over high voltage transmission lines to substations. The substations then reduce the voltage and distribute it to homes, commercial and industrial businesses.
(Q) Is your company currently undertaking projects to locate more energy reserves? If so, where and to what extent?
(A) Electricity cannot be stored like water or natural gas. It is consumed at the same time it is generated. Any so-called reserve would be related to excess generating capacity over and above that necessary to meet "peak" demand.

(Q) Who may consumers call with questions concerning billing procedures?
(A) Any local office in Columbus and Southern Ohio Electric service area.

3 Stolen Cars Discovered By Highway Patrol

A rash of stolen cars was discovered early this morning by State Highway Patrolman D. E. Norman. Ptl. Norman spotted one car and apprehended its driver at 12:10 a.m. and then at 2:30 a.m. found two other cars that appeared suspicious.

According to Norman's report on the first car, he was on routine patrol when he observed a stopped car on Route 23 just north of the county line. Further investigation revealed a 16-year-old Columbus boy behind the wheel of a 1975 Chrysler which had been reported stolen.

The boy's mother, who owned the vehicle, was contacted and she verified that the boy had taken the car without her permission. He had two females with him, ages 12 and 18. The younger was identified as the girlfriend of the driver. Both girls reported Columbus addresses.

Ptl. Norman released the older girl and the boy when the mother notified the authorities that she would not press charges against her son. The younger girl was taken to Franklin Village from where she had reportedly run away.

'Dirty Street Fighting' Course Helps Cincy Women

CINCINNATI, Ohio (AP) — Linda Satterm is one pacifist who can still enjoy watching someone get beaten.

She teaches a class in self-defense for women and one of her proudest claims is that seven of her former students have effectively fought off sexual attacks.

There is nothing particularly ladylike about Miss Satterm's methods. In fact, she describes her class as being a course in "dirty street fighting."

"One of my students called me at 1:30 in the morning two weeks ago to tell me that she had fought off some guy who attacked her," she said. "She

Jackson Eyes Ohio

CLEVELAND, Ohio (AP)— Ohio appears to be one of the states U.S. Sen. Henry Jackson, D-Wash., cannot afford to ignore in deciding what primaries to enter in his bid for the Democratic presidential nomination, his top political aide says.

"There are places like Ohio with so many (national convention) delegates we can't afford to stay out," says Robert Keefe.

If Jackson enters, he could end up in a battle with Ohio Senator John Glenn. Glenn seeks to take Ohio's 152 delegates to the Democratic National Convention uncommitted.

No other major candidate has announced he would enter the Buckeye State primary.

Keefe says Jackson's strategy is to capture congressional districts and may enter some in the Cleveland area.

Jackson finished fourth in the 1972 Ohio primary. He dropped out of the race soon afterward.

Dog Becomes 'Mom' To Rabbits

FAIRFIELD, Ohio (AP) — Sweetie is part chihuahua and part dachshund. She is also a fulltime mother to three newborn wild rabbits.

The rabbits were discovered by Tony Ciavarella last week in a nest which had been built inside a coiled up hose.

As soon as Sweetie found the nest, she wrapped herself around and began to nurse the bunnies.

A veterinarian told the Ciavarellas that Sweetie is the only hope for the young rabbits.

So far, Mrs. Ciavarella said that the dog has taken to the adopted family just like they were her own litter.

Band Boosters Smorgasbord Is Friday

The Circleville Band Boosters will have their annual smorgasbord on Friday. The doors to the High School cafeteria will open at 4:30 and serving will continue until 6:30 p.m.

All the food is donated by parents of both the Junior High and Senior High bandmen. The proceeds from this event are used to purchase new instruments for both bands and to provide transportation for the Senior High band to perform at away games and other activities.

The Circleville High School Music Department will present a program entitled "Music Alive in '75" in the gymnasium at 7:30 p.m. The Concert Band, under the direction of Gary Dean, will present a series of different numbers, including "March Grandioso, Rhapsodic Episode," a Roberta Flack medley, and "Percussion Espagnol". The Band will conclude with Olivia Newton John's "I Honestly Love You", and the Marching Band's favorite "Long Train Runnin'".

The Stage Band will perform with a medley of 50's and 60's songs. The Tigerettes and the majorettes will perform a special routine.

The choir, under the direction of Mrs. Candace Rigo, will present many numbers, including the spiritual rock "The Judgement Day Is A Comin' Soon", "Beautiful City" from the musical "Godspell".

The Triple Trio will sing a series of songs including "My Sweet Lady", featuring alto soloist Penny Connell.

Chairman of the Smorgasbord is Mrs. Dee Bowers and Mrs. Loretta Berrigan is serving as co-chairman. The public is invited to attend. Tickets are available from all band members or may be purchased at the door.

Court OKs Removal Of Causeway

CINCINNATI, Ohio (AP)— The 1st Ohio District Court of Appeals upheld a lower court order for the Newport Concrete Co. to remove a concrete causeway from the Little Miami River because it is in violation of state conservation laws.

The appellate court upheld a lower court decision in a suit brought by the State of Ohio and several conservation groups including Little Miami Inc.

The opponents contended the firm stopped navigation of the river, tabbed for inclusion in the federal Wild and Scenic Rivers bill, with the access road to its gravel operations on an island in Anderson Township in eastern Hamilton County.

The causeway restricted flow of the river through three concrete pipes, the action said. The state also reported a youth was drowned when he was washed into one of the pipes.

The state further contended the causeway restricts free passage of boats and canoes and has affected the business of a canoe livery.

The appellate court ruled that the causeway is a hindrance to navigation and must be removed.

The appellate court also noted there has been an increase of public use of the stream for recreation, the state needs to provide such facilities and the state must protect available natural resources for public use.

McCarthy Promotes Candidacy

CLEVELAND, Ohio (AP)— Former U.S. Sen. Eugene McCarthy says the time is ripe for an independent presidential candidate like himself.

"I don't think we've had a situation in the past century where the major parties have been as inadequate to face the problems as they are today," he said Monday on a visit here.

"Forty per cent of the people say they are independent and 55 per cent say they would probably prefer someone other than the Republicans and Democrats probably will nominate," he said.

Public disaffection with the major parties gives him a better chance of winning the presidency in 1976 than his opposition to U.S. military intervention in Vietnam did in 1968, McCarthy said.

The two-term senator from Minnesota believes his old supporters will join his campaign as they become disillusioned with the major parties. And he thinks he will win a large student following again.

"I wasn't on campus in 1968 but they knew I was against the Vietnam war," he said.

McCarthy finished a strong second to President Lyndon Johnson in the 1968 Democratic presidential primary in New Hampshire.

Grange News

PICKAWAY GRANGE YOUTH
Mark and Elaine Pfeiffer, Commercial Point, were hosts to the Pickaway County Grange Youth Sunday evening. Joan Dawson conducted the business meeting. Mark Pfeiffer opened meeting by having devotions, "Masters Of The Land." A discussion was held on a money project for the Youth, Paul Dunkle and Joan Dawson were appointed to co-chairman the project.

June 19, at Clarksburg, the district talent contest will be held, and Elaine Pfeiffer will represent the Youth. Four members plan to go to Grange Camp, the month of July. The next meeting will be held 7 p.m. June 6, at Randy and Mark Wolfe's home.

Dear Abby:

By Abigail Van Buren

Bed And Bored

DEAR ABBY: I am 36-year-old, liberated woman. About sex: I've tried it, and I don't like it. I don't dislike it, but it's just not worth all the trouble. I've been married, and it didn't work out. Sex was never a very important part of my life, but most people think something is "wrong" with a person who doesn't have a strong sex drive. People seem to feel proud if they are sexually overactive (and can "perform" well), and they feel ashamed if they can either take it or leave it. I am not frigid. On the contrary, I am very affectionate. I can lie in my lover's arms and enjoy the feeling of

PUBLIC AUCTION
STATE OF OHIO

PICKAWAY COUNTY, OHIO
John P. Westfall, Plaintiff,
vs.
John P. Westfall, his father and next friend, and John P. Westfall, Defendants.
Larry Lee Lering, Samuel J. Clapper and Joseph Wilkinson, Defendants.
No. 75-CV-51
NOTICE BY PUBLICATION TO JOSEPH WILKINSON OF SUMMONS AND COMPLAINT
To: Joseph Wilkinson
Take notice that you have been named co-defendant in a civil action in this Court in a Complaint alleging that as a proximate result of your negligence in parking your vehicle in a negligent manner on Watt Street on or about February 10, 1973, in Circleville, Ohio, and as a proximate result of the negligence of the other defendants in operating their motor vehicles so as to collide with your vehicle and others, the plaintiff John P. Westfall, II suffered personal injuries and John P. Westfall also suffered damages for which John P. Westfall, II demands judgment against you and the other defendants jointly and severally in the sum of Five Hundred Thousand Dollars (\$500,000) and costs and the plaintiff John P. Westfall demands judgment against you and the other defendants jointly and severally for the sum

All Three County AA Teams Lose In Tourney

SAFE AT SECOND—Circleville's third baseman, Biff Bumgarner, beats the throw to second to pick up a stolen base for the Tigers. But it all went for naught as the Tigers dropped a 10-2 decision to Ready on the Tigers diamond.

BAD THROW—The ball gets by Chuck Glitt, Teays Valley third baseman, as the Pickerington runner moves into third. It was a sign of things to come for the Vikings who were defeated, 9-1, by Pickerington.

GETTING BACK—Greg Justus, Logan Elm catcher, races back to first to prevent a double play after a fly ball was caught in the outfield. The throw went astray but the Madison Plains pitcher, who appears to be holding hands with the Braves' first base coach, backed up the play.

It was a black day for all three Pickaway County schools in Class AA Sectional tournament play Monday as Ready downed Circleville, 10-2, Pickerington defeated Teays Valley, 9-1, and Logan Elm was nipped by Madison Plains, 2-1. All three games were played on the local diamonds.

Ready 10, Circleville 2
Ready won the game in the top of the

first when the Silver Knights tallied three runs on a pair of walks, a double and an infield error.

Circleville battled back with a pair of runs in the bottom of the first but it was the last time that Tigers spikes dented the plate.

Brent Mancini singled, stole second and took third on an overthrow, Phil Roll blasted a long double to left to

score Mancini and Pat McNaughton smashed a tremendous triple to center to score Roll for the second and last marker for the Tigers.

Ready tallied four more runs in the fourth and Doug McGlone came on in relief of Roll.

But Ready still had some power in the bats as the Silver Knights tallied a single marker in the fifth and added two more in the top of the seventh to win 10-2.

They will now meet the winner of the London-St. Charles game.

Roll opened on the hill for the Tigers, allowing five runs, two hits and five walks. McGlone came on in the third to finish. He also gave up five runs, eight hits, walked two and fanned three.

Jim Miller went all the way for

Ready and scattered five hits.

Mancini led the Tigers with two singles, Pat McNaughton smashed a triple, Roll slammed a double and Biff Bumgarner ripped a single.

Circleville will be at Hillsboro Wednesday with Biff Bumgarner on the mound. Friday it will be Brent Mancini doing the hurling at Unioto and Saturday the Tigers will host Miami Trace 1 p.m. with Phil Roll pitching.

Pickerington 9, Teays Valley 1

Brad Stuthard went all the way for the Vikings but couldn't stop the rampaging Tigers. He gave up six hits, walked five and struck out eight.

Matt Turbett was the hurler and winner for Pickerington as he scattered four hits, walked eight and fanned five.

Errors plagued the Vikings as they misplayed the ball four times while Pickerington played an errorless game.

Another factor in the game that didn't help Teays Valley was the fact that the regular catcher, Steve Williams, had suffered an ankle injury Saturday at Utica and was unable to play.

Pickerington tallied twice in the top of the second inning, four times in the third and capped it with a three-run seventh frame.

Teays Valley's lone marker came in the bottom of the seventh frame.

Terry Southerns had a triple for the Vikings while Stuthard, Ron Bumgarner and Lance Roese each had a single.

The Vikings are now 14-6 for the season. 4-2 in league play, and will host Olen tangy 4:30 p.m. today.

Madison Plains 2, Logan Elm 1

The tournament hopes of Logan Elm High School baseball team were shattered by visiting Madison Plains Monday in a close 2-1 ball game.

The loss came despite a fine pitching performance by senior hurler Derek Morris. In seven innings, he was touched for only two hits, both singles, he fanned eight, walked two and hit two batters.

The Braves banged 10 hits off Madison Plains starter Sullivan, but left too many runners stranded. Sullivan fanned three, but didn't issue any free passes to the baselines as he exhibited fine control.

A hit batter, an attempted bunt that was popped just over the pitcher's

head, an error, a hit batter, a fielder's choice and a single accounted for the visitors' two runs in the third inning.

They only had two base runners after that.

Logan Elm's lone run came in the bottom of the seventh inning, Mark Skinner lined a single to right, but was forced at second on an attempted sacrifice by Morris. Then Greg Justus singled and Randy Pontius doubled, scoring Morris from second.

A diving catch of a ball hit by Jeff Reichelderfer ended the inning and saved the game for Madison Plains.

"Madison Plains is a good ball team," LE coach Vic Pontius commented. "They played errorless ball and that was the difference."

Madison Plains has an 11-4 record. Logan Elm has a 17-2 record for the season with only two dates remaining on its schedule.

The Braves have an unscheduled makeup tilt to play with Liberty Union and the county tournament on May 24.

Pontius, who had saved most of the month of May for makeup games and the tournament, is now looking for teams to play. Because of favorable weather early in the season, LE has only the one makeup tilt.

Red Sox Edge Cleveland 7-5 As Rain Finishes Game

CLEVELAND (AP)—It started to rain at the end of Boston Red Sox Manager Darrell Johnson's day Monday, but not before his prayers were answered.

"I've been praying for a little sunshine," said Johnson, referring to the Red Sox' 7-5 victory over the Cleveland Indians in American League baseball.

The rain started falling in the bottom of the ninth when the Indians had two men on base with only one out and were threatening the Red Sox' lead.

Dick Drago did a fine relief job, not only in the ninth, but also in the eighth when he came in with the bases loaded and retired the only batter he faced to get Boston out of trouble.

Luis Tiant, 3-3, started and got the victory, but he was pulled after completing six innings.

"We took him out because his arm

was tightening up," Johnson said. "It was not hurting him. It was just getting stiff. He could have gone another inning, but we decided to take him out. He'll get his turn in the rotation again."

Johnson also noted that the Red Sox got "some timely hitting."

The Indians took a 2-0 lead in the first inning when George Hendrick hit a home run with John Lowenstein on base.

But in the fourth the Red Sox found loser Jim Perry's weakness.

The inning started with a walk to Bernie Carbo. Carl Yastrzemski walked, after one out, and then three consecutive doubles put Boston in front 4-2.

Fred Lynn's double scored Carbo. Jim Rice's scored Yastrzemski and Lynn and Rice scored on Rico Petrocelli's.

Doug Griffin scored on a fielder's choice in the fifth making it 5-2 and Perry left the game.

The Indians scored single runs in the sixth, seventh and eighth, on John Lowenstein's homer, Jack Brohamer singling home Oscar Gamble and Lowenstein scoring on Boog Powell's single, but that wasn't enough.

Top Cage Scoring Moves To Backcourt

OAKLAND (AP) — The scoring fireworks of the Chicago Bulls-Golden State Warriors playoff battle have moved from the frontcourt to the backcourt.

Norm Van Lier, Bulls guard, took the scoring pressure off forwards Bob Love and Chet Walker.

Norm Van Lier, Bulls guard, took the scoring pressure off forwards Bob Love and Chet Walker in game No. 3 Sunday in Chicago. His team leads 2-1 in the National Basketball Association Western Conference finals going into tonight's fourth game here.

"Norm did what he had to do," said Chicago Coach Dick Motta. "He penetrated the middle and got our offense going."

Circleville's girls softball team traveled to Greenfield Monday and gained the second victory of the year with an 18-16 win over McClain.

Sue Crist was on the hill for the Red and Black and gained the win.

The female Tigers tallied four times in the fifth and took the lead with a six-run rally in the sixth.

Greenfield loaded the bases in the last of the seventh with two outs but Pam Pontious made a fine running catch of a line drive to end the game.

Hitting for the winning Tigers were: Wanda Boyd, three singles and a double; Julie Johnson, two doubles and two singles; Sue Radcliff, double and single; Darla Hughes, triple double and single; Linda Holveck, double and two singles; Cathy Armstrong, double and single; Cindy Dayhoff, two singles coupled with some fine base running; Sue Stevenson, two singles; Sue Crist, four singles; Kathy Morehart, single; Pam Pontious, single.

Circleville will host Miami Trace 4:30 p.m. today.

Cincy Reds Batters Complain

CINCINNATI (AP) — The first three batters in the Cincinnati Reds lineup are hitting, and complaining well so far this season.

Leadoff man Pete Rose is batting .306 and is worried that he's not scoring more runs.

Dave Concepcion is batting .343 since being moved up to the second slot in the lineup, but he's upset that he has to be more selective in his pitch selection.

Joe Morgan is batting .378—third-best in the National League—and he's frustrated that he's been walked so much during the early part of the year.

While the Reds leadoff trio have been able to console themselves with their hitting, the Reds usually reliable powerpack of Johnny Bench and Tony Perez have had reason to complain.

Perez is batting only .192, while Bench, despite an impressive array of

runs batted in, is hitting .279.

"If I was hitting I would have 30 runs batted in," lamented Bench who has driven in 20 runs so far this year.

It is easy to see the truth in Bench's statement. The first three batters in the Reds lineup have been on base a total of 157 times so far this season. Bench and Perez, who are both tied for second in the league in that department, have a combined total of 40 RBIs.

"It seems like I never score a run," said Rose, who has been on base 51 times and scored 15.

Morgan is also frustrated despite his fantastic start. He has been on base 63 times, but has collected 23 walks.

"If Johnny Bench were hitting the ball out of the park, they wouldn't be walking me," Morgan said.

Concepcion merely isn't sure he likes batting so high in the lineup.

"I think I like it better sixth or seventh," Concepcion said. "I don't ever walk. I like to swing at bad pitches and you shouldn't do that hitting second."

The lack of hitting in the middle of the lineup has accounted for a great number of close games which have caused the whole team to complain.

"Against ordinary pitching, we should be scoring five, six runs a game," said Reds Manager Sparky Anderson.

Ordinary pitching is something the Reds haven't been seeing, explained Bench.

"It's the best pitching I've ever seen," Bench said. "We have seen only three left-handed starters all year and that really hurts Perez because he eats up left-handers. And the right-handers are making perfect pitches all the time. They just don't ever give in to you, no matter what the count."

Orioles Top Hunter, Yanks

By BRUCE LOWITT
AP Sports Writer

Earl Weaver knew how to hook the Catfish. He got the weatherman to throw out the line and reel him in.

For seven innings in Baltimore Monday night, Weaver's Orioles flailed away at Hunter's pitches. In all that time, all they could manage against him and the rest of the New York Yankees was four hits and one run.

It was clearly a time for a little strategy.

"We talked about it in the locker room before the game," said Bobby Grich, whose eighth-inning bunt—and Hunter's wild throw with it—helped the Orioles to their 3-1 victory. "Earl Weaver and his coaches reminded us that it had rained here all night Friday and again on Saturday night—that the field was very wet and to take advantage of it by laying down some bunts."

Paul Blair led off the eighth with a perfect bunt down the third base line. It was so wellplaced that Hunter couldn't get to it. Grich then dumped a

bunt in almost the same spot. Hunter got to the ball this time—and heaved it into right field. By the time it returned to the infield, Blair had crossed the plate with the tie-breaking run and Grich was sliding into third.

"I came in and picked up the ball and thought Grich would be past first," Hunter explained. "When I looked up, I saw he was about 20 feet away."

"I had a good grip on the ball but my foot was sliding all the time. I've never seen an infield that wet in all my life."

"That's the shortest triple in history," grinned Grich, who scored a moment later on Ken Singleton's sacrifice fly.

In Monday night's other American League games it was Texas 4, California 3, and Boston 7, Cleveland 5. In the National League it was St. Louis 11, Philadelphia 3; Los Angeles 2, Houston 0, and Montreal 3, Chicago 2.

"Weaver had given third base coach Billy Hunter the sign to have me bunt for a hit," Grich said. "I had made up my mind to make sure I got the ball down and got Paul up to second base. "If I can get 20 of those a season, I'll

take every single one of them," Grich added, "especially off the Catfish."

Hunter, 2-4, lost despite a sixhitter. Jim Palmer, 4-2, won with a five-hitter. He fanned seven Yanks and didn't walk any of them.

Rangers 4, Angels 3

Cesar Tovar's two-run single capped Texas' three-run burst in the eighth inning that beat the Angels and gave Ferguson Jenkins his fourth straight victory. Mike Hargrove's walk and singles by Jim Spencer and Roy Smalley brought in the Rangers' first run, they worked a double steal and Tovar singled to center.

Red Sox 7, Indians 5

Jim Rice's two-run double highlighted a four-run fourth inning that helped the Red Sox whip Cleveland. Bernie Carbo and Carl Yastrzemski drew walks and Fred Lynn hit the first of three consecutive runscoreing doubles. Rice then doubled, scoring Yastrzemski and Lynn, and Rice came home on Rico Petrocelli's double.

Cards 11, Phils 3

Luis Melendez and Mike Tyson hit two-run triples in a six-run first inning and Tyson, Reggie Smith and Ted Simmons added homers as the Cardinals, with Bob Gibson notching his first victory of the year, cruised past Philadelphia.

Dodgers 2, Astros 0

Doug Rau checked Houston out two hits as the Dodgers widened their National League West lead over idle Cincinnati to 2½ games. Los Angeles' runs came on a first-inning sacrifice fly by Ron Cey and Joe Ferguson's third-inning single.

Expos 3, Cubs 2

Pepe Mangual and Larry Parrish homered to boost the Expos past Chicago and cut the Cubs' NL East lead over idle New York to 3½ games. Barry Foote walked in the third and Mangual hit his first homer. Parrish connected for his second homer in the sixth.

Last Of 'Stooges' Dies

LOS ANGELES (AP) — Moe Howard, 78, the last member of the Three Stooges comedy team, died Sunday night of lung cancer. Howard was the mophaired leader of the slapstick trio, whose bullying bluster invariably received its just deserts in the end from his partners. Howard's older brother, Shemp, joined the act in 1925 and the group was expanded shortly after to include Larry Fine, who died late last year.

The Circleville Herald, Tuesday May 6, 1975

Governments Push Television Satellite

CLEVELAND, Ohio (AP)—Americans and Canadians living in remote areas may be able to receive television sooner than expected thanks to a joint effort by their governments.

The National Aeronautics and Space Administration's Lewis Research Center here says it will join with the Canadian government in December to launch a satellite from the Kennedy Space Center in Florida.

A NASA spokesman says the satellite, called the Communications Technology Satellite or CTS, will carry a high-powered broadcaster developed

by Lewis researchers. The satellite will be launched by a Thor Delta Rocket and will hover over the equator at about 22,000, west of Africa, he said.

The satellite's antennae will be moveable by remote control so the satellite's broadcast beam, about a time zone wide, can be shifted.

The spokesman says there aren't enough people in some areas of the United States and Canada to support the costly ground receiving stations now used with communications satellites. Progress by Lewis researchers in broadcast tube efficiency makes it possible for less expensive receivers to be set up in hospitals, schools or remote villages, he said.

Lewis Director Dr. Bruce Lundin says the receivers will cost about \$10,000 but that some day technological advances probably will enable persons anywhere to receive television signals from anywhere.

NASA says the Appalachian Regional Commission wants to transmit programs on teaching skills to improve education in remote areas during the expected two-year lifetime of the satellite. The Veterans Administration plans to beam programs on medicine to 30 hospitals, and the Department of Health, Education and Welfare is to try to use the system to help research institutions and the medical community share information, the spokesman said.

Navy Wins At Bowling

DAYTON, Ohio (AP) — Navy showed itself to be "boss" over Army the past football season in Philadelphia. Monday night in Dayton the Middies took "all the marbles" in bowling, not only downing the Army, but the Marines as well.

It was the opening event on the six-day Bowling Spectacular staged by the National Bowling Council on the lanes of the American Bowling Congress tournament.

The interservice teams will duel Tuesday night in doubles with singles Wednesday morning. Championships will be decided the next two sessions in doubles, singles, individual all-events and team all-events. The low bowler of each team was dropped in determining Monday night's team crowns, but will be added to the totals for the team all-events.

Richard Nicholson was Navy's big gun in its triumph in men's six-game competition, knocking down 1,245 sticks. He lives in Greensboro, N.C. Other Navy winning scores:

Edward Harris of Little Creek, Va., 1,213; Stanley Roche of Auburn, N.Y., 1,151; Robert Elder of Fontana, Calif., 1,129, and Robert Kuhnle of Baltimore, Md., 1,002. This represented a total of 5,740.

Buffalo Coach Seeks End To Surprises

BUFFALO (AP) — "What I need right now is one more surprise," Buffalo Coach Floyd Smith said as he prepared his Sabres for Game 5 tonight against Montreal in their National Hockey League Stanley Cup playoff.

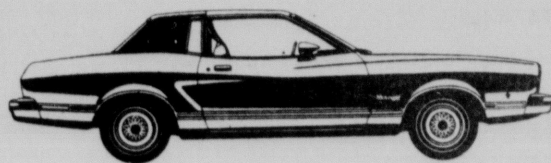

"This team has surprised me all year in how badly it can play one night and how good it can play the next," Smith said. "We have to win this hockey game. It's as simple as that."

Buffalo won the first two games of the best-of-seven series on its own ice, 6-5 in overtime and 4-2. But in Montreal, the young Sabres were shelled 7-0 and 8-2 as the Canadiens stormed back to even the series at 2-2.

13 \$200 Fine Levied Against Toledo Coach

DETROIT (AP) — A \$200 fine has been levied against Coach Ted Garvin of the Toledo Goadiggers for protesting an official call during an International Hockey League Turner Cup playoff game Sunday at Saginaw.

The Goadiggers beat the Gears, 6-5, to take a 3-2 lead in the playoff series. Garvin protested the actions of referee Howie Halter at the end of the first period and was ejected by the official while Saginaw led 3-0.

By FRANCIS DRAKE

Look in the section in which your birthday comes and find what your outlook is, according to the stars.

FOR WEDNESDAY

ARIES (Mar. 21 to Apr. 20): Curb a present tendency toward inertia, lackadaisical action. Current matters need further study: Some trends changing.

TAURUS (Apr. 21 to May 21): Fine Venus aspects encourage artistic pursuits, romance, domestic interests. Just one admonition: Curb emotionalism.

GEMINI (May 22 to June 21): Now you have the opportunity to spread your wings a bit, to investigate new projects, areas of activity. But do not drop well-planned ventures merely for the sake of change.

CANCER (June 22 to July 23): Personal matters may need some special attention, perhaps a change of plan. A state of readiness advised, to cope with the unexpected.

LEO (July 24 to Aug. 23): Excellent solar influences! Capitalize on your dynamic personality — and you can ride ahead with distinction.

VIRGO (Aug. 24 to Sept. 23): Stellar aspects now give slow-moving projects new momentum, indicate better results than even you may have anticipated. Get going!

LIBRA (Sept. 24 to Oct. 23): Introduce a new note — perhaps a new approach — to give more spark to day's doings. Output will substantially improve.

SCORPIO (Oct. 24 to Nov. 22): Go after the big gains but do not expect to have things your way all along the line. Be prepared for some opposition and you can meet it more easily.

SAGITTARIUS (Nov. 23 to Dec. 21): A tabulation of "musts" may uncover a weak program — one that should be pepped up to show your abilities to better advantage.

CAPRICORN (Dec. 22 to Jan. 20): Not much planetary help here. How the day turns out will be largely up to yourself. Use your wits to project the effective and eliminate the mediocre.

AQUARIUS (Jan. 21 to Feb. 19): Look well into proposed suggestions or you may find yourself involved where you least desire it. Some definite "no" answers will be required.

PISCES (Feb. 20 to Mar. 20): Avoid tendencies toward restlessness and unreluctance. Note warning signals. Many errors and misguided moves can thus be averted. Shun extremes.

YOU BORN TODAY are

gifted with the many assets needed for a long succession of achievements and as much happiness as one can crowd into a lifetime. You have unusual creative talent and could succeed at almost any of the arts, but may choose either painting or music as a career. If the latter, your performance or compositions would even have "color" added to pitch and tune, which would set you above many other musicians. You may be drawn to the theater and, if so, could reach undreamed-of pinnacles of success. Other fields in which you could shine: writing, science, education, the law, jurisprudence and statesmanship. Birthdate of: Robert Browning, poet; Peter I. Tchaikovsky and Johannes Brahms, composers; Gary Cooper, film star.

Hogs Are Hams At Silver Springs

SILVER SPRINGS, Fla. (AP) — Although they don't have the grace of an Esther Williams or the speed of a Mark Spitz, there is a group of swimmers at this central Florida nature preserve that is setting its own record.

"They" are a group of wild hogs that have been trained to swim, something that is virtually unknown in the world of the swine. Hogs can't swim, it is said, because if they tried they would slash their own throats with their sharp hooves. These hogs obviously don't know that. Instead, they spend half their day in the water, swimming out to the boats that cruise the Silver River, waiting for the boat captains to toss them slices of white bread. Whole families swim together, from a 400-pound boar to a mother hog and her litter of piglets.

It all started several years ago when Leon Cheatom, a gamekeeper, decided to try to coax the wild hogs out of the forests and closer to the river, so that tourists would be able to see them from the boats. He too believed that hogs couldn't swim. But once he succeeded in getting them to feed at the water's edge, which in itself took months of careful planning, Cheatom started tossing bread in the water to see if they would at least get their feet wet.

Timidly, the hogs would wade into the river to retrieve the food, each time going deeper and deeper. Many months later, to Cheatom's great surprise, several of the hogs plunged into the river and swam up to his boat.

Views On Television

NEW YORK (AP) — As we all know, the networks next season will air shows suitable for "family viewing" in the first hour of their evening schedules. It's a noble attempt to reduce the amount of TV violence.

Originally, the "family" rule applied only to entertainment shows. But in an effort to further tone down violence on TV, the networks now plan to apply it to their coverage of major sports events at night.

That's the word from Snidely Foon, a TV observer who says he learned of the new plan from a network censor. He said pro football will be the first sport directly affected by the family viewing rule for sports.

"There is to be no blocking or tackling shown on TV until 9 p.m.," Foon said. "If it happens, the networks are to show excerpts from 'Mister Ed' until the violence abates."

"And if the teams persist in blocking and tackling during the family viewing hour, Howard Cosell is supposed to ignore the game altogether and interview himself until 9 o'clock."

Foon said baseball won't pose too many problems.

"It doesn't have much violence, although the networks have been told to cut to a picture of Kate Smith when it appears a runner may wipe out the second baseman during a double play," he said.

The problem of hockey, where fights always occur, "is being resolved by only televising the games of nice teams," he added.

Foon said the matter of

fouling in basketball is being handled "by requiring the players to say 'May I have the ball, please?'" until normal play resumes at 9 o'clock.

Does the family viewing hour signal the end of boxing telecasts early at night? "Not at all," Foon said. "The networks are telling the boxers not to strike each other until 9 o'clock. They may dance about and glare a bit at each other, but no hitting."

"If there are fisticuffs before 9, the network covering the bout will only show Myron Floren playing his accordion until the family hour ends."

Muhammad Ali and George Foreman are believed pleased with this new arrangement, Foon confided. Then he was led away by a big man in a white jacket.

Logan Elm Board Discusses 1975 Football Program

In the regular monthly meeting of the Logan Elm Board of Education Monday night, a discussion was held with the football coach on the plans for the program this fall. Perry Griffith, L.E.'s head football coach, discussed his plans for updating the program and made three requests for assistance from the board.

Griffith asked that the board purchase for his program a 16 millimeter camera and projector and requested that consideration be made for the employment of a fifth coach to help strengthen the reserve football program. The coach also asked that the gymnasium be opened during the summer months for six nights a week between the hours of 5 to 7:30 p.m.

The board tabled all action on these requests but agreed to discuss them further and to take action during an extended meeting on May 22.

Librarians Judy Beaver and Pamela Grow talked with the board and discussed the history and growth of the libraries in the Logan Elm District. The two ladies ended their talk with the request that the board consider an addition to the library staff for the 1975-76 school year.

Principals Roger Wolfe of the McDowell Exchange School and Dow West of the high school, presented brief outlines of their respective teachers' schedules and assignments for the coming school year. Their discussion was summed up by asking for the addition of a full-time teacher and a part-time teacher at the high school and one full-time teacher at the junior high.

In other action, the board borrowed \$100,000 for bills and payroll and authorized the clerk to borrow an additional \$75,000 for the expected delivery of five new school buses.

The board also employed Mary LaCourt as a special education teacher for the 1975-76 school year and Lynn Demojzes, a graduate of Otterbein College, as a substitute music teacher for the remainder of this school year.

Two staff members were employed on continuing basis. Dan DeLong, high

school American Government teacher, and Dale Drake, teacher-principal at Washington Elementary School were given continuing contracts. The resignation of Beverly Spencer, art teacher at the elementary level, was accepted.

Approval was given for the list of 1975 graduates. There is a total of 147 scheduled to graduate this spring.

Bids were considered and the low bid taken on a ten-horsepower lawn tractor for use at the high school and junior high school. The low bid of \$1350 was made on the AMF tractor and mower from the Laurelville Grain and Mill Company.

Approval was also given for Superintendent John Henn to accept bids for the removal of a wooden frame building at the Laurelville School. Bids should be in the superintendent's office no later than May 21.

The board also authorized Henn to advertise for window replacement in the elementary buildings.

Four requests for personal leave

were discussed by the board and three were denied. The fourth was granted.

The board authorized the use of proxy to vote at the Earnhart Water meeting to be held this month.

A request from the industrial arts department for a new lathe and grinder was granted and approval was made for the IBM service agreement for the district's three electric typewriters.

Goble Branham, transportation coordinator, was given permission to attend the transportation workshop at Ohio University July 7-11.

The board will convene again for a continuation of this month's business on May 22.

mixed plaster and mortar for a new five-story addition to the main Post, Telephone and Telegraph office in the city center.

Rebuilding of shops and houses on Kham Theirn Street is almost completed and the population of the street and its 26 shopping lanes is back to its normal level of about 30,000. The street was leveled by bombing attacks on Dec. 26, 1972, in which the Hanoi government said 283 were killed and 266 wounded.

Saigon Radio, monitored in Bangkok, ordered policemen and members of the armed forces under the deflated regime to report to the new authorities or face severe punishment. The deadline for doing so was extended from Wednesday to May 31.

The central disarmament committee announced that it was forbidden to destroy military or other equipment belonging to the old government or to Americans, and added that those removing parts from machines or vehicles would be punished. The old regime had let black market sales of military hardware flourish openly.

Meanwhile the airlift of Vietnamese refugees to the United States continued. Former Premier Nguyen Cao Ky arrived in California.

Deputy Recovers Stolen Auto

Pickaway County Sheriff's Deputy Nick Franklin recovered a car that was stolen from the home of Virginia Sherman, Route 1, Amanda.

The car, a 1968 Plymouth, was apparently stolen sometime between 11 p.m. Monday and 1 a.m. Tuesday from the driveway of her home on Route 752.

Franklin recovered the vehicle 1:50 a.m. Tuesday after it was abandoned at the intersection of Route 752 and the Circleville Winchester Rd.

The vehicle was in operating condition.

Thieves Flip Lock To Steal CB Radio Unit

Thieves forced open the door of a car owned by James Lovett, Route 1, Stoutsville, to take a Pace 23-channel citizen's band radio valued at \$200.

Lovett told Pickaway County Sheriff's Deputies that he parked his vehicle Monday at 10:30 p.m. at the L-K Restaurant, Route 23 south, and noticed the unit missing when he returned Tuesday at 1:48 a.m.

Deputies found that the thieves pushed a coat hanger through the rubber window separation to lift the door lock on the car and gain entry.

Two Fires Investigated By Deputies

Pickaway County Sheriff's Deputies were called to investigate two fires Monday, both in the eastern part of the county.

Deputy Jim Fite investigated a car fire 11 a.m. Monday on the East Ringgold Southern Rd. intersection on the Circleville-Stoutsville Rd.

Clearcreek Twp. firemen had the blaze under control when Fite arrived. The fire in the 1968 Chevrolet was blamed on an overheated engine.

A youngster pouring gasoline into a hot lawnmower was blamed for a 9 p.m. Monday fire that destroyed a shed owned by Pickaway County Commissioners.

The storage shed, on Route 22 at the Ringgold-Northern Rd. intersection, was being rented by Gerald Hixon, Route 5.

Richard Hixon, 12, was apparently filling the lawnmower with gas when it overflowed and ignited on the hot engine.

New Citizens

MISS REAMS

Mr. and Mrs. Donald Reams (Brenda Boysel,) 1455 N. Court St., are the parents of a 7-pound 2½-ounce daughter born 6:44 a.m. Tuesday at Berger Hospital.

Paintings Displayed

VALLY RAHE

The paintings of Vally Rahe are now being displayed in the north hallway of the main office of The Second National Bank of Circleville.

Mrs. Rahe is the vice president of the Circleville Art League. She has had her works displayed at the Mall, Big Flats, New York; Corning, New York; Hospital Guild International; Circleville Art League shows; Pumpkin Show; Pickaway County Fair; Ashville 4th of July and The Ohio State Fair.

Mrs. Rahe attributes her success as a painter to the teaching and encouragement given by Robert Garrett, an art teacher at Corning, New York and also her own self teaching.

The subject matter of her paintings include memories, places visited, situations, and things that have character. Vally feels she has a need to paint and is a firm believer in "minding the home front" while the children are young. "I find that art in any form provides a perfect opportunity to do your 'own thing' and

still be available when needed."

Mrs. Rahe's paintings include oil, pastel, some silk screen and linoleum block prints and watercolors. Those on display are: "Crites Farm"; "Brown County"; "Old Mill"; "Hargus"; "Foothills"; "County Fair"; "Fruit Market"; "Rothenburg"; and "An Apple, Mister."

Mrs. Rahe and her husband Villem, an engineer at RCA, reside at 343 Meadow Lane. They have six children: Helle who is a physical therapist in New York; Arvo and Peter who are both attending Ohio State; Kristi who is a Circleville High School Senior; Kristjan who is in Circleville Junior High School; and Tina who is a third grader at Nicholas Drive Elementary.

Mrs. Rahe is from Estonia which is now a part of Russia. She immigrated to Canada in 1948 and entered the United States in 1952. Mrs. Rahe says, "I'm proud to be a United States citizen."

Court Releases Monthly Report

A monthly report for April released today by Judge William Ammer showed a total of 79 new cases were filed during the month in the Pickaway County Common Pleas Court.

Of those new cases filed, one was personal injury, 34 were criminal, 28 were domestic relations and 16 fell into the "others" category.

There were 228 cases pending at the beginning of the month and 83 cases terminated during April leaving a total of 224 pending on the court's docket at the end of the month.

One case during the month was terminated by a jury trial, four by court trial, two by pre-trial, 15 by dismissal, 60 by default and one by transfer to another court or judge.

Those cases terminated by category are as follows: seven personal injury, 34 criminal, 34 domestic relations and eight others.

BLAST OFF—The sixth annual Y Indian Guide rocket shoot was held Sunday at Owen-Illinois Plant where 75 rockets were launched. Gary Valentine (right) his son Preston (left) and Cecil Nelson (center) chief of the Ashville Crow Tribe are pictured counting down for their launch.

Three big ways to compare three small cars.

Speed Limit Defeated

COLUMBUS, Ohio (AP) — The House unexpectedly defeated today a bill to establish a permanent 55 mile an hour speed limit in Ohio after opponents argued against "blackmail" by the federal government which has mandated that states put into effect the lower speed limit by June 30.

The bill failed by three votes to gain the required two-third majority needed for immediate enactment as an emergency measure. The vote was 63 favorable to 25 against.

An identical measure is awaiting a floor vote in the Senate.

Spring Storm Brings Snow, Cold, Rain

By THE ASSOCIATED PRESS

A powerful spring storm with a midwinter accent buried parts of the northern and central Rockies under heavy snow today and sent an icy chill eastward into the adjacent Plains.

Six to 12 inches of snow piled into the Rockies from southern Montana through Colorado. Heavy-snow warnings remained up for both states today and for sections of western Wyoming as well.

Cold rain or rain and snow mixed brought stockmen's advisories in the western Dakotas, Wyoming and Colorado.

The National Weather Service said the storm was accompanied by very cold air aloft that would be comparable to conditions found during midwinter.

High winds churned around the storm center. Gusts of 60 miles per hour were recorded near Rapid City, S.D., late Monday. Winds over 40 m.p.h. were common over the Rockies and into the Plains. Blowing dust cut visibility Monday in western Kansas, Nebraska and Texas.

Thunderstorms broke out over the southern Plains through Monday and ranged into portions of the Midwest early today. Showers spilled eastward as far as the upper Ohio Valley. Showers and thunderstorms also roamed the lower Mississippi Valley.

Large hail accompanied the storms in numerous areas of Texas. Hail shredded some crops near Millerville, Tex., where 3 inches of rain fell in one hour Monday.

Clear skies covered most of the Southwest into West Texas, widely scattered sections of the midcontinent and most of the Eastern Seaboard.

Temperatures before dawn ranged from 21 at Flagstaff, Ariz., to 80 at Key West, Fla.

Funds Released For Marion Park Purchase

The Ohio Controlling Board Tuesday released \$107,489.79 to acquire two parcels of land adjacent to A. W. Marion State Park.

The Department of Natural Resources will use the land to enlarge the camping area and other park facilities.

The department will purchase 98 acres from Reubin Jones at a price of \$1,075 per acre and .98 of an acre from Vernon Lowery at a cost of \$1,989.79.

Pickaway-Ross Representative Myrl Shoemaker today announced the controlling board action. Shoemaker, who is chairman of the house finance committee, is a member of the controlling board.

Sponsor Arthur Bowers, D-98 Steubenville, warned that federal highway funds would be cut off if the permanent law were not enacted. Opponents like Rep. Richard H. Finan, R-19 Cincinnati, argued that "to say we have to go along with it is not true. We certainly ought to think about standing up and showing our back bone to the federal government."

And Rep. John A. Galbraith, R-69 Maumee, asserted, "The 55 speed limit is not realistic. Our cars are made to go faster than that and our highways are built for greater speed than that."

The bill emerged from Bowers' Highways and Safety Committee with a provision that Ohioans convicted of driving between 55 and 70 miles an hour will not be assessed points under the state's penalty point system.

Under the law, a driver can have his license suspended for six months if he accumulates 12 points over a two-year span. A conviction for speeding carries two points.

A similar bill has been recommended for approval by a Senate committee but is being kept aside until Bowers' bill comes over from the House to determine whether differences can be resolved.

Senators, who returned from weekend recess for a Monday night floor session, scheduled a vote today on a bill that exempts Ohio's disabled veterans from having to purchase hunting, trapping, or fishing licenses.

Two bills were approved and sent to the House at the Monday night session. They permit township trustees to be reimbursed for expenses when attending township conferences and meetings, and revise statutes under which animal and livestock owners can be reimbursed by counties for animals killed by stray dogs. Such payments are made, after verification, from county dog and kennel funds.

Sen. Robert T. Secrest, D-20 Cambridge, introduced a bill that would provide free auto license plates for

Ohio's six living Congressional Medal of Honor winners. "They deserve it. A lot of states, including Texas and Florida, already have done it," Secrest said.

In other developments, House Finance Chairman Myrl Shoemaker, D-88 Bourneville, said it now appears that there won't be a House floor vote on the state's two-year budget bill until next week. Leaders had hoped to bring it up late this week, possibly at an unusual Friday session.

The chairman said some details remained to be worked out and that he wanted members to have time to study the big spending measure—about \$12 billion—during the weekend.

Reportedly, majority Democrats are trying to work out a modest increase in payments to recipients of Aid to Dependent Children.

Shoemaker pointed out that Ohio currently is making payments below the national average with benefits totaling a maximum \$209 a month for a family of four.

U.S. Supplies Missiles To Jordan

WASHINGTON (AP) — The United States is going to supply Jordan with Hawk antiaircraft missiles and other air defense equipment despite a freeze on new U.S. arms shipments to Israel.

Auto Jack Not Wanted By Firms

DAYTON, Ohio (AP)—James Vargo of Dayton claims the auto industry isn't interested in the new auto jack he invented although it can be used on sloping driveways without wheel chocks.

James Vargo said he got the idea while attempting to lift his car with a regular bumper jack on his sloping driveway.

With the help of a nephew, Mike Kessler, the Keva Auto Safety jack came into being. The name came from their last names.

The jack was designed to work on any car on a slope or berm. With four of them, Vargo said the auto could be lifted completely off the ground.

Although Vargo's jack resembles the usual bumper jack, it doesn't use the bumper. It fits instead into a rigid sleeve bolted to the car.

Vargo has obtained a patent on the jack but he said the auto companies claim the idea isn't new although they haven't looked at his version.

"I'm not saying it's the best system in the world, but it's a 100 per cent improvement over what they've got," said Vargo.

Vargo said bumper jacks have remained basically unchanged over the years.

"Pickup trucks still have the same type of jack Henry Ford started with," Vargo said.

He said his jack could be used if the automakers would mount four hollow sleeves behind the bumpers of their cars.

Vargo, a former Air Force mechanic, said the safety problem with regular bumper jacks would grow as Detroit makes bumpers lighter to cut costs. Vargo said his would work even if water bumpers were installed.

He has received flat refusals from Ford, General Motors and American Motors.

American Motors said the system "could not be incorporated into ... present product planning."

Vargo has his 1973 American Motors Gremlin equipped to use the system.

U.S. officials said the Jordan arms deal does not represent a "new commitment" and will not shift the balance of power in the Middle East.

These officials, requesting anonymity, said Secretary of State Henry A. Kissinger had given Jordan "a verbal commitment" to help its air defense while he was on a negotiating trip to the area more than a year ago.

Subsequently, an American survey team was sent to Jordan, and King Hussein completed details for delivery of "a small number of Hawks" and other equipment on his visit here last week, these officials said.

In the meantime, shipment of new arms to Israel remains suspended while the Ford administration pursues its "reassessment" of U.S.-Middle East policy. Included in the ban are about 200 Lance mobile missiles, although arrangements for their delivery had already begun.

"I see no equation here," said one U.S. official when asked how that could be squared with completion of the Hawk deal. "You are comparing apples and oranges."

Meanwhile, Kissinger, appearing today on NBC's Today Show, acknowledged that the Ford administration is critical of Israel's "inflexibility" in recent negotiations.

It is a "myth" that President Ford has privately criticized Israel for being inflexible during negotiations in March over a withdrawal in Sinai, Kissinger said.

Xenia Gazette Wins Pulitzer Prize

XENIA, Ohio (AP) — The Xenia Daily Gazette, which published continuously despite a tornado that killed 32 persons on April 3, 1974, has been awarded a Pulitzer Prize for local general reporting.

"Our whole saga is one of a lot of courage, guts and dependability for all 80 persons who work for us," said Jack Jordan, editor and general manager of the Gazette.

The newspaper continued publishing for the town of 25,000, after the tornado hit at 4:40 p.m. April 3, using the printing presses of the nearby Middletown Journal, another member of the Chew Newspapers of Ohio.

The Gazette was cited in the award, announced Monday at Columbia University, for its coverage of the tornado "under enormous difficulties."

Shortly after the tornado hit, the paper changed to morning publication when its carriers had to begin to go to school in the afternoon to compensate for destroyed school buildings. The carriers are now in class between noon and 6 p.m.

"We never missed publication. Our building was knocked out," Jordan said. His dozen reporters worked in an office that was without utilities, and was badly damaged, allowing the wind to blow through it and rain and snow pour in.

When the tornado hit, carriers were delivering the afternoon newspapers. "A great number of our papers were distributed as far north as Canada where the winds let them down," he said.

The two or three reporters still in the Gazette building near the center of downtown quickly moved onto the streets and countryside to survey the damage, Jordan said. Other reporters joined after caring for their families. Of the 80 employees at the Gazette, 16 lost all their possessions, he said.

"By 7 p.m. we had a pretty doggone good summary on what happened," he said. Phone lines were out. The city was a mass of darkness. Electrical lines and gas were inoperative.

For a week, the reporters worked in shifts as copy was ferried to Middletown where it was printed. The printed papers were distributed in the

"The President made a public criticism, not a private criticism, when he referred to inflexibility," Kissinger said.

Kissinger said that in any event, the purpose was to make it clear that new decisions had to be made "by all of the parties" and that progress toward peace must not be stopped.

"The allegation of private criticism of Israel comes mostly from people who think they are helping Israel but who, in my view, are not helping Israel by making these allegations," Kissinger said.

Only after Ford's meetings next month with Egyptian President Anwar Sadat and Israeli Prime Minister Yitzhak Rabin will the decisions in the reassessment be made, Kissinger added.

One of the elements known to be under study is whether to name a career foreign service officer to Jerusalem to succeed Ambassador Kenneth B. Keating, who died Monday in New York.

This would place Israel on an equal footing with Egypt and Saudi Arabia, where Kissinger has moved in Middle East specialists upon whom he relies heavily.

Keating, who would have been 75 on May 18, had served earlier as ambassador to India, but his background was largely political, having been a longtime congressman from Rochester, N.Y., and then a U.S. senator.

Roundtown

late afternoon to news hungry Xenia residents whose only source of information was the newspaper and what they could learn from portable radios.

Jordan said he is anxious to return to being an afternoon newspaper. Since turning to a morning publication, his circulation has fallen 2,000 to 13,432 at the end of March.

"It's a fantastic once in a lifetime experience. I wouldn't want to go through it again, but this Pulitzer certainly wraps it up," Jordan said.

Reds Consolidate Victory In Indochina

By THE ASSOCIATED PRESS

Cambodia's new Communist-backed rulers said today they would respect the national and territorial integrity of neighboring states but would not allow any foreign troops on their soil.

Cambodia's neighbors are South Vietnam, Laos and Thailand. It was not known whether the reference to foreign troops included the North Vietnamese.

A Khmer Rouge broadcast from Phnom Penh said Cambodia would continue to seek good relations with countries of Asia, Africa and North and South America, but did not mention setting up diplomatic ties or requests for foreign aid.

"We will work hard for ourselves," the broadcast said.

In Bangkok, the Thai government decided to hold on to all Vietnamese aircraft brought into the country by fleeing Vietnamese refugees and urged the U.S. government not to remove any from Thai soil. The decision came after the United States spirited away at least 25 South Vietnamese warplanes, U.S. sources and witnesses said.

Meanwhile, at Utapao air base in the northern part of the country, the

United States launched an airlift of Cambodian refugees to America, including former Cambodian president Sau Kham Khoy. Khoy, who was evacuated from Phnom Penh before the fall of Phnom Penh, told newsmen he would live in America and "will not go back to Cambodia until there is freedom there."

Hanoi's Vietnam News Agency reported that the forces of the Revolutionary Government in Saigon have taken six islands in the controversial Spratly archipelago in the South China Sea, and "all the puppet forces on these islands were put out of action." It said the islands were taken between April 14 and April 29. China, the Philippines, the former Saigon regime, Taiwan and Malaysia have all claimed the islands, where oil reserves are believed lying offshore.

At the same time, Saigon radio appealed to all fighting men who had left South Vietnam to return to the country and bring back aircraft and other war equipment and surrender to the new regime.

The broadcast also said all islands in Vietnamese waters had been "completely liberated" and that prisoners held by the former government on

some of them have been freed and were returning to mainland Vietnam. The islands included Phu Coq and Con Son, the latter the site of a large penal colony where prisoners were held in dreaded "tiger cages."

Former President Duong Van "Big" Minh of South Vietnam said overwhelming North Vietnamese and Viet Cong military superiority left him no alternative but to surrender the country unconditionally.

In an interview published Monday in the North Vietnamese army newspaper and broadcast by Hanoi Radio, Minh said, "We sincerely rejoiced at your speedy victory."

"The Saigon military forces were no longer in a position to offer resistance. We knew the strength of the Revolutionary Government and the liberation army. The tank units ... were really formidable."

"In these circumstances, to surrender unconditionally was the only possible decision."

The broadcast said the interview was conducted May 1 — the day after the surrender — at the presidential palace in Saigon where the new regime released Minh and 15 other political figures from custody.

2-Year-Old Boy Rescued From Well

MIAMI, Fla. (AP) — "We got you, babe. Come on," crooned a rescue worker after chiseling the final inches to 2-year-old Michael Smith, trapped 10 feet down a narrow well in a bean field.

The naked toddler was freed after a five-hour effort by rescuers Monday night. Michael was reported in satisfactory condition today at a nearby hospital.

"He was shaking from the cold water, but he was okay," said Dade County fireman Raul Chavez.

The child's cries for his mother encouraged rescuers as they used a mechanical shovel to dig a hole parallel to the 9-inch-wide well. Jackhammers and chisels were used

to tunnel horizontally through limestone to the child.

"He started slipping toward the end, and we got scared we'd lose him," fireman Gregory Gerlach said.

Chavez kept hold of Michael with two hooked poles to keep him from falling deeper and drowning. He never went farther than chest-high in the water.

"We had him hooked by the diapers, but they were the disposable kind, and after a few hours, they sort of disintegrated," Chavez said. "We had him pretty good, though, and I kept telling him to keep his head turned up so he wouldn't go under water."

Michael's mother, Barbara Jean Smith, 20, said she had taken her son with her when she went to pick beans in the field at \$3 a day. Miss Smith, who is unmarried, said she couldn't afford a babysitter so she left Michael in a car at the edge of the field.

Straw baskets had been placed over several wells in the field.

"One of the pickers took this one out," said Miss Smith. "I found out about it when a lady called over to me and said my baby done fell in the well."

"He's my only boy," Chavez said that at one point, Michael turned completely around in the hole.

"He was a squirmy little devil," the fireman said.

It was the sixth time in about four years that a child has fallen into one of the barely visible irrigation wells in south Dade County vegetable fields. One child died; the others were rescued.

The county has passed a mandatory well-capping ordinance covering fields in which the public can pick fresh vegetables, but this field was not covered because it was privately picked.

"It feels terrible to lose a life," Chavez said. "I'm certainly glad we didn't lose this one."

Weather

Partly cloudy and mild with chances of showers today, tonight and Wednesday. High yesterday, 69; low, 49. High tomorrow, mid 70s. Chances of precipitation, 30 per cent today, 20 per cent tonight, 30 per cent tomorrow.

Markets

NEW YORK (AP) — The stock market was unevenly lower today as profit taking stalled the rally of the past four sessions.

The Dow Jones average of 30 industrials, up more than 52 points in the past four sessions, had pulled back 5.24 to 850.36 by noon today. Gainers and losers were about even in active trading on the New York Stock Exchange.

Brokers traced the decline to the normal desire of traders to cash in on some profits after a sharp advance in prices.

Times Mirror, among the volume leaders on the Big Board, rose ¼ to 19¼. A 100,000-share block traded at that price.

At the American Stock Exchange, the market-value index rose .73 to 86.22.

Amid the cross-currents of buying and profit taking, the NYSE ticker tape ran late for much of the morning, and volume had reached 11.61 million shares after the first two hours.

The NYSE's composite index of more than 1,500 common stocks eased .12 to 47.48.

Syntex, the Amex's most active issue, slipped ½ to 40.

Congress Hostile To Aid Request

WASHINGTON (AP) — President Ford's \$507-million request for up to 150,000 Indochina refugees is drawing hard and sometimes hostile questioning in Congress.

Chairman Joshua Eilberg, D-Pa., said Monday after the initial hearing on the request that his House immigration subcommittee will need "soul searching" and more information before it acts.

Eilberg said the \$507 million is an estimate by the administration of what the otherwise unlimited programs for South Vietnam and Cambodia refugees will cost.

Subcommittee members pressed for more precise figures on refugees and costs, and Rep. Elizabeth Holtzman, D-N.Y., said any war profiteers, torturers and killers among the refugees should be screened out.

The director of Ford's refugee task force, Ambassador L. Dean Brown, told Eilberg's subcommittee the \$507 million is acutely needed because \$98 million in funds available now will be exhausted in a week.

Meanwhile, there were these related developments:

—The Immigration and Naturalization Service said it is investigating several commercial airlines to determine if they flew illegal aliens into the United States from Indochina.

The probe is not directed toward the huge evacuation of South Vietnam during the final days of the war but at earlier commercial flights, possibly including some airlifts of orphans. U.S. laws prohibit airlines from bringing into the United States any alien lacking a visa.

—The State Department has established a special referral office for Americans wishing to assist in the resettlement of Vietnam refugees. Sponsors assist the refugees in adjusting to their new environment, finding homes and jobs and taking care of their families. The special office has a toll free telephone number of 800-368-1180.

Chloroform Cancer Risk Overplayed?

WASHINGTON (AP) — Consumption of chloroform commonly found in drinking water may pose some danger of cancer, but the effect also may be nil, says a panel of scientists.

The panel said that despite the mixed possibilities, the estimate can't be dismissed because so little is known about the cancer causing potential of the chemical chloroform.

"The study group concludes that there may be some cancer risk associated with consumption of chloroform in drinking water," the scientists said in a report Monday to the Environmental Protection Agency. The panel said that in a "worst case" analysis of the problem, chloroform might cause 40 per cent of the nation's liver cancer cases.

In reality, the incidence of cancer caused by chloroform in drinking water probably will turn out to be much less, even nil, the scientists said.

Their report follows release last month of an EPA survey which found varying amounts of chloroform in the drinking water of each of 79 cities surveyed. The presence of the chemical is the result of treating drinking water with chlorine.

Findlay Theater Has Films Stolen

FINDLAY, Ohio (AP) — They're paying \$50 here to find the Love Factor.

Operators of a drive-in movie theatre had to turn patrons away Sunday night when thieves swiped their films.

The owners have put up a \$50 reward for the return of the movies Love Factor and When Women Lost Their Tails.

The refugee-aid request appeared headed for cautious congressional consideration.

Eilberg told newsmen the subcommittee might act in a week, and he predicted the panel would not "approve all the programs they asked." He amended that in an interview later, saying it was too early to predict what the subcommittee will do or how soon.

Strip Mine Bill Nears Passage

WASHINGTON (AP) — A compromise bill to limit environmental damage from coal strip mining could be on its way to President Ford's desk by the end of the week.

Ford vetoed an almost identical bill last December, but this time sponsors claim they have enough votes to override another veto. Opponents claim the bill would increase consumer electricity bills 10 to 16 per cent, but the measure's supporters dispute this contention.

The Senate approved the bill by voice vote Monday after little discussion. House backers hope to bring it up in that chamber later this week. Even opponents concede the House will probably pass the measure by a wide margin.

The bill would impose a series of minimum federal environmental controls on coal strip mining, which accounts for half of all coal mined in the United States. It also would require coal operators to restore land after the mining operation, authorize states to set up their own programs, and levy a tax of up to 35 cents a ton on coal to help clean up abandoned strip-mine excavations.

Administration spokesmen said Monday that Ford has not yet made up his mind whether to attempt another veto once the bill reaches his desk.

He vetoed the earlier version on the grounds it would send the cost of coal and electricity soaring and make it hard to achieve U.S. energy self-sufficiency within the next decade, a goal based in part on doubling domestic coal production by 1985.

ROUNTOWN

See Spiraling Medical Fees

SAN FRANCISCO, Calif. (AP) — Northern California doctors hit by skyrocketing malpractice insurance rates are warning of fee hikes up to 40 per cent as a partial boycott of practice goes into its sixth day.

Some hospitals are considering the possibility of shutting down.

Many physicians, faced with premium boosts of up to 375 per cent, quit practice rather than pay the insurance. Some signed up after two or three days and plan to absorb the cost by raising their office visit fees 10 to 12 per cent.

An operation may cost an additional 40 per cent. Anesthesiologists — the hardest hit by rate hikes — said Monday they intend to charge \$75 more per case.

Drivers Are Safer, But Thieves Busy Deputies

Drivers were relatively safe in April, according to the monthly accident report released today by Pickaway County Sheriff Dwight Radcliff. But thieves and vandals kept Sheriff's Deputies busy during the month.

The department investigated 74 accidents in April. There were no fatalities and 50 persons were injured in 26 of the wrecks.

There have been four people killed and 173 injured on county roads in 1975.

As a result of the accidents, seven people were charged with failing to yield the right of way and two for reckless operation. Only four involved drunk drivers.

Deputies made 23 traffic and accident related arrests in April.

The majority of the accidents oc-

Credit Union In Trouble

HAMILTON, Ohio (AP)—Shareholders in the HAMFAB Credit Union at the Fisher Body General Motors plant have learned their savings are worth only 35-cents on the dollar.

Eugene Conkle, examiner for the Ohio Division of Securities, said suspension of the credit union operations was ordered by the state recently because reserves were too low for loans.

The state examiner said \$337,000 of the \$1,753,000 outstanding in loans was charged off as "worthless paper."

Conkle said a plan to curtail loans had been presented to the credit union a year ago but was not implemented.

The state suspended the credit union April 23. Savings withheld by payroll deduction since April 21 are being held in escrow, the organization said.

Thieves Steal Auto Parts

Circleville Police are looking for the thieves who broke into a garage on W. Ohio St. last month to take valuable automobile parts.

Gregory White, 458 E. Main St., told officers that he and Randy Downs were rebuilding a car in a garage rented by Downs.

Thieves broke in to take an 800 Dual Line Holley carburetor valued at \$90, and a computerized crank shaft and computerized cam shaft designed for a 340 Chrysler engine.

Oxidation Ditch Plans Too Costly

CHAMPAIGN, Ill. (AP)—Providing an oxidation ditch system for hog wastes is too expensive for most swine operations, the third International Symposium on Livestock Wastes was told by an Ohio Agricultural Research and Development Center staff member.

Richard K. White, an associate professor of agricultural engineering,

said he based his conclusions on operating and cost data while working as a consultant for the Double E Farms at London, Ohio.

He said mechanical breakdowns and operating costs made the operation too expensive for the average swine producer.

COLUMBUS, Ohio (AP) — Dr. Ralston Russell Jr., a professor of ceramic engineering at Ohio State University, will be installed today in Washington as president of the American Ceramic Society.

The Pomeroy native has been a fellow of the 10,000-member society since 1941. He joined the university's engineering faculty in 1946.

2 Men Sought In Armed Robbery

PORTSMOUTH, Ohio (AP)— Two men were sought Monday by the FBI in the holdup last Tuesday of the Wheelersburg branch of the First Federal Savings and Loan of Portsmouth.

Named in the warrants were Steven W. Fields, 46, formerly of Portsmouth, and Randy Bays, 19. Police said Fields had served a penitentiary sentence for an armed robbery in Lorain. He was

released in 1972. Two armed robbers obtained around \$2,000 in the Wheelersburg holdup.

Malpractice Bill Pushed In House

WASHINGTON (AP)—Rep. Charles Mosher, R-Ohio, has joined with Rep. Jim Hastings, R-N.Y., to introduce legislation to provide relief to doctors seeking malpractice insurance.

The bill offers temporary federal assistance on a voluntary basis to qualified states while permanent solutions to the problem are being studied.

A Page Of Opinion

School Crime Grows

Violence in the public school system has been a serious problem for many years, largely swept under the rug by school officials afraid of

creating still greater difficulties by public disclosure. That is a mistaken notion which a Senate subcommittee is beginning to unearth.

In initial hearings into the problem, the Senate Judiciary Committee's juvenile delinquency subcommittee has heard some startling testimony. Based on crime and vandalism studies conducted in 757 of the nation's largest school districts between 1970 and 1973, the subcommittee estimates that

each year the cost of school crime and damage comes to \$500 million nationally—passed on to the taxpayers who support the school systems.

Worse, the crime spree is spreading rapidly. During the three years studied, the subcommittee estimates assaults on teachers increased by 77 per cent, assaults on students by 85 per cent, robberies of students and teachers increased by 36 per cent, rapes and attempted rapes by 40 per cent and homicides in school buildings increased by 18 per cent.

In the 757 districts studied alone, 100 homicides were reported in 1973. Sub-

committee chairman Sen. Birch Bayh was not stretching the truth when he said: "The ledger of violence confronting our schools reads like a casualty list from a war zone or a vice squad annual report."

The nation cannot tolerate a continuation of this pattern. While it will help focus public attention on the seriousness of school crime by public testimony to be taken by the Senate panel, the corrective answer lies in each school district. It is the duty of individual school boards, faculties and administrators to correct disciplinary and crime problems where they exist—and to do it with dispatch.

Nixon Write His Wrongs?

ON THE LINE
By BOB CONSIDINE

NEW YORK — PEOPLE ... PLACES ...

One of the nation's leading spade-callers, Sen. Barry Goldwater (R., Ariz.), has advised former President Nixon to "fess up," tell the nation exactly what role he played in the Watergate break-in and cover-up, and to reveal his true participation in all the other aspects of the most sordid political scandal in the nation's history.

By doing so, the rugged Arizonan told the Hermit of San Clemente, via CBS's appropriately named "Face the Nation," Nixon could take his first step toward reestablishing himself as a power in the GOP. He was not urging Nixon to throw an active hat back into the circle; his thought was that, once cleansed of his sins, as if in a confessional, public absolution would swiftly follow and Nixon support of Republican candidates would again pack some clout. Clout is what the GOP needs most at this point in its history.

The chances of Nixon's acceptance of his friend's advice are about on a par with the odds against George Foreman's victory over five Muhammad Alis in one evening. The former President's present position, or predicament, militates against such a move. First, he has never really felt that what he did was all bad. Second, if he told the whole story, and the story is as bad as many assume, it might hurt the chances his former treasured associates have of gaining reversals of their prison sentences. Third, if a thorough soul-baring revealed great guilt, President Ford's pardon of him would sorely weaken Ford's prestige and GOP chances in 1976.

There is a fourth consideration. The former President is writing his memoirs. The income will pay off his many debts, and he can live on his pension and other income quite comfortably the rest of his life. He will be the sole architect of what goes into those memoirs. If his previous autobiography, "My Six Crises," is a guideline, there is little likelihood that the new one will incorporate self-flagellation in Macy's window. Or risk of a personal trial.

Back to your famous ham (radio) shack, Senator Goldwater! You contacted the wrong Martian. He ain't in a penitential mood.

The former President showed a lot of moxie when he called John Connally after the latter's acquittal and congratulated not only his former

Secretary of the Treasury but also, (by remote control) Connally's defense attorneys. No. 1 defense attorney has been No. 1 Washington critic of Nixon for years; made No. 1 on the former President's "enemies list."

Chief defense attorney, of course, was the renowned Edward Bennett Williams, who moonlights as president of the Washington Redskins. The Redskins are the most exciting team in professional football. They are such a perennial sell-out attraction at Robert F. Kennedy Stadium in the nation's capital that dying box-holders make a special point of willing their seats to selected heirs. The team was so irretrievable last year that it lost only half a million dollars. That possibly been caused by the rising cost of land.

It is a curious situation. Nixon's favorite coach is the Redskins' George Allen, who once coached at Nixon's alma mater, Whittier. Nixon's No. 1 enemy is Allen's boss, Edward Bennett Williams. Nixon's No. 1 original choice as a successor was Big John Connally. Connally's savior from prison was Edward Bennett Williams.

Okay, now try to parse that paragraph. If you do, then get to work on reasoning the vagaries of man.

One of the scenes in "Give 'em Hell, Harry," which had a splendid social opening at Ford's Theater in Washington recently, depicts the meeting between President Truman and Gen. Douglas MacArthur on Wake Island during the Korean War. It was recently re-portrayed on CBS's 60 Minutes by James Whitmore, who impersonates HST in the play, soon due on Broadway.

Problem with the scene, according to two men who were there that day on Wake, is that nothing like it ever happened. MacArthur never kept Truman waiting. Truman never used tough language on the Supreme Commander of UN troops. There was never any "walk on the beach."

Roy B. Martin, Jr., president of the

BancOhio Official Continues In Post

COLUMBUS, Ohio (AP) — The vice president of BancOhio Corp., Robert M. Edwards, has been named to his fourth consecutive term as chairman of the Advisory Council of the Conference of State Bank Supervisors.

Edwards, of Columbus, a former state superintendent of banks, is vice president of the Ohio State Bank.

Auto Repair Costs Bring Warning

COLUMBUS, Ohio (AP) — "Hundreds of complaints" of unexpectedly high auto repair bills have prompted the Ohio Consumer Protection Division to advise that motorists demand written estimates before repairs are made.

The most recent bulletin of the division said dealers must provide a written estimate if repair costs will exceed \$25 and must obtain written authorization to make necessary repairs which will exceed 10 per cent of the estimate.

Division officials are "seriously concerned about reports that many Ohio automobile repair shops, including automobile dealers and service stations, are asking consumers to waive their rights to written estimates," the bulletin said.

In addition, the new ruling stipulates that consumers are entitled to demand that suppliers:

—Indicate if there will be a charge for a service call or reassembly, regardless of whether repairs are made.

—Give the consumer a written and itemized list of repairs performed and the reasons for such repairs, including charges for parts and labor, describing which parts are new, used or rebuilt.

—Inform the consumer, before the first cost estimate, if used parts will not be returned to him.

Violators of the rule should be reported to local consumer protection agencies or the state division, the bulletin said.

Schools Trying To Do Too Much

URBANA, Ill (AP) — Schools cost too much because they are trying to do too much, Michael Bakalis, former Illinois superintendent of public instruction, says.

Bakalis, now a visiting professor of education at Northwestern University and the University of Illinois here, urges schools to concentrate on two goals. They are teaching children skills, such as reading and analytical thinking, needed for a lifetime of learning, and helping youngsters develop a positive self-concept.

He said that we have been throwing on to the schools the responsibility for being leaders in desegregating, sex education and drug education, "which I am not sure they are able to do."

"Perhaps other government agencies should have the job of trying to solve these problems."

A flood in Friesland, Holland, in 1228 killed more than 100,000 persons.

On ordinary throwing dice, the face opposite the one that has six has only one dot.

Today In History

By THE ASSOCIATED PRESS

Today is Tuesday, May 6, the 126th day of 1975. There are 239 days left in the year.

Today's highlight in history:

On this date in 1942, in the Pacific war, the exhausted American and Philippine garrison at Corregidor surrendered to the Japanese after resisting 150 days.

On this date —

In 1818, the German social philosopher, Karl Marx, was born in Prussia.

In 1861, Arkansas withdrew from the Union.

In 1889, the Eiffel Tower in Paris was officially opened.

In 1895, the movie star, Rudolph Valentino, was born in Italy.

In 1910, the Edwardian era came to an end with the death of Britain's King Edward VII.

In 1941, Joseph Stalin became premier of the Soviet Union, succeeding V.M. Molotov.

Ten years ago: The Organization of American States voted to create an inter-American military force to help restore peace and constitutional government in the Dominican Republic.

Five years ago: A strong attack by North Vietnamese troops in South Vietnam indicated that U.S. raids in Cambodia had not cut enemy supply lines.

One year ago: Willy Brandt resigned as chancellor of West Germany after saying he had been negligent in allowing an East German Communist spy to become a member of his staff.

Today's birthdays: Retired baseball star Willie Mays is 44. Actor and director Orson Welles is 60.

Thought for today: We first make our habits, and then our habits make us — John Dryden, English poet, 1631-1700.

"When it comes to loafing, he spares no expense!"

Speaking Of Your Health

by Lester L. Coleman, M.D.

I don't recall having had any heart trouble, yet a recent electrocardiogram showed some scar tissue, indicating that I may have had an unrecognized heart attack.

How could this be possible? Could there be a mistake in the doctor's interpretation of the cardiogram?

Mr. J. T., Ore.

There is very little possibility that the electrocardiogram is wrong. The interpretation of these heart records is now so exact that any deviation from the normal must be accepted as being valid and correct.

Your experience is not an unusual one. Many people who are non-complainers and are stoic about illness may have an episode of abdominal pain or chest pain and attribute it to the proverbial "indigestion."

When the discomfort passes the entire experience may be forgotten. In most instances, the so-called attack of indigestion may never have been brought to the attention of a doctor. Yet this may have been a mild heart attack which went, as yours apparently did, unrecognized and untreated.

Business World

By JOHN CUNIFF
AP Business Analyst

NEW YORK (AP) — The already widespread belief that an economic upturn is likely to take place in the second half of the year was reinforced during the past week.

Perhaps the most important announcement of all came from Arthur Burns, chairman of the Federal Reserve Board, who said he would seek a 5 to 7.5 per cent growth in the money supply.

Many Americans suspect that Burns is probably still more concerned about the dangers of inflation than of recession. But Burns dispelled that notion somewhat.

The money supply goal should be sufficient, he said, "to finance a vigorous economic recovery."

It will be considerably more than the rate that prevailed over the past year. In all of 1974 the rate was only 4.7 per cent; in the first quarter of this year it was 3.5 per cent.

Many citizens as well as economists and congressmen have criticized the money supply rate as too low to permit vigorous recovery. In fact, they maintain the low rate has worsened the recession.

Alan Greenspan, chairman of the President's Council of Economic Advisers, remained just as hesitant and cautious as ever, but the mere fact that he again stated a belief that recovery was coming gave encouragement.

"The evidence is still tentative," he said, "but it tends to support the view that the economy will stabilize to a very large degree during the second quarter of the year."

The Treasury Department added another view that was widely interpreted as being bullish. It would need \$5 billion less in the credit markets, it said, because tax revenues were turning out higher than anticipated.

This news took a lot of pressure off the credit markets, which finance not only the big federal deficit but the expansion plans of private industry. That pressure was expected to drive interest rates back up.

At 848.48, the Dow Jones Industrial Average has now recovered all but about 2 of the 230 points lost during the collapse of prices in 1974.

Nothing is certain in economics or stocks, however, and a lot of people remain nervous about the immediate future. The chief worries appear to be these:

—Few economists foresee the jobless rate coming down very fast. While many agree that the 8.9 per cent rate is probably close to the peak, they fear that it might stay in that vicinity for several months.

Scar tissue in the muscle of the heart may be all that remains of this slight heart attack. The finding in the electrocardiogram gives evidence that some unexplained damage to the heart muscle did occur.

There is an important lesson to be learned from your experience. If more attention were paid to the so-called stories of indigestion, and if these were brought to the attention of the doctor, preventive care might be given to the small heart attacks, and their causes might be eliminated. In this way the large ones may be prevented.

I am intrigued by the name of a condition that I have. It is called a collar button abscess. Do you know the origin of this term?

Mr. J. J. F., Manitoba, Canada

Dear Mr. F.:

The term is a descriptive one. The old-fashioned collar button had a flat surface connected to a tiny knob by a narrow rod. The abscess too has two compartments under the skin. There is a larger one connected to a smaller one by a tunnel. These abscesses occur most often in the webs of the fingers. Both must be removed for a cure.

Aussie Chief Urges Help In Indochina

KINGSTON, Jamaica (AP) — Australian Prime Minister Gough Whitlam has called on nations that fought in Indochina to join a massive program of reconciliation and reconstruction in that region.

Whitlam told a news conference Sunday that Australia, which he described as one of "the guilty countries" that participated in the Vietnamese "civil war," already has begun supplying relief aid.

The Australian prime minister, who is attending the 34-nation Commonwealth summit here, flies to Washington on Wednesday for talks with President Ford and Secretary of State Henry A. Kissinger.

Whitlam issued his appeal after being asked if he believes that nations that fought in Vietnam, such as the United States, have an obligation to help in rebuilding a unified Vietnam.

He replied that Australia has such an obligation and has begun fulfilling it, and he thought others should do the same, preferably through international organizations.

The Australian leader's aides reported later he intends repeating his call in a major speech he will make in Washington, and intends raising the matter in his talks at the White House. Whitlam also was asked if Australia's faith has been shaken in the United States as an ally in the light of the American withdrawal from Indochina.

He said: "America has been, is and will continue to be the greatest military country in the world. What I think we should realize is that from now on America's commitments will require the support of the administration and the Congress. If the President and Congress support commitments, I have no reason to believe those commitments would not be effective."

DOGGIN' IT—Sampson, a St. Bernard, prefers riding to walking, and he particularly likes riding on a motorcycle. Larry Edwards uses his motorcycle to get around a horse training stable at Sasser, Ga., and he takes Sampson for the ride.

Parent Firm In Arson Case Seeks Debt Payment Delay

SHELTON, Conn. (AP) — The parent company of the Sponge Rubber plant blown up by arsonists is seeking court permission to delay debt payments until its financial problems are solved, according to a spokesman.

Sponge Rubber Products Co. was shut down temporarily by the March 1 explosion which gutted one of its huge plant buildings. Its other operations have reopened.

Grand Sheet Metal Co., the parent firm, filed a petition Friday in Chicago under Chapter XI of the Federal Bankruptcy Act, company attorney Alex H. Dolnick said Monday. He emphasized, however, the action was not a bankruptcy petition.

"The company is solvent, very much so, but is unable to meet its current obligations," he said in a telephone interview. The company is headquartered in a Chicago suburb.

Ten persons, including the president of Ohio Decorative Products Co., parent firm of the two subsidiaries, have been charged by federal authorities with arson and conspiracy in an alleged attempt to collect insurance on the plant.

Dolnick said the U.S. District Court request was designed to give Grand Sheet metal time to restructure its operations and then pay creditors in full. Meanwhile it would pay all its employees and suppliers in cash, he added.

"The lending institutions we have been borrowing money from have indicated they would continue to finance our operations," he said.

Last week a company spokesman said officials had been negotiating with two large companies over the possible sale of a plant in Derby. No agreement has been announced.

Dolnick stressed that Grand Sheet Metal planned to maintain its Shelton operations, at least in the "foreseeable future."

"Reports of our imminent close are entirely without foundation," he said. The lawyer said the company expected to close its purchase of Sponge Rubber Products from B.F. Goodrich Co. on May 15. It has been running the business under a lease-option arrangement since last year.

Meanwhile, a number of the 600 employees who returned to work after the explosion have begun attempts to organize a union local.

A meeting was held Sunday with representatives of the United Rubber Workers, AFL-CIO, who said they had been trying to win the right to represent workers there for 25 years.

WEST CENTRAL
CENTRAL
SOUTHEAST
Cloudy tonight and Wednesday with a chance of showers Wednesday and little temperature change. Lows tonight 50 to 55. Highs Wednesday in the low to mid 70s.

SOUTHWEST
Cloudy tonight and Wednesday with a chance of showers Wednesday and little temperature change. Lows tonight in the low 50s. Highs Wednesday in the mid to upper 70s.

By THE ASSOCIATED PRESS
Heavy showers and occasional thundershowers over northern counties early today brought some flooding of underpasses and river bottomlands in the area.

The showers and thundershowers eased as dawn approached, and the threat of extensive flash flooding declined.

While rain fell in the north, skies were generally clear in the south.

Temperatures at dawn today were generally in the 50s throughout the state.

There was little movement to weather systems. A weak stationary front lay across northern Illinois and northern Indiana and southeast over Ohio at dawn.

The forecast called for a chance of rain and mild temperatures across Ohio through Saturday.

Urge U.N. Role On Refugees

WASHINGTON (AP)—Rep. Ten-nyson Guyer, R-Ohio, has introduced a resolution urging President Ford to ask the United Nations to share in the task of resettling refugees from South Vietnam.

Guyer said the UN had little or no part in the recent evacuation program and that the expenses had been borne almost entirely by the United States.

Huston Inducted Into Dairy Hall

COLUMBUS, Ohio (AP)—C. Russell "Hap" Huston, 73, is the latest inductee into the Ohio Dairy Science Hall of Service. His portrait hangs in Ohio State University's Plumb Hall, the building where he was a student before his 1925 graduation. He owned and operated Arrus Farm, with units near Ashtabula and Medina, between 1939 and 1964.

Orient Institute Repairs Urged

COLUMBUS, Ohio (AP) — A structural engineer has recommended that the state take immediate action to repair deteriorated building supports at the Orient State Institute for the mentally retarded.

In a report to institution officials, the Columbus structural engineering firm of Paul J. Ford and Co. said many of the institute's structures suffer from water damage.

In some buildings, the firm said, walls are pulling away from roofs, wooden supports are rotting and steel supports are rusting.

The study was made last November. It was released Monday in a state auditor's examination of Orient's books.

A spokesman for the Department of Mental Health and Mental Retardation said he remembered the study being commissioned but could not remember the state department receiving a copy. The report was mailed to Orient officials last November.

The report, written by John T. Wilson of the firm, urged quick corrective action.

"If these problems are not attended to in the near future, they will only get worse at an increasingly rapid pace, and serious structural damage may result," Wilson said.

He singled out Doran Hall, a residence building, where water damage is causing plaster to peel and wood to rot.

"The most economical solution may be to tear down Doran Hall completely and move the residents to another cottage," he said. "Doran Hall has already deteriorated so badly that it is probably not economically feasible to save it."

He added, however, that engineers would like to take a closer look at the building before recommending demolition.

He said the Orient administration building is in fairly good shape, but is suffering water damage.

"If conditions remain as they are, the roof structure and the beams and columns supporting the roof will deteriorate very rapidly," he said. "There is evidence that this may be starting."

In other audit reports issued Monday, the state auditor:

—Recommended that a private account for the Management Center Inc. at Bowling Green State University be abolished and the fund merged with the university's general accounts.

The auditor noted that the nonprofit corporation takes in fees and spends money, but makes no full disclosure of sources and amounts of income.

The firm, a part of the business administration college at BGSU, sponsors seminars for businessmen.

—Filed findings for recovery against two officials of the Village of Orient.

Salary payments of \$109 to village clerk-treasurer Ruby I. Weese and \$97 to Councilman Harold Wilson were ruled illegal.

—Filed a finding of recovery of \$48 against Fulton Village Clerk Dorothy Davis. The auditor said the money was used as prize money during a village Halloween festival in violation of state law.

Group Sponsors Bicentennial Films

COLUMBUS, Ohio (AP) — A film project to serve as a part of the state's bicentennial commemoration during 1976 will be sponsored by the Huntington Banks of Ohio, the Ohio American Revolution Bicentennial Advisory Commission announced Monday.

The film project, produced by David Keller & Associates of Athens, includes a half-hour dramatic motion picture and an accompanying descriptive filmstrip that portrays 200 years of Ohio's development as seen through the eyes of two fictional characters.

already deteriorated so badly that it is probably not economically feasible to save it."

He added, however, that engineers would like to take a closer look at the building before recommending demolition.

He said the Orient administration building is in fairly good shape, but is suffering water damage.

"If conditions remain as they are, the roof structure and the beams and columns supporting the roof will deteriorate very rapidly," he said. "There is evidence that this may be starting."

In other audit reports issued Monday, the state auditor:

—Recommended that a private account for the Management Center Inc. at Bowling Green State University

be abolished and the fund merged with the university's general accounts.

The auditor noted that the nonprofit corporation takes in fees and spends money, but makes no full disclosure of sources and amounts of income.

The firm, a part of the business administration college at BGSU, sponsors seminars for businessmen.

—Filed findings for recovery against two officials of the Village of Orient.

Salary payments of \$109 to village clerk-treasurer Ruby I. Weese and \$97 to Councilman Harold Wilson were ruled illegal.

—Filed a finding of recovery of \$48 against Fulton Village Clerk Dorothy Davis. The auditor said the money was used as prize money during a village Halloween festival in violation of state law.

Drummond-Floyd Wedding Vows Exchanged In Williamsport

MR. AND MRS. ROBERT LEWIS FLOYD

Williamsport United Methodist Church was the setting for the wedding of Miss Linda Sue Drummond and Mr. Robert Lewis Floyd. The Rev. Richard Crosby officiated the double ring ceremony for the daughter of Mr. and Mrs. John W. Drummond, Williamsport, and the son of Mr. and Mrs. Herbert Floyd, Stoutsville, 7:30 p.m., April 5th.

A cascade of white daisies and yellow roses graced the altar, flanked with candelabra decorated with clusters of blue and yellow ribbons. The aisle was lined with hurricane lamps trimmed with blue and yellow ribbons for the candlelight service.

Mrs. Diane Freed, Circleville, organist, and Mrs. Mary Brooks, Clarksburg, vocalist, presented a program of nuptial selections preceding the ceremony.

The bride, given in marriage by her father, selected for her wedding a formal length gown of silk organza with peau d'ange lace. The bodice featured a sheer yoke with a lace bib and cameo collar and tapered sleeves edged in a wide flounce. The gathered skirt was encircled with a flounce with matching lace at the top. The bride's

Bridal Shower Honors Pam Young

Pam Young was honored with a surprise bridal shower recently hosted by Vickie Ross at her home in Stoutsville.

Guests were Kathy Johnston, Debbie Woodward, Laura Koch, April Skinner, Judy Ayers, Cheryl Easter, Becky Cook and Nancy Spring.

Games were played with prizes won by the guest of honor, Cheryl Easter, Debbie Woodward, Nancy Spring, April Skinner and Kathy Johnston.

Refreshments were served by the hostess.

Unable to be present were Trina Leasure, Theresa Frazier, Vickie VanDyke and Rhonda Harrison.

Auxiliary Reports Successful Sale, Schedules Dinner

Ladies Auxiliary of Clearcreek Twp. Fire Department met Monday evening at the firehouse in Stoutsville. Gloria Adams, president, presided over the business meeting attended by 10 members.

A report was made of the successful consignment sale and lunch with the proceeds to be used to help equip a new fire truck and purchase some new equipment for the kitchen at the firehouse. A vote of thanks to all who participated in any way was made.

A Mother-Daughter carry-in dinner will be held 6:30 p.m., May 28th, at the firehouse. Everyone should bring a covered dish and dessert. Coffee and tea will be furnished.

Refreshments were served by Helen Adams to: Linda Harrison, Gloria Adams, Olive Lovett, Miriam Lynch, Etta Good, Betty Branham, Ruth Goldsberry, Patty Riffle and Dorothy Scanlan.

Garden Club Holds Annual Flower Show

Solaqua Garden Club held its annual flower show along with a regular meeting Friday at Robtown Parish House. Events for the day were begun with Mrs. Glen Rinehart reading the poem "May" from the club year book.

Devotions were conducted by Miss Mary Shortridge using a reading, "The Hall of Love," followed with prayer.

A memorial tribute was given by Mrs. James Hott in memory of Mrs. Alfred Cook, a member who died recently. Mrs. Hott also read "Time To Plant."

Announcements of Groveport Garden Club's Flower Show on May 10th and 11th at Groveport, Region 9 meeting May 9th in Lancaster and Monrovia Garden Club's Flower Show on May 28th at Five Points United Methodist Church were read.

Mrs. Charles Huston was in charge of the flower show and plant, bulb and seed exchange. Shown were arrangements of spring flowers from members gardens and specimens.

Fourteen members and three guests, Mrs. Topping Dee, Mrs. Nelson

chapel length mantilla veil, edged in lace, was held by a lace bonnet. She carried a Tiffany bouquet of white daisies and yellow sweetheart roses with streamers of satin ribbon. Her only jewelry was a cameo necklace, a gift of the bridegroom.

Maid of honor, Miss Pamela Cook, wore a cape sleeved yellow long gown with an empire waist and flute edged capelet collar. She carried a colonial bouquet of assorted spring flowers.

Miss Debra Hildenbrand and Miss Dotty Wheeler, bridesmaids, were attired as the honor attendant in yellow and carried matching bouquets.

The duties of best man were performed by Mr. Ralph Masters, Route 2, Chillicothe. Ushers were Mr. Floyd Copley, Route 2, Frankfort and Mr. Timothy Justice, Route 1, Stoutsville.

The bride's mother wore a knit, mint green long gown, with flared skirt and sheer sleeves. Her corsage was of white carnations and yellow roses.

A reception in the church annex immediately followed the ceremony. The four tiered wedding cake was decorated with daisies and blue and yellow streamers.

Hostesses were Miss Nancy Mace, Route 2, Williamsport; Mrs. Donna Haines and Mrs. Joyce Click, Chillicothe, cousins of the bride.

As the couple left for a wedding trip, the bride wore a two-piece dress of pink and white with a pleated skirt, white bodice and jacket. The couple now resides at 306 S. Water St., Williamsport.

The bride graduated from Westfall High School and Career Academy in Columbus. She is presently employed as a medical assistant at Valley View Manor, Frankfort.

The bridegroom graduated from Amanda-Clearcreek School and is employed by John W. Eshelman and Sons, Circleville.

JEANNE C. SQUIRE

BPW Convention Plans Readied

Jeanne C. Squire of Berea will be the national representative to the 55th annual convention of Ohio Federation of Business and Professional Women's Clubs in Columbus, May 16th-18th.

A past national president of the National Federation of BPW Clubs, she is currently serving as a member of the board of trustees of the BPW Foundation. She is a member of the Berea BPW and a past president of the Ohio Federation.

Listed in "Who's Who Of American Women," Mrs. Squire believes that the economic role of women in society must be expanded.

Mrs. Pauline Riel of Morrow County, Ohio BPW president, will officiate at the convention to be held at the Neil House.

Ashville Baptist Women Will Meet

Women's Sunday School Class of Ashville First Baptist Church has scheduled a meeting for 7:30 p.m. Tuesday in the home of Janet Lawrence, Goodman, Teegardin Road, Route 1, Ashville.

Florence and Mrs. Ned Walker were present for the afternoon which was concluded with refreshments.

Calendar Of Events

TUESDAY

Xi Eta Epsilon Chapter of Beta Sigma Phi Sorority 7:30 p.m. in home of Mrs. Charles Curlett, Wintergreen Hills, Route 5.

Esther Circle of Trinity Lutheran Church 7:45 p.m. in the church parlor.

Christian Home Circle of Trinity Lutheran Church 7 p.m. in Parish House.

Circleville Child Development League 8 p.m. in home of Mrs. Robert Parker, Route 4.

Pickaway County Garden Club workshop 7:30 p.m. at home of Mrs. Robert Rickerd, 582 Sycamore Drive.

Women's Sunday School Class of Ashville First Baptist Church 7:30 p.m. in home of Janet Lawrence, Route 1, Ashville.

WEDNESDAY

Altar and Rosary Society of St. Joseph's Catholic Church, 8 p.m. in church basement. Rosary recited 7:30 p.m. in the church.

Circleville Jaycee Wives 8 p.m. in home of Joyce Offenberger, 679 E. Mound St.

Teacher Society To Meet Wednesday

Beta Rho Chapter of Delta Kappa Gamma Society will meet 7:30 p.m. Wednesday in the home of Mrs. Richard Koch, 547 Mowrer Road.

Ruth Circle of Trinity Lutheran Church 2 p.m. in church parlor.

Mary Circle of Trinity Lutheran Church 7:30 p.m. in church parlor.

Westminster Bible Class of First Presbyterian Church 2 p.m. in home of Mrs. Lawrence Thornton, Logan Elm Village.

Beta Rho Chapter of Delta Kappa Gamma Society 7:30 p.m. in home of Mrs. Richard Koch, 547 Mowrer Road.

In an effort to keep society news current, The Herald has established the following policy concerning wedding news:

Wedding forms may be obtained at The Herald from 8 a.m. to 4 p.m. Monday through Friday and until noon on Saturday.

It would be helpful to have the wedding form completed and returned with a picture three days before the wedding.

The Herald will make every effort to publish the story and picture on the next day of publication following the wedding providing the forms and picture are returned before the wedding.

No bridal pictures and stories will be accepted if submitted later than 30 days following the ceremony.

When you want to oven-fry fish fillets or steaks count on two pounds serving six. Use a preheated 500-degree oven and cook the fillets or steaks from 10 to 15 minutes.

National Guard Training Sites Eyed

Hobart Corp. Names 3 Corporate Officers

TROY, Ohio (AP) — Hobart Corp. has announced the appointment of three new corporate officers.
Richard Swob was named vice president for sales, Hobart division; B.M. Ellingson, vice president for sales, branch and agency division, and Robert F. Knight, vice president for sales, foodservice dealer division.

COLUMBUS, Ohio (AP) — The whoosh of artillery shells and the sound of machine gun fire may sound some day soon in the eerie stillness of the coal stripped land of southeastern Ohio.

The administration of Gov. James A. Rhodes is considering buying land in the strip mine belt as a training site for the Ohio National Guard, which has been taking its summer training in Michigan.

"There are six or seven areas that are suitable," said Chan Cochran, the governor's aide. "Five of them are stripped land."

Maj. Gen. James Clem, commanding officer of the ONG, said he hoped to locate adequate area to train up to 4,000 men in tactical procedures. He is reluctant to say what areas are under study.

"That's understandable," said Cochran. "He doesn't want to drive the

price of land up down there."

Known to be under consideration as possible training ground is stripped land in Belmont, Muskingum, Guernsey, Noble, Morgan, Holmes, Coshocton and Tuscarawas Counties.

Clem has ordered a feasibility study on the project. He said a report should be completed by Oct. 1, 1975. A later study will delve into the cost of reclamation.

Clem said a possible drawback to the

idea is mineral rights on the land. If they are contained in the deed, Clem said it could make costs prohibitive.

Rhodes' prime consideration in obtaining an Ohio site, Cochran said, is one of economics.

"The governor sent a letter to General Clem pointing out that about \$20 million worth of business goes to Michigan with the National Guard each summer," he said.

Clem believes the stripped land could be natural for guard training.

For 15 to 20 years after stripping, Cochran said, the land is good only for grazing. The stripped land, he said, could be used for Seabee training, road and bridge construction and would be wide enough for heavy firearm practice.

Hoosiers Vote Today

INDIANAPOLIS (AP) — Hoosiers in 114 cities and towns went to the polls today to choose nominees for mayor, city county and other municipal offices.

Sunny skies and warm temperatures in the morning were forecast with a building chance of rain in late afternoon.

Democratic mayors in two of the state's largest cities faced strong challenges for renomination. In Gary, Mayor Richard Hatcher was reported losing ground the last two weeks to Dozier Allen Jr. Both are black, and Hatcher was the first Negro chosen mayor of a major northern city.

South Bend Mayor Jerry Miller was given only a slim chance over city councilman Peter Nemeth.

Business News

Donald H. Watt, realtor held his monthly Real Estate Sales Meeting on Saturday, May 3rd at his home with Dave Schaeffer of Hartzler Mortgage Company (Cols.) speaking on VA and FHA financing. Salespeople attending were Mrs. Donald H. Watt, Miss Mary Jane Watt, Barbara Haeefe, Frank Gwinn, Don Poling, Dave Stoer and Russ Palm.

The Public Investigator

The Investigator questioned utility companies in the Circleville and Pickaway County area concerning monetary increases to consumers of their specific product and the reason for the price increase. Here are the answers of the Columbus and Southern Ohio Electric Company.

(Q) Approximately how many customers does C&SOE service in Circleville and Pickaway County?

(A) We have approximately 5,340 customers in our Circleville Service area.

(Q) What are your present rates to individuals and how much have the rates increased in the past year? Six months? Three months?

(A) The figures we will use to answer the question are based on the residential rate and usage of 500 Kilowatt House (KWH) from April, 1974, through April, 1975. Each month of each year is figured on the rate in effect at the time plus the fuel cost adjustment to arrive at the total.

Calculated bills for 500 KWH based on a rate code of 02 are: April, 1974 - base, \$13.83; fuel cost, \$1.73; total, \$15.56. October, 1974 - base, \$20.75; fuel cost, \$.24; total, \$20.99. January, 1975 - base, \$20.75; fuel cost, \$1.06; total, \$21.81. April, 1975 - base, \$22.61; fuel cost, \$1.18; total, \$23.80.

The rate increase effective September, 1974, reflected a new fuel cost adjustment (FCA) base of 68.5 cents per million BTUs. The previous FCA base was 23 cents per million BTUs. The difference between the old and the new FCA base of 45.5 cents per million BTUs was rolled into the new rate base schedule. In dollars, this represents approximately \$2.50 for 500 KWH usage.

(Q) Do you have any extra charges such as installation costs or deposits?

(A) In the Circleville service area we charge \$50 to install and remove a temporary service. This is for a single phase, 100 amp overhead temporary service.

We ask for a deposit from residential customers when they have not established credit or do not own property in Ohio.

If a customer's account is terminated or discontinued prior to one year, his deposits including accrued interest to date is applied to his final bill. Any amount in excess of the final bill is promptly refunded to him.

Deposits, including interest earned to date, are refunded to residential customers after one year provided service has not been discontinued for non-payment during the preceding 12 months; the customer has had no more than two past-due notices during the preceding 12 months; and the customer has had no more than two disconnection orders during the preceding 12 months.

Policy governing customers utility deposits has been established by the Public Utilities Commission of Ohio (PUCO). All details governing credit policy are available at any local Columbus and Southern Ohio Electric Company office.

If customers have a problem paying their electric bill, or have a temporary "hardship", they should call us. We can usually work it out. Silence doesn't solve the problem... they should contact us. We can help.

(Q) Why is there a raise in the cost to consumers? Do you expect to reach any ceiling in the selling price?

(A) The increased cost of electric service can be pinpointed to three primary areas: Fuel Costs, Environmental Costs, and Inflation.

Fuel Costs: In 1974 our total operating expense was \$146.9 million. Fuel costs were the largest single expense, representing 41 per cent of the total of \$60.1 million. This \$60.1 million is an increase of \$26.6 million over 1973. The increase alone approximates our total fuel expense for 1972. Reclamation costs are also a part of the total fuel costs and add approximately \$2 per ton of strip mined coal. The proposed Federal Strip Mine Law will add an additional 35 cents per ton. Our average cost of coal consumed increased from \$8.57 per ton in 1973 to \$13.02 per ton in 1974. Ten years ago the cost was \$4.57 per ton. 1974 prices are an increase of 185 per cent over 1965.

Environmental Costs: These costs are directly related to State and Federal legislation. We have spent \$25 million on environmental facilities in the last six years, including \$9 million in 1974. These are capital costs, not operating costs, and they do not produce revenue. Additional environmental expenditures are expected to exceed \$57 million through 1978.

Inflation: Ten years ago we financed our construction program from internally generated funds. Today, we must go to the capital markets for 83 per cent of monies needed for construction. We must refinance maturing low interest (3-4 per cent) existing long-term debt at rates of 9 per cent and more. We are in the peculiar situation where our rates are fixed, but all of the material and supplies needed to provide reliable service continue to increase.

As long as our suppliers continue to increase the cost of materials, the cost of electric service will continue to increase.

(Q) What are your different payment plans and which one is the most popular with consumers in the area?

(A) We have one "equal payment" plan. This budget payment plan was offered to all residential customers in March 1975. The plan is optional to the customer. He or she may elect to join or reject the budget payment plan. It's the customer's decision.

The plan divides the total 12 month estimated use into 12 equal monthly payments (based on existing rates, plus fuel cost). Each customer's budget is reviewed every six months and adjustments, if any, are made and a new monthly payment is issued.

System-wide, we have approximately 5.3 per cent of all residential customers in this program. A customer may join or drop out of this program by contacting their local Columbus and Southern Ohio Electric Company office.

(Q) Are you aware of any federal or state legislation to lower the rates of persons on fixed incomes? Does your company see any need for such legislation?

(A) There have been discussions on this subject, primarily in State Legislatures. However, the Public Utilities Commission of Ohio (PUCO) rules state that public utilities rate schedules must be applied equally to all customers within each applicable rate schedule. To deviate from this policy would be discrimination. This would, in effect, force one group of residential customers to subsidize another residential group's electrical usage.

C&SOE is not unaware or unsympathetic to this problem. However, attempting to solve economic problems through social legislation has never been a truly equitable solution.

(Q) Are efforts by the consumer helping to reduce the load of energy consumed? What additional measures could the consumer implement to conserve more?

(A) There is no shortage of electricity in the area served by Columbus and Southern. If we can continue to burn coal to generate electricity, and increase facilities to meet customers' future demands, we anticipate adequate capacity to meet customer growth.

Effective energy management by any customer is obviously an individual decision. The customer should be aware that rates are designed so that the more you use, the less the unit cost is per KWH. Of course, lower use increases the unit cost per KWH. So, a small reduction in monthly usage may not reflect a noticeable change in the cost.

Customers' homes should be well insulated, have storm doors and windows. Heat loss escaping to the outside of a home is today an expensive luxury. Good insulation can reduce both heating and air conditioning costs, regardless of the energy used.

Energy management is really a matter of using good judgement in the use of appliances, lighting, etc. Ben Franklin summed it up in four words, "waste not, want not." Your local C&SOE office has free literature to help you.

(Q) By what process is your energy manufactured? Where is it produced and by what means is it brought to the consumer?

(A) Ninety-eight per cent of our electricity is produced by burning coal. We use small amounts of oil and natural gas to operate our peaking units. We have three generating stations: Poston, in Athens County; Picway, in Pickaway County; and Conesville, in Coshocton County.

Electricity is delivered from generating station over high voltage transmission lines to substations. The substations then reduce the voltage and distribute it to homes, commercial and industrial businesses.

(Q) Is your company currently undertaking projects to locate more energy reserves? If so, where and to what extent?

(A) Electricity cannot be stored like water or natural gas. It is consumed at the same time it is generated. Any so-called reserve would be related to excess generating capacity over and above that necessary to meet "peak" demand.

(Q) Who may consumers call with questions concerning billing procedures?

(A) Any local office in Columbus and Southern Ohio Electric service area.

3 Stolen Cars
Discovered By
Highway Patrol

A rash of stolen cars was discovered early this morning by State Highway Patrolman D. E. Norman. Ptl. Norman spotted one car and apprehended its driver at 12:10 a.m. and then at 2:30 a.m. found two other cars that appeared suspicious.
According to Norman's report on the first car, he was on routine patrol when he observed a stopped car on Route 23 just north of the county line. Further investigation revealed a 16-year-old Columbus boy behind the wheel of a 1975 Chrysler which had been reported stolen.
The boy's mother, who owned the vehicle, was contacted and she verified that the boy had taken the car without her permission. He had two females with him, ages 12 and 18. The younger was identified as the girlfriend of the driver. Both girls reported Columbus addresses.
Ptl. Norman released the older girl and the boy when the mother notified the authorities that she would not press charges against her son. The younger girl was taken to Franklin Village from where she had reportedly run away.

'Dirty Street Fighting'
Course Helps Cincy Women

CINCINNATI, Ohio (AP) — Linda Sattem is one pacifist who can still enjoy watching someone get beaten.
She teaches a class in self-defense for women and one of her proudest claims is that seven of her former students have effectively fought off sexual attacks.
There is nothing particularly ladylike about Miss Sattem's methods. In fact, she describes her class as being a course in "dirty street fighting."
"One of my students called me at 1:30 in the morning two weeks ago to tell me that she had fought off some guy who attacked her," she said. "She

Jackson
Eyes Ohio

CLEVELAND, Ohio (AP)— Ohio appears to be one of the states U.S. Sen. Henry Jackson, D-Wash., cannot afford to ignore in deciding what primaries to enter in his bid for the Democratic presidential nomination, his top political aide says.
"There are places like Ohio with so many (national convention) delegates we can't afford to stay out," says Robert Keefe.
If Jackson enters, he could end in a battle with Ohio Senator John Glenn. Glenn seeks to take Ohio's 152 delegates to the Democratic National Convention uncommitted.
No other major candidate has announced he would enter the Buckeye State primary.
Keefe says Jackson's strategy is to capture congressional districts and may enter some in the Cleveland area.
Jackson finished fourth in the 1972 Ohio primary. He dropped out of the race soon afterward.

Dog Becomes
'Mom' To Rabbits
FAIRFIELD, Ohio (AP) — Sweetie is part chihuahua and part dachshund. She is also a fulltime mother to three newborn wild rabbits.
The rabbits were discovered by Tony Ciavarella last week in a nest which had been built inside a coiled up hose.
As soon as Sweetie found the nest, she wrapped herself around and began to nurse the bunnies.
A veterinarian told the Ciavarellas that Sweetie is the only hope for the young rabbits.
So far, Mrs. Ciavarella said that the dog has taken to the adopted family just like they were her own litter.

Band Boosters
Smorgashord
Is Friday

The Circleville Band Boosters will have their annual smorgashord on Friday. The doors to the High School cafeteria will open at 4:30 and serving will continue until 6:30 p.m.
All the food is donated by parents of both the Junior High and Senior High bandsmen. The proceeds from this event are used to purchase new instruments for both bands and to provide transportation for the Senior High band to perform at away games and other activities.
The Circleville High School Music Department will present a program entitled "Music Alive in '75" in the gymnasium at 7:30 p.m. The Concert Band, under the direction of Gary Dean, will present a series of different numbers, including "March Grandioso, Rhapsodic Episode," a Roberta Flack medley, and "Percussion Espagnol." The Band will conclude with Olivia Newton John's "I Honestly Love You" and the Marching Band's favorite "Long Train Runnin'."
The Stage Band will perform with a medley of 50's and 60's songs. The Tigerettes and the majorettes will perform a special routine.
The choir, under the direction of Mrs. Candace Rigo, will present many numbers, including the spiritual rock "The Judgement Day Is A comin' Soon", "Beautiful City" from the musical "Godspell".
The Triple Trio will sing a series of songs including "My Sweet Lady", featuring alto soloist Penny Connell.
Chairman of the Smorgashord is Mrs. Dee Bowers and Mrs. Loretta Berrigan is serving as co-chairman. The public is invited to attend. Tickets are available from all Band members or may be purchased at the door.

Court OKs
Removal
Of Causeway

CINCINNATI, Ohio (AP)— The 1st Ohio District Court of Appeals upheld a lower court order for the Newport Concrete Co. to remove a concrete causeway from the Little Miami River because it is in violation of state conservation laws.
The appellate court upheld a lower court decision in a suit brought by the State of Ohio and several conservation groups including Little Miami Inc.
The opponents contended the firm stopped navigation of the river, tabbed for inclusion in the federal Wild and Scenic Rivers bill, with the access road to its gravel operations on an island in Anderson Township in eastern Hamilton County.
The causeway restricted flow of the river through three concrete pipes, the action said. The state also reported a youth was drowned when he was washed into one of the pipes.
The state further contended the causeway restricts free passage of boats and canoes and has affected the business of a canoe livery.
The appellate court ruled that the causeway is a hindrance to navigation and must be removed.
The appellate court also noted there has been an increase of public use of the stream for recreation, the state needs to provide such facilities and the state must protect available natural resources for public use.

McCarthy
Promotes
Candidacy

CLEVELAND, Ohio (AP)— Former U.S. Sen. Eugene McCarthy says the time is ripe for an independent presidential candidate like himself.
"I don't think we've had a situation in the past century where the major parties have been as inadequate to face the problems as they are today," he said Monday on a visit here.
"Forty per cent of the people say they are independent and 55 per cent say they would probably prefer someone other than the Republicans and Democrats probably will nominate," he said.
Public disaffection with the major parties gives him a better chance of winning the presidency in 1976 than his opposition to U.S. military intervention in Vietnam did in 1968, McCarthy said.
The two-term senator from Minnesota believes his old supporters will join his campaign as they become disillusioned with the major parties. And he thinks he will win a large student following again.
"ney weren't on campus in 1968 but they know I was against the Vietnam war," he said.
McCarthy finished a strong second to President Lyndon Johnson in the 1968 Democratic presidential primary in New Hampshire.

Grange News

PICKAWAY GRANGE YOUTH
Mark and Elaine Pfeiffer, Commercial Point, were hosts to the Pickaway County Grange Youth Sunday evening. Joan Dawson conducted the business meeting. Mark Pfeiffer opened meeting by having devotions, "Masters Of The Land." A discussion was held on a money project for the Youth, Paul Dunkle and Joan Dawson were appointed to co-chairman the project.
June 19, at Clarksburg, the district talent contest will be held, and Elaine Pfeiffer will represent the Youth. Four members plan to go to Grange Camp, the month of July. The next meeting will be held 7 p.m. June 6, at Randy and Mark Wolfe's home.

Dear Abby:

By Abigail Van Buren

Bed And Bored

DEAR ABBY: I am 36-year-old, liberated woman. About sex: I've tried it, and I don't like it. I don't dislike it, but it's just not worth all the trouble. I've been married, and it didn't work out. Sex was never a very important part of my life, but most people think something is "wrong" with a person who doesn't have a strong sex drive. People seem to feel proud if they are sexually overactive (and can "perform" well), and they feel ashamed if they can either take it or leave it. I am not frigid. On the contrary, I am very affectionate. I can lie in my lover's arms and enjoy the feeling of closeness, but if it doesn't culminate in the sex act, it's all right with me. Am I weird? Or do you understand what I'm saying?

CONTENT IN COLORADO
DEAR CONTENT: I understand what you're saying, and you're not weird at all. I think you are an intelligent, honest woman who values love about sex. No need to apologize for it. DEAR ABBY: I just married a beautiful widower after about a year of courtship. She had been a widow for five years, and I've been divorced for nine. She is a very clean person and keeps an immaculate house. I sold my house and moved into her home. She has a 23-year-old son living with her. He is college educated and has a good job. He shares the expense of running the house. He's generous, friendly and cooperative. But he is dirty beyond belief. He has to be told to change his underwear and socks. He has to be reminded to shower, and, believe it or not, he never washes his hands after using the bathroom.

To make matters worse, he loves to help in the kitchen. He cooks, sets the table, makes the salads, puts ice in the water, etc. When I sit down to a meal he has helped with, my stomach turns. I've spoken to my wife about this. She keeps saying she'll talk to him, but it's been three months, and nothing has changed. What can I do? I don't want to make an enemy of her son, and I don't want to spoil a good marriage.

IN A QUANDARY
DEAR IN: Take the young man aside and tell him in a kind and loving way that cleanliness is next to godliness. Tell him again, if necessary, and again, and again.

DEAR ABBY: I have recently become engaged to a divorcee. She has no love for her ex-husband, but she adores his mother. She claims that a woman can divorce her husband, but her in-laws are forever, and she intends to remain friendly with her "mother-in-law" as long as she lives. This is all right with me, but when I asked her what MY mother would be to her, she said, "She'll also be my mother-in-law." Is this correct?

WONDERING
DEAR WONDERING: No. Technically, a person is entitled to only one mother-in-law at a time, and even though it's refreshing to hear about a woman who adores her ex-husband's mother so much that nothing can destroy that friendship, YOUR mother will be your wife's mother-in-law. And her former mother-in-law will no longer be related to her.

Teacher Strike
Picketing Cut
HAMILTON, Ohio (AP)—A court order restricted mass picketing today in the Ross School District where teachers walked out Monday to protest the firing of three officers of the Ross Education Association. Butler County Common Pleas Court Judge Robert L. Marrs late Monday issued the restraining order and set a hearing May 15 on a request for a temporary injunction. REA President Timothy Wolfe said the system called substitutes to replace 55-to-60 teachers who stayed off the job. The system employs 114 teachers.

In 64 A.D. most of Rome was destroyed by fire. Christians were blamed and executed as arsonists.

All Three County AA Teams Lose In Tourney

SAFE AT SECOND—Circleville's third baseman, Biff Bumgarner, beats the throw to second to pick up a stolen base for the Tigers. But it all went for naught as the Tigers dropped a 10-2 decision to Ready on the Tigers diamond.

BAD THROW—The ball gets by Chuck Glitt, Teays Valley third baseman, as the Pickerington runner moves into third. It was a sign of things to come for the Vikings who were defeated, 9-1, by Pickerington.

GETTING BACK—Greg Justus, Logan Elm catcher, races back to first to prevent a double play after a fly ball was caught in the outfield. The throw went astray but the Madison Plains pitcher, who appears to be holding hands with the Braves' first base coach, backed up the play.

It was a black day for all three Pickaway County schools in Class AA Sectional tournament play Monday as Ready downed Circleville, 10-2, Pickerington defeated Teays Valley, 9-1, and Logan Elm was nipped by Madison Plains, 2-1. All three games were played on the local diamonds.

Ready 10, Circleville 2
Ready won the game in the top of the

first when the Silver Knights tallied three runs on a pair of walks, a double and an infield error.
Circleville battled back with a pair of runs in the bottom of the first but it was the last time that Tigers spikes dented the plate.
Brent Mancini singled, stole second and took third on an overthrow, Phil Roll blasted a long double to left to

score Mancini and Pat McNaughton smashed a tremendous triple to center to score Roll for the second and last marker for the Tigers.
Ready tallied four more runs in the fourth and Doug McGlone came on in relief of Roll.
But Ready still had some power in the bats as the Silver Knights tallied a single marker in the fifth and added two more in the top of the seventh to win 10-2.

They will now meet the winner of the London-St. Charles game.
Roll opened on the hill for the Tigers, allowing five runs, two hits and five walks. McGlone came on in the third to finish. He also gave up five runs, eight hits, walked two and fanned three.
Jim Miller went all the way for

Ready and scattered five hits.
Mancini led the Tigers with two singles, Pat McNaughton smashed a triple, Roll slammed a double and Biff Bumgarner ripped a single.
Circleville will be at Hillsboro Wednesday with Biff Bumgarner on the mound. Friday it will be Brent Mancini doing the hurling at Unioto and Saturday the Tigers will host Miami Trace 1 p.m. with Phil Roll pitching.

Pickerington 9, Teays Valley 1
Brad Stuthard went all the way for the Vikings but couldn't stop the rampaging Tigers. He gave up six hits, walked five and struck out eight.
Matt Turbett was the hurler and winner for Pickerington as he scattered four hits, walked eight and fanned five.
Errors plagued the Vikings as they misplayed the ball four times while Pickerington played an errorless game.

Another factor in the game that didn't help Teays Valley was the fact that the regular catcher, Steve Williams, had suffered an ankle injury Saturday at Utica and was unable to play.

Pickerington tallied twice in the top of the second inning, four times in the third and capped it with a three-run seventh frame.
Teays Valley's lone marker came in the bottom of the seventh frame.
Terry Souther had a triple for the Vikings while Stuthard, Ron Bumgarner and Lance Roes each had a single.
The Vikings are now 14-6 for the season. 4-2 in league play, and will host Olenitangy 4:30 p.m. today.

Madison Plains 2, Logan Elm 1
The tournament hopes of Logan Elm High School baseball team were shattered by visiting Madison Plains Monday in a close 2-1 ball game.

The loss came despite a fine pitching performance by senior hurler Derek Morris. In seven innings, he was touched for only two hits, both singles, he fanned eight, walked two and hit two batters.

The Braves banged 10 hits off Madison Plains starter Sullivan, but left too many runners stranded. Sullivan fanned three, but didn't issue any free passes to the baselines as he exhibited fine control.

A hit batter, an attempted bunt that was popped just over the pitcher's

head, an error, a hit batter, a fielder's choice and a single accounted for the visitors' two runs in the third inning. They only had two base runners after that.

Logan Elm's lone run came in the bottom of the seventh inning, Mark Skinner lined a single to right, but was forced at second on an attempted sacrifice by Morris. Then Greg Justus singled and Randy Pontius doubled, scoring Morris from second.

A diving catch of a ball hit by Jeff Reichelderfer ended the inning and saved the game for Madison Plains. "Madison Plains is a good ball team," LE coach Vic Pontius commented. "They played errorless ball and that was the difference."
Madison Plains has an 11-4 record. Logan Elm has a 17-2 record for the season with only two dates remaining on its schedule.

The Braves have an unscheduled makeup tilt to play with Liberty Union and the county tournament on May 24. Pontius, who had saved most of the month of May for makeup games and the tournament, is now looking for teams to play. Because of favorable weather early in the season, LE has only the one makeup tilt.

Red Sox Edge Cleveland 7-5 As Rain Finishes Game

CLEVELAND (AP)—It started to rain at the end of Boston Red Sox Manager Darrell Johnson's day Monday, but not before his prayers were answered.

"I've been praying for a little sunshine," said Johnson, referring to the Red Sox' 7-5 victory over the Cleveland Indians in American League baseball.

The rain started falling in the bottom of the ninth when the Indians had two men on base with only one out and were threatening the Red Sox' lead.

Dick Drago did a fine relief job, not only in the ninth, but also in the eighth when he came in with the bases loaded and retired the only batter he faced to get Boston out of trouble.

Luis Tiant, 3-3, started and got the victory, but he was pulled after completing six innings.

"We took him out because his arm

was tightening up," Johnson said. "It was not hurting him. It was just getting stiff. He could have gone another inning, but we decided to take him out. He'll get his turn in the rotation again."

Johnson also noted that the Red Sox got "some timely hitting."

The Indians took a 2-0 lead in the first inning when George Hendrick hit a home run with John Lowenstein on base.

But in the fourth the Red Sox found loser Jim Perry's weakness.

The inning started with a walk to Bernie Carbo. Carl Yastrzemski walked, after one out, and then three consecutive doubles put Boston in front 4-2.

Fred Lynn's double scored Carbo. Jim Rice's scored Yastrzemski and Lynn and Rice scored on Rico Petrocelli's.

Doug Griffin scored on a fielder's choice in the fifth making it 5-2 and Perry left the game.

The Indians scored single runs in the sixth, seventh and eighth, on John Lowenstein's homer, Jack Brohamer singling home Oscar Gamble and Lowenstein scoring on Boog Powell's single, but that wasn't enough.

Top Cage Scoring Moves To Backcourt

OAKLAND (AP) — The scoring fireworks of the Chicago Bulls-Golden State Warriors playoff battle have moved from the frontcourt to the backcourt.

Norm Van Lier, Bulls guard, took the scoring pressure off forwards Bob Love and Chet Walker.

Norm Van Lier, Bulls guard, took the scoring pressure off forwards Bob Love and Chet Walker in game No. 3 Sunday in Chicago. His team leads 2-1 in the National Basketball Association Western Conference finals going into tonight's fourth game here.

"Norm did what he had to do," said Chicago Coach Dick Motta. "He penetrated the middle and got our offense going."

LE Girls Win Softball Tilt

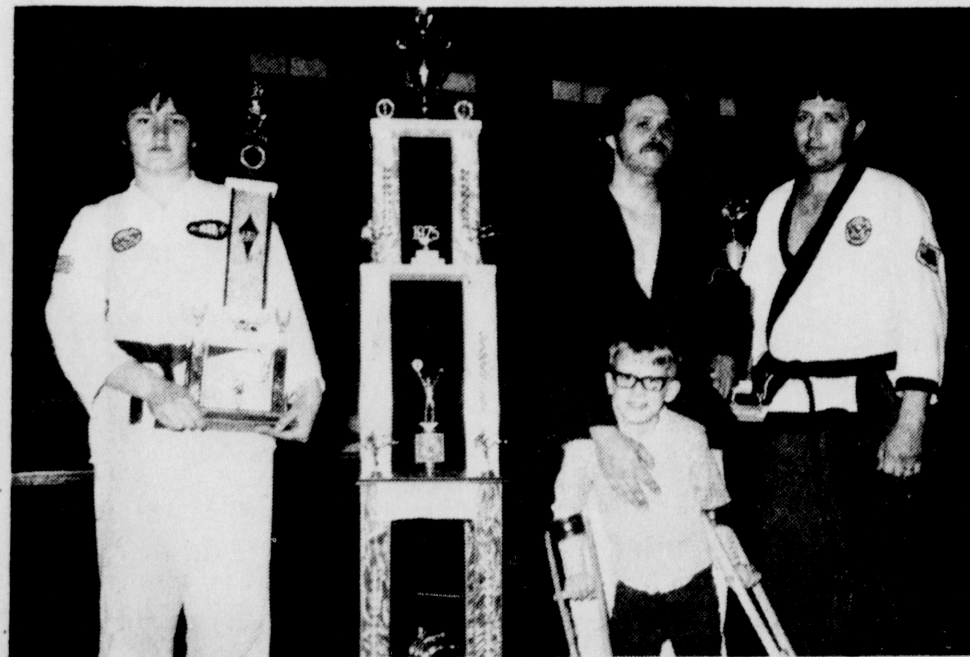

Logan Elm's girls softball team led all the way but had to hold off a battling Berne Union bunch to gain a 13-12 win Monday on the Braves' field.

Diane Martin hurled the win for the girls from Logan Elm.

Hitting for the winners were: Annette Roof, double and two singles; Hope Justice, two singles; Rita Karshner, home run and three singles; Debbie Betz, single; Karen Welvin, single; Joyce Pine, triple and two singles; Diane Martin, two singles; Tina Woods, single; Krista Gifford, single; Beth Bell, double and two singles; Brenda McDevitt, double and single.

Logan Elm is now 4-3 on the season, 3-3 in league play, and will host Fairfield Union 5 p.m. Wednesday.

The champion Oakland Athletics opened spring training with a pitching staff showing 62 wins and 57 losses in 1974 American League competition. Their big setback was losing 25-game winner Jim Hunter.

FOR A GOOD CAUSE—Trophy winners in the second annual Easter Seal Karate Tournament held Saturday at Mill St. gym are: from the left, Tammy Merrill, sportsmanship; Mike Olney, grand champion; Lynn Sommers, sportsmanship. In front is Shane Curtis, Pickaway County Easter Seal Child. The event was sponsored by the Circleville Jaycees and Circleville Karate Club with all proceeds going to the Pickaway County Easter Seal campaign. The Grand Champion trophy stood over six-feet tall.

Tiger Girls Top McClain

Circleville's girls softball team traveled to Greenfield Monday and gained the second victory of the year with an 18-16 win over McClain.

Sue Crist was on the hill for the Red and Black and gained the win.

The female Tigers tallied four times in the fifth and took the lead with a six-run rally in the sixth.

Greenfield loaded the bases in the last of the seventh with two outs but Pam Pontious made a fine running catch of a line drive to end the game.

Hitting for the winning Tigers were: Wanda Boyd, three singles and a double; Julie Johnson, two doubles and two singles; Sue Radcliff, double and single; Darla Hughes, triple double and single; Linda Holveck, double and two singles; Cathy Armstrong, double and single; Cindy Dayhoff, two singles coupled with some fine base running; Sue Stevenson, two singles; Sue Crist, four singles; Kathy Morehart, single; Pam Pontious, single.

Circleville will host Miami Trace 4:30 p.m. today.

Cincy Reds Batters Complain

CINCINNATI (AP) — The first three batters in the Cincinnati Reds lineup are hitting, and complaining well so far this season.

Leadoff man Pete Rose is batting .306 and is worried that he's not scoring more runs.

Dave Concepcion is batting .343 since being moved up to the second slot in the lineup, but he's upset that he has to be more selective in his pitch selection.

Joe Morgan is batting .378—third-best in the National League—and he's frustrated that he's been walked so much during the early part of the year.

While the Reds leadoff trio have been able to console themselves with their hitting, the Reds usually reliable powerpack of Johnny Bench and Tony Perez have had reason to complain.

Perez is batting only .192, while Bench, despite an impressive array of

runs batted in, is hitting .279. "If I was hitting I would have 30 runs batted in," lamented Bench who has driven in 20 runs so far this year.

It is easy to see the truth in Bench's statement. The first three batters in the Reds lineup have been on base a total of 157 times so far this season. Bench and Perez, who are both tied for second in the league in that department, have a combined total of 40 RBIs.

"It seems like I never score a run," said Rose, who has been on base 51 times and scored 15.

Morgan is also frustrated despite his fantastic start. He has been on base 63 times, but has collected 23 walks.

"If Johnny Bench were hitting the ball out of the park, they wouldn't be walking me," Morgan said.

Concepcion merely isn't sure he likes batting so high in the lineup.

Orioles Top Hunter, Yanks

By BRUCE LOWITT
AP Sports Writer

Earl Weaver knew how to hook the Catfish. He got the weatherman to throw out the line and reel him in.

For seven innings in Baltimore Monday night, Weaver's Orioles flailed away at Hunter's pitches. In all that time, all they could manage against him and the rest of the New York Yankees was four hits and one run.

It was clearly a time for a little strategy.

"We talked about it in the locker room before the game," said Bobby Grich, whose eighth-inning bunt—and Hunter's wild throw with it—helped the Orioles to their 3-1 victory. "Earl Weaver and his coaches reminded us that it had rained here all night Friday and again on Saturday night—that the field was very wet and to take advantage of it by laying down some bunts."

Paul Blair led off the eighth with a perfect bunt down the third base line. It was so wellplaced that Hunter couldn't get to it. Grich then dumped a

bunt in almost the same spot. Hunter got to the ball this time—and heaved it into right field. By the time it returned to the infield, Blair had crossed the plate with the tie-breaking run and Grich was sliding into third.

"I came in and picked up the ball and thought Grich would be past first," Hunter explained. "When I looked up, I saw he was about 20 feet away."

"I had a good grip on the ball but my foot was sliding all the time. I've never seen an infield that wet in all my life."

"That's the shortest triple in history," grinned Grich, who scored a moment later on Ken Singleton's sacrifice fly.

In Monday night's other American League games it was Texas 4, California 3, and Boston 7, Cleveland 5. In the National League it was St. Louis 11, Philadelphia 3; Los Angeles 2, Houston 0, and Montreal 3, Chicago 2.

"Weaver had given third base coach Billy Hunter the sign to have me bunt for a hit," Grich said. "I had made up my mind to make sure I got the ball down and got Paul up to second base."

"If I can get 20 of those a season, I'll

"I think I like it better sixth or seventh," Concepcion said. "I don't ever walk. I like to swing at bad pitches and you shouldn't do that hitting second."

The lack of hitting in the middle of the lineup has accounted for a great number of close games which have caused the whole team to complain.

"Against ordinary pitching, we should be scoring five, six runs a game," said Reds Manager Sparky Anderson.

Ordinary pitching is something the Reds haven't been seeing, explained Bench.

"It's the best pitching I've ever seen," Bench said. "We have seen only three left-handed starters all year and that really hurts Perez because he eats up left-handers. And the right-handers are making perfect pitches all the time. They just don't ever give in to you, no matter what the count."

take every single one of them," Grich added, "especially off the Catfish."

Hunter, 24, lost despite a sixhitter. Jim Palmer, 42, won with a five-hitter. He fanned seven Yankees and didn't walk any of them.

Rangers 4, Angels 3

Cesar Tovar's two-run single capped Texas' three-run burst in the eighth inning that beat the Angels and gave Ferguson Jenkins his fourth straight victory. Mike Hargrove's walk and singles by Jim Spencer and Roy Smalley brought in the Rangers' first run, they worked a double steal and Tovar singled to center.

Red Sox 7, Indians 5

Jim Rice's two-run double highlighted a four-run fourth inning that helped the Red Sox whip Cleveland. Bernie Carbo and Carl Yastrzemski drew walks and Fred Lynn hit the first of three consecutive runscoreing doubles. Rice then doubled, scoring Yastrzemski and Lynn, and Rice came home on Rico Petrocelli's double.

Cards 11, Phils 3

Luis Melendez and MikeTyson hit two-run triples in a six-run first inning and Tyson, Reggie Smith and Ted Simmons added homers as the Cardinals, with Bob Gibson notching his first victory of the year, cruised past Philadelphia.

Dodgers 2, Astros 0

Doug Rau checked Houston on two hits as the Dodgers widened their National League West lead over idle Cincinnati to 2½ games. Los Angeles' runs came on a first-inning sacrifice fly by Ron Cey and Joe Ferguson's third-inning single.

Expos 3, Cubs 2

Pepe Mangual and Larry Parrish homered to boost the Expos past Chicago and cut the Cubs' NL East lead over idle New York to 3½ games. Barry Foote walked in the third and Mangual hit his first homer. Parrish connected for his second homer in the sixth.

Last Of 'Stooges' Dies

LOS ANGELES (AP) — Moe Howard, 78, the last member of the Three Stooges comedy team, died Sunday night of lung cancer. Howard was the mophaired leader of the slapstick trio, whose bullying bluster invariably received its just deserts in the end from his partners. Howard's older brother, Shemp, joined the act in 1925 and the group was expanded shortly after to include Larry Fine, who died late last year.

The Circleville Herald, Tuesday May 6, 1975

Governments Push Television Satellite

CLEVELAND, Ohio (AP)—Americans and Canadians living in remote areas may be able to receive television sooner than expected thanks to a joint effort by their governments.

The National Aeronautics and Space Administration's Lewis Research Center here says it will join with the Canadian government in December to launch a satellite from the Kennedy Space Center in Florida.

A NASA spokesman says the satellite, called the Communications Technology Satellite or CTS, will carry a high-powered broadcaster developed

by Lewis researchers. The satellite will be launched by a Thor Delta Rocket and will hover over the equator at about 22,000, west of Africa, he said.

The satellite's antennae will be moveable by remote control so the satellite's broadcast beam, about a time zone wide, can be shifted.

The spokesman says there aren't enough people in some areas of the United States and Canada to support the costly ground receiving stations now used with communications satellites. Progress by Lewis researchers in broadcast tube efficiency makes it possible for less expensive receivers to be set up in hospitals, schools or remote villages, he said.

Lewis Director Dr. Bruce Lundin says the receivers will cost about \$10,000 but that some day technological advances probably will enable persons anywhere to receive television signals from anywhere.

NASA says the Appalachian Regional Commission wants to transmit programs on teaching skills to improve education in remote areas during the expected two-year lifetime of the satellite. The Veterans Administration plans to beam programs on medicine to 30 hospitals, and the Department of Health, Education and Welfare is to try to use the system to help research institutions and the medical community share information, the spokesman said.

Navy Wins At Bowling

DAYTON, Ohio (AP) — Navy showed itself to be "boss" over Army the past football season in Philadelphia. Monday night in Dayton the Middies took "all the marbles" in bowling, not only downing the Army, but the Marines as well.

It was the opening event on the six-day Bowling Spectacular staged by the National Bowling Council on the lanes of the American Bowling Congress tournament.

The interservice teams will duel Tuesday night in doubles with singles Wednesday morning. Championships will be decided the next two sessions in doubles, singles, individual all-events and team all-events. The low bowler of each team was dropped in determining Monday night's team crowns, but will be added to the totals for the team all-events.

Richard Nicholson was Navy's big gun in its triumph in men's six-game competition, knocking down 1,245 sticks. He lives in Greensboro, N.C. Other Navy winning scores:

Edward Harris of Little Creek, Va., 1,213; Stanley Roche of Auburn, N.Y., 1,151; Robert Elder of Fontana, Calif., 1,129, and Robert Kuhnle of Baltimore, Md., 1,002. This represented a total of 5,740.

Buffalo Coach Seeks End To Surprises

BUFFALO (AP) — "What I need right now is one more surprise," Buffalo Coach Floyd Smith said as he prepared his Sabres for Game 5 tonight against Montreal in their National Hockey League Stanley Cup playoff.

"This team has surprised me all year in how badly it can play one night and how good it can play the next," Smith said. "We have to win this hockey game. It's as simple as that."

Buffalo won the first two games of the best-of-seven series on its own ice, 6-5 in overtime and 4-2. But in Montreal, the young Sabres were shelled 7-0 and 8-2 as the Canadiens stormed back to even the series at 2-2.

13 \$200 Fine Levied Against Toledo Coach

DETROIT (AP) —A \$200 fine has been levied against Coach Ted Garvin of the Toledo Goadiggers for protesting an official call during an International Hockey League Turner Cup playoff game Sunday at Saginaw.

The Goadiggers beat the Gears, 6-5, to take a 3-2 lead in the playoff series. Garvin protested the actions of referee Howie Halter at the end of the first period and was ejected by the official while Saginaw led 3-0.

Ohio's Hunting Dates Announced

By THE ASSOCIATED PRESS

The Ohio Wildlife Council has approved the following 1975-76 hunting and trapping season dates:

Cottontail Rabbit - Nov. 14, 1975-Jan. 31, 1976. Hunting hours are 9 a.m. to 5 p.m. with a daily bag limit of four and a possession limit, after the first day, of eight.

By FRANCIS DRAKE

Look in the section in which your birthday comes and find what your outlook is, according to the stars.

FOR WEDNESDAY
ARIES (Mar. 21 to Apr. 20): Curb a present tendency toward inertia, lackadaisical action. Current matters need further study: Some trends changing.

TAURUS (Apr. 21 to May 21): Fine Venus aspects encourage artistic pursuits, romance, domestic interests. Just one admonition: Curb emotionalism.

GEMINI (May 22 to June 21): Now you have the opportunity to spread your wings a bit, to investigate new projects, areas of activity. But do not drop well-planned ventures merely for the sake of change.

CANCER (June 22 to July 23): Personal matters may need some special attention, perhaps a change of plan. A state of readiness advised, to cope with the unexpected.

LEO (July 24 to Aug. 23): Excellent solar influences! Capitalize on your dynamic personality — and you can ride ahead with distinction.

VIRGO (Aug. 24 to Sept. 23): Stellar aspects now give slow-moving projects new momentum, indicate better results than even you may have anticipated. Get going!

LIBRA (Sept. 24 to Oct. 23): Introduce a new note — perhaps a new approach — to give more spark to day's doings. Output will substantially improve.

SCORPIO (Oct. 24 to Nov. 22): Go after the big gains but do not expect to have things your way all along the line. Be prepared for some opposition and you can meet it more easily.

SAGITTARIUS (Nov. 23 to Dec. 21): A tabulation of "musts" may uncover a weak program — one that should be pepped up to show your abilities to better advantage.

CAPRICORN (Dec. 22 to Jan. 20): Not much planetary help here. How the day turns out will be largely up to yourself. Use your wits to project the effective and eliminate the mediocre.

AQUARIUS (Jan. 21 to Feb. 19): Look well into proposed suggestions or you may find yourself involved where you least desire it. Some definite "no" answers will be required.

PISCES (Feb. 20 to Mar. 20): Avoid tendencies toward restlessness and unruliness. Note warning signals. Many errors and misguided moves can thus be averted. Shun extremes.

YOU BORN TODAY are

gifted with the many assets needed for a long succession of achievements and as much happiness as one can crowd into a lifetime. You have unusual creative talent and could succeed at almost any of the arts, but may choose either painting or music as a career. If the latter, your performance or compositions would even have "color" added to pitch and tune, which would set you above many other musicians. You may be drawn to the theater and, if so, could reach undreamed-of pinnacles of success. Other fields in which you could shine: writing, science, education, the law, jurisprudence and statesmanship. Birthdate of: Robert Browning, poet; Peter I. Tchaikovsky and Johannes Brahms, composers; Gary Cooper, film star.

Hogs Are Hams At Silver Springs

SILVER SPRINGS, Fla. (AP) — Although they don't have the grace of an Esther Williams or the speed of a Mark Spitz, there is a group of swimmers at this central Florida nature preserve that is setting its own record.

"They" are a group of wild hogs that have been trained to swim, something that is virtually unknown in the world of the swine. Hogs can't swim, it is said, because if they tried they would slash their own throats with their sharp hooves. These hogs obviously don't know that. Instead, they spend half their day in the water, swimming out to the boats that cruise the Silver River, waiting for the boat captains to toss them slices of white bread. Whole families swim together, from a 400-pound boar to a mother hog and her litter of piglets.

It all started several years ago when Leon Cheatom, a gamekeeper, decided to try to coax the wild hogs out of the forests and closer to the river, so that tourists would be able to see them from the boats. He too believed that hogs couldn't swim. But once he succeeded in getting them to feed at the water's edge, which in itself took months of careful planning, Cheatom started tossing bread in the water to see if they would at least get their feet wet.

Timidly, the hogs would wade into the river to retrieve the food, each time going deeper and deeper. Many months later, to Cheatom's great surprise, several of the hogs plunged into the river and swam up to his boat.

Views On Television

NEW YORK (AP) — As we all know, the networks next season will air shows suitable for "family viewing" in the first hour of their evening schedules. It's a noble attempt to reduce the amount of TV violence.

Originally, the "family" rule applied only to entertainment shows. But in an effort to further tone down violence on TV, the networks now plan to apply it to their coverage of major sports events at night.

That's the word from Snidely Foon, a TV observer who says he learned of the new plan from a network censor. He said pro football will be the first sport directly affected by the family viewing rule for sports.

"There is to be no blocking or tackling shown on TV until 9 p.m.," Foon said. "If it happens, the networks are to show excerpts from 'Mister Ed' until the violence abates."

"And if the teams persist in blocking and tackling during the family viewing hour, Howard Cosell is supposed to ignore the game altogether and interview himself until 9 o'clock."

Foon said baseball won't pose too many problems.

"It doesn't have much violence, although the networks have been told to cut to a picture of Kate Smith when it appears a runner may wipe out the second baseman during a double play," he said.

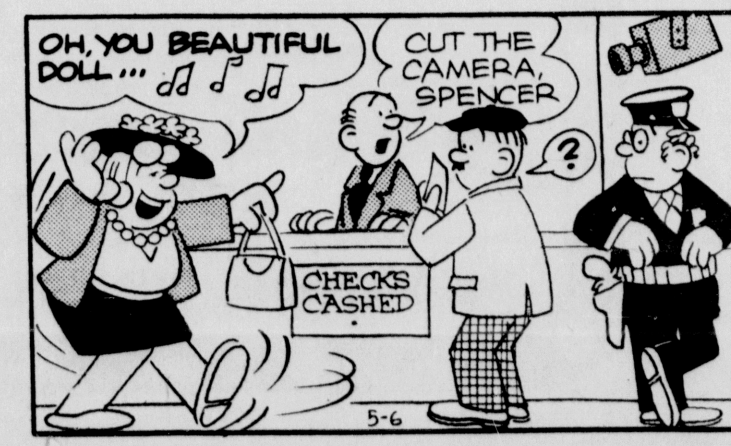

The problem of hockey, where fights always occur, "is being resolved by only televising the games of nice teams," he added.

Foon said the matter of

DAILY CRYPTOQUOTE — Here's how to work it:
A X Y D L B A A X R
is L O N G F E L L O W

One letter simply stands for another. In this sample A is used for the three L's, X for the two O's, etc. Single letters, apostrophes, the length and formation of the words are all hints. Each day the code letters are different.

Logan Elm Board Discusses 1975 Football Program

In the regular monthly meeting of the Logan Elm Board of Education Monday night, a discussion was held with the football coach on the plans for the program this fall. Perry Griffith, I.E.'s head football coach, discussed his plans for updating the program and made three requests for assistance from the board.

Griffith asked that the board purchase for his program a 16 millimeter camera and projector and requested that consideration be made for the employment of a fifth coach to help strengthen the reserve football program. The coach also asked that the gymnasium be opened during the summer months for six nights a week between the hours of 5 to 7:30 p.m.

The board tabled all action on these requests but agreed to discuss them further and to take action during an extended meeting on May 22.

Librarians Judy Beaver and Pamela Grow talked with the board and discussed the history and growth of the libraries in the Logan Elm District. The two ladies ended their talk with the request that the board consider an addition to the library staff for the 1975-76 school year.

Principals Roger Wolfe of the McDowell Exchange School and Dow West of the high school, presented brief outlines of their respective teachers' schedules and assignments for the coming school year. Their discussion was summed up by asking for the addition of a full-time teacher and a part-time teacher at the high school and one full-time teacher at the junior high.

In other action, the board borrowed \$100,000 for bills and payroll and authorized the clerk to borrow an additional \$75,000 for the expected delivery of five new school buses.

The board also employed Mary LaCourt as a special education teacher for the 1975-76 school year and Lynn Demojzes, a graduate of Otterbein College, as a substitute music teacher for the remainder of this school year.

Two staff members were employed on continuing basis. Dan DeLong, high

school American Government teacher, and Dale Drake, teacher-principal at Washington Elementary School were given continuing contracts. The resignation of Beverly Spencer, art teacher at the elementary level, was accepted.

Approval was given for the list of 1975 graduates. There is a total of 147 scheduled to graduate this spring.

Bids were considered and the low bid taken on a ten-horsepower lawn tractor for use at the high school and junior high school. The low bid of \$1350 was made on the AMF tractor and mower from the Laurelville Grain and Mill Company.

Approval was also given for Superintendent John Henn to accept bids for the removal of a wooden frame building at the Laurelville School. Bids should be in the superintendent's office no later than May 21.

The board also authorized Henn to advertise for window replacement in the elementary buildings.

Four requests for personal leave

were discussed by the board and three were denied. The fourth was granted.

The board authorized the use of proxy to vote at the Earnhart Water meeting to be held this month.

A request from the industrial arts department for a new lathe and grinder was granted and approval was made for the IBM service agreement for the district's three electric typewriters.

Goble Branham, transportation coordinator, was given permission to attend the transportation workshop at Ohio University July 7-11.

The board will convene again for a continuation of this month's business on May 22.

mixed plaster and mortar for a new five-story addition to the main Post, Telephone and Telegraph office in the city center.

Rebuilding of shops and houses on Kham Thein Street is almost completed and the population of the street and its 26 shopping lanes is back to its normal level of about 30,000. The street was leveled by bombing attacks on Dec. 26, 1972, in which the Hanoi government said 283 were killed and 266 wounded.

Saigon Radio, monitored in Bangkok, ordered policemen and members of the armed forces under the deflated regime to report to the new authorities or face severe punishment. The deadline for doing so was extended from Wednesday to May 31.

The central disarmament committee announced that it was forbidden to destroy military or other equipment belonging to the old government or to Americans, and added that those removing parts from machines or vehicles would be punished. The old regime had let black market sales of military hardware flourish openly.

Meanwhile the airlift of Vietnamese refugees to the United States continued. Former Premier Nguyen Cao Ky arrived in California.

Deputy Recovers Stolen Auto

Pickaway County Sheriff's Deputy Nick Franklin recovered a car that was stolen from the home of Virginia Sherman, Route 1, Amanda.

The car, a 1968 Plymouth, was apparently stolen sometime between 11 p.m. Monday and 1 a.m. Tuesday from the driveway of her home on Route 752.

Franklin recovered the vehicle 1:50 a.m. Tuesday after it was abandoned at the intersection of Route 752 and the Circleville Winchester Rd.

The vehicle was in operating condition.

Thieves Flip Lock To Steal CB Radio Unit

Thieves forced open the door of a car owned by James Lovett, Route 1, Stoutsville, to take a Pace 23-channel citizen's band radio valued at \$200.

Lovett told Pickaway County Sheriff's Deputies that he parked his vehicle Monday at 10:30 p.m. at the L-K Restaurant, Route 23 south, and noticed the unit missing when he returned Tuesday at 1:48 a.m.

Deputies found that the thieves pushed a coat hanger through the rubber window separation to lift the door lock on the car and gain entry.

Two Fires Investigated By Deputies

Pickaway County Sheriff's Deputies were called to investigate two fires Monday, both in the eastern part of the county.

Deputy Jim Fite investigated a car fire 11 a.m. Monday on the East Ringgold Southern Rd. intersection on the Circleville-Stoutsville Rd.

Clearcreek Twp. firemen had the blaze under control when Fite arrived. The fire in the 1968 Chevrolet was blamed on an overheated engine.

A youngster pouring gasoline into a hot lawnmower was blamed for a 9 p.m. Monday fire that destroyed a shed owned by Pickaway County Commissioners.

The storage shed, on Route 22 at the Ringgold-Northern Rd. intersection, was being rented by Gerald Hixon, Route 5.

Richard Hixon, 12, was apparently filling the lawnmower with gas when it overflowed and ignited on the hot engine.

MISS DIEHL

Mr. and Mrs. George Diehl (Kristine Blankenship,) Kingston, are the parents of a 9-pound 4-ounce daughter born 2 p.m. Monday at Berger Hospital.

Paintings Displayed

VALLY RAHE

The paintings of Vally Rahe are now being displayed in the north hallway of the main office of The Second National Bank of Circleville.

Mrs. Rahe is the vice president of the Circleville Art League. She has had her works displayed at the Mall, Big Flats, New York; Corning, New York; Hospital Guild International; Circleville Art League shows; Pumpkin Show; Pickaway County Fair; Ashville 4th of July and The Ohio State Fair.

Mrs. Rahe attributes her success as a painter to the teaching and encouragement given by Robert Garrett, an art teacher at Corning, New York and also her own self teaching.

The subject matter of her paintings include memories, places visited, situations, and things that have character. Vally feels she has a need to paint and is a firm believer in "minding the home front" while the children are young. "I find that art in any form provides a perfect opportunity to do your 'own thing' and

still be available when needed."

Mrs. Rahe's paintings include oil, pastel, some silk screen and linoleum block prints and watercolors. Those on display are: "Crites Farm"; "Brown County"; "Old Mill"; "Hargus"; "Foothills"; "County Fair"; "Fruit Market"; "Rothenburg"; and "An Apple, Mister."

Mrs. Rahe and her husband Villem, an engineer at RCA, reside at 343 Meadow Lane. They have six children: Helle who is a physical therapist in New York; Arvo and Peter who are both attending Ohio State; Kristi who is a Circleville High School Senior; Kristjan who is in Circleville Junior High School; and Tina who is a third grader at Nicholas Drive Elementary.

Mrs. Rahe is from Estonia which is now a part of Russia. She immigrated to Canada in 1948 and entered the United States in 1952. Mrs. Rahe says, "I'm proud to be a United States citizen."

Court Releases Monthly Report

A monthly report for April released today by Judge William Ammer showed a total of 79 new cases were filed during the month in the Pickaway County Common Pleas Court.

Of those new cases filed, one was personal injury, 34 were criminal, 28 were domestic relations and 16 fell into the "others" category.

There were 228 cases pending at the beginning of the month and 83 cases terminated during April leaving a total of 224 pending on the court's docket at the end of the month.

One case during the month was terminated by a jury trial, four by court trial, two by pre-trial, 15 by dismissal, 60 by default and one by transfer to another court or judge.

Those cases terminated by category are as follows: seven personal injury, 34 criminal, 34 domestic relations and eight others.

BLAST OFF—The sixth annual Y Indian Guide rocket shoot was held Sunday at Owen-Illinois Plant where 75 rockets were launched. Gary Valentine (right) his son Preston (left) and Cecil Nelson (center) chief of the Ashville Crow Tribe are pictured counting down for their launch.

Three big ways to compare three small cars.

1. Gas mileage and range

What car gets you 30 miles per gallon on the highway and goes the farthest on a tank of gas?

Gremlin

Pinto

Vega

Source: 1975 U.S. Environmental Protection Agency figures. Engine: Optional 258 CID Six.

Driving range based on results of 1975 U.S. EPA tests of the optional 258 CID Six and standard 232 CID Six, multiplied by Gremlin's 21-gallon gas tank capacity.

2. Resale value

What car has the best resale value of any small car built in America?

Gremlin

Pinto

Vega

Average used car resale prices, March 1975. Source: Automotive Market Report, 3/10/75. Market Averages, Zones 1, 2 and 3, for 1973 and 1974 compact and sub-compact models.

3. Coverage

AMC BUYER PROTECTION PLAN

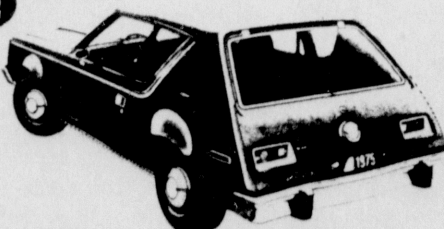

How does Pinto's and Vega's warranty coverage compare with Gremlin's coverage under the AMC Buyer Protection Plan? Check it out for yourself. The following parts and services are covered against factory defects or failure due to wear for 12 months or 12,000 miles.
